I urge Biden to protect the characteristic of sex as it is protected in the writing and passing of Title IX.

I and many girls and women benefited because of Title IX. I accelerated because of my access to girls and women sports. Having suffered sexual abuse and molestation from the age of five years old, I lacked confidence and esteem. I also found sports intimidating because I could not find a place amongst the boys and men who played it. Even when I tried to play pick-up basketball in New York, I could not work on my skills because I was in danger of getting hurt. Boys and men are no match for females. I was eventually able to participate on girls teams and I eventually played college basketball. Although my family's finances were low, because I played sports I got to travel and also meet so many people of different backgrounds. I accelerated because I felt safe amongst other girls and women.

It wrong to exclude girls and women to address an issue of another demographic. That is what Biden and Harris are doing by destroying the intent for Title IX to help girls and women get access to sports. It is not fair to require girls and women to use bathrooms and locker rooms with people who are male bodied. This is wrong.

Why is it that girls and women must suffer and lose out simply because they were born female? Biden writing that sex includes gender identity is wrong and is completely destroys girls and women spaces. Girls and women cannot change their sex based on their feeling. When we are molested and raped even at young ages, we cannot hide based on what we think we are. We are females, and it is wrong to turn your backs on us.

Please protect Title IX for girls and women.

Thank you,

Sincerely,

Ayana Webb
