Hello,

I am very concerned about the changes the Department of Education is contemplating regarding gender issues in schools. Allowing transgirls and transwomen to play on female teams is a corruption of the spirit and SAFETY of single-sex sports. Biological males are for the most part bigger and more powerful than biological females. The threat of injury to girls and women is real. Also, by allowing transgirls and transwomen to play as females, you would be denying that spot to females and possible scholarships. There is nothing wrong with having co-ed teams where people of all genders and identities can play. Just don't encroach on the rights of females, rights that we have fought long and hard to obtain!

Becky Bohan
