These new executive orders from Biden regarding expanding the definition of the word "sex" to include "sexual orientation and gender identity" are preposterous. A boy is a boy and a girl is a girl. This is defined by biological chromosomes and is not an identity that a child - who is not old enough to drive let alone think they can select their identity - can select. To think selecting one's own gender is an option in society is to go against the laws of nature and the laws of God. Then to take this a step further and to allow boys to play in girls sports, decimating their records and, as in the case of wrestling instances, the girls' very bodies is an absolute disgrace.
