I'm writing to voice my support for keeping biological males out of female sports! There is a difference between biological sex and the social construct of gender. Title 9 was meant to protect the rights of females and give us equal opportunities.

Allowing biological males to participate against female sports goes against common sense. Martina Navratilova knew it before she was publicly shamed and forced to apologise for what she knew to be common sense. I know it as a female athlete. And, I know, you know it only makes sense.

I am a lesbian and have been an ally to the trans community for decades. But, I have to part ways here and say no! Biological males do not belong in female sports!

I really never expect my government representatives to do anything in the best at interest of females, and, really, I don't expect you to do the right thing here either. But, I would love to be proved wrong and see you stand up to the bullying tactics of the transactivists. Just because they are loud doesn't make them right.

Keep males out of female sports.
