Hello,

As a mom with 2 daughters, I am deeply concerned about fairness in sports and the rights of my daughters to have sex based facilities separate from male bodies. Sports separation of male and female is based on bodies, not identities. Female competition is completely unfair when including males, especially in puberty or post puberty. T suppression does not equal the playing field. It is dangerous for girls. Girls have the right to privacy from males when they need to change.

I have compassion for those people with dysphoria. There needs to be sporting opportunities for them, but not at the expense of women and girls. This is not fair. Please do the right thing.
