I was (b)(6), anxiously awaiting the Summer Olympics in Munich . My sister and I were AAU swimmers (USS) by today's rankings. Many of our team mates on (b)(6) AAU, had gone to The Olympic Trials in Chicago.

After the US women's team was decided we were so anxious to watch them have a strong showing at the Munich Olympics. When the fastest female swimmers, Shirley Babashoff and Deena Deardurff who had recorded World record times, were beaten by an unheard of team of East German swimmers, posting remarkable times, we and the world were shocked. When it was later discovered the steroid cheating the East German government was involved in, it was the end of innocence. Watching unknown East German swimmers earn Gold and Silver Medals was unbelievable.

Jump to 2021.... To allow biological males who have gone through puberty to compete in Women's sports, is nothing less than cheating at the 1972 East German standards. Please "follow the science" to Save Women's Sports.
