To Whom It May Concern:

We have heard for many months that we should "believe the Science". Science clearly shows that there is no such thing as a transgender. Biological males are still males, regardless of their feelings, medications, and surgeries. Allowing them to compete against females (and use women's facilities) defies the meaning of 'equal' and will totally destroy any fairness in women's sports.

The First Amendment is still in place and religious schools teaching on Biblical sexuality are still protected by it.

I definitely do not want my tax dollars to be used to force religious schools to either compromise Biblical teaching or close.
