Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse - harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights - including rights of parents to teach their children about sex - must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Joy Bush

This Department must not violate the privacy of girls. This Department must not force girls to forfeit their opportunities to boys. Grown women of today have not had these problems when they were growing up. Would your wife and the women in the departments today have liked the changes that are proposed? None of them had these issues so none of them know the ramifications of these issues! All adult women need to really look at the proposed changes and see if they are really necessary! Remembering their own young years should help them realize that change is NOT needed!

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Christine Koch

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

Vulnerable children must indeed be protected, but not at the cost of a disconnect from truth. Science affirms that gender is determined by genetics. It clearly is not a choice.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This censorship is an erosion of the foundation of democracy. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. They must be able to teach them truth, keep them committed to living in reality, and refuse indoctrination into delusion. Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Richard Jones

I recognize there are many lifestyles choices out there. I cannot dictate how individuals should live their lives. But it should not be forced on our students. We can educate children how to be kind... period. Whether it is because of an individuals gender identity or because of the color of their skin.. or the neighborhood they live in.. or their disability. But I do not think that we need to change laws and force the issue on kids. Most kids are not equipped to understand the complexity of the issue.. and it goes against religious freedoms. As a God fearing, Bible believing individual, God is pretty clear about creating man and woman.. He didn't make a mistake and to force individuals to accept it as ok... is.. well.. not okay. We are called
to still love people who are lost or confused but not condone their choices. If I remember correctly, our country was founded on belief in God and religious freedom. It is one of the things that makes our nation great. Don’t take away our freedom.

And just as a side, there is something inherently unsafe about allowing biological males to share showers with biological females. I have three daughters and that thought terrifies me. They should not have to live with that fear.

And how about the ridiculousness of allowing biological males to participate in female sports. I am pretty sure not matter what surgery or medication/hormones one is taking, a biological male, still as a general rule, has longer/stronger bone structure, greater muscle mass, larger lung capacity, and greater blood volume, just to name a few. All of these characteristics give biological males an unfair advantage over females, even females at the top of their game. After all the work done to create opportunity for females in sports this would completely undermine all of it and take us back to limited opportunity for females.

Thank you,

Mrs. Stacy Swan

The Department of Education has no business redefining gender. Boys are boys and girls are girls! The idea of having boys self identifying as girls and competing in girls sports is absurd. Boys should not have access to girls locker rooms or showers!

It is sad that we have reached the point where this is even being considered!

Dear Acting Director Goldberg,

Dear Acting Director:
Because I work with teenage girls, I am writing to you about the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)," which were crafted to give educational opportunities to women and girls.

In the best interest of girls, it is important that the government follow the definitions, purpose, and scope of this law. Unfortunately, the Administration's and the Department's actions seem to be moving to redefine law and, worse- harm privacy and take opportunities from women and girls.

The Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys, which would have violated the privacy of girls. Girls were protected from this invasion of privacy when a nationwide injunction stopped it.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. It is important that science be considered in making this decision. Science makes clear that every cell in a male body remains male even when hormones are administered and when the external parts of the body are change. That research can easily be accessed and used to help you make this decision.

And when girls speak up about competing against biological boys or having to share spaces with them which violates their privacy, they are censored. This Department must not force girls to forfeit their opportunities or privacy to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing scientifically questionable gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing these gender ideologies nationwide.

Thank you for helping to protect girls and women by making a wise decision and giving and protecting girls opportunities and privacy,
Sherry Swanson

As a grandmother of several grandchildren, as a retired teacher, I strongly encourage you to be mindful of your choices. It is very clear to me that the male and female needs to be given privacy and full gender consideration. Protect our young people and keep female with female and male with male. Why would government put their nose in Sexual Orientation and Gender Identity. Don't the kids have enough to deal with already without adding this dynamics to their fragile emotional well-being.

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Carole Homoney

I want to make it clear that while I disagree with the LGBTQ/Transgender agenda and ideology, I do not hate or wish harm toward anyone, and I believe they should have equal access to opportunities, but you can't trample on the rights and dignity of a large group to satisfy a small group whose basis for complaints is questionable and goes against science, facts and truth!! Playing a pretend game to protect people’s feelings and emotions while completely ignoring the much larger group of students and parents is not the way to resolve this situation!!

I find it ludicrous that I even need to send this email be of some of the government *imposing and infringing* upon our children. I am outraged and will not stand for this. My children, nor any other child I care about, will have this agenda forced upon them. I am not willing to stand idly by and watch the government impose these things that can drastically alter their lives in the wrong direction. It's not their place and they need to step back and sit down!

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dear Acting Director Goldberg,

From a concerned parent who has children in the public school system, I am extremely concerned that the Biden administration has clearly ignored the definitions, purpose and scope of the law. I believe the parental rights are being excluded and the administration is threatening the innocence of our children by forcing the gender identity crisis down the throats of the next generation.

I am writing to request for the Department to protect the parental rights and give those right back to teach their own children about sex, gender, self worth and identity. This is certainly NOT the role of the federal government and must be stopped from radicalizing the gender ideology on a national scale.

The Department of Education MUST stop this from continuing down a horrible path before it ruins our nation and it's children.

This is so personal to my family. The culture and government think that they are creating equality but in reality they are just changing who they exclude. Now they are excluding people with classic worldviews, like my Christian family and attempting to punish us for wanting to teach our children that there is a difference between girls and boys. Common sense has gone out the window in exchange for radical agendas I never thought I'd see in my lifetime. If some people want to jump on these false trains - then fine I'm not going to force them to stop. But I'd appreciate if they'd also continue to let our family live according to our deeply held convictions and stop teaching my children these things in the public schools. Take it out. Leave it with the families.
Stick to the basics. These are unproven ideas. PLEASE, I STRONGLY OPPOSE ANY CHANGES.

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Phyllis Wheeler

Finally, parental rights - including rights of parents to teach their children about sex - must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

It is not the responsibility of educators to teach 'morals.' The education system is to teach children to compete in Math, Science, English, Literature, studies that prepare children for college or tech school. There are people who work the registers that can't give change if the computers go down. Children should learn the true history of this great country and what makes the United States the greatest country in the world. It is not something to be ashamed of but embraced. God is the great Creator. Our founding fathers lifted this new country up to God in prayer. I believe they would not recognize what we've become. Educators should encourage education, for children to be their best at Math, spelling, reading. Children should learn...
about our government, how it works at the local level on up to the federal level. Education should not reflect on any level anything to do with the color of your skin or male or female. 2+2 always equals four every time.

It is the responsibility of the parent to teach their children morals. I personally do not want someone infecting young mind's with something that is immoral. All this talk of transgenderism is exactly that and sinful. It is just wrong! Please keep any of President Biden's policies out of our schools.

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. Girls and women are considered the weaker sex, but that has nothing to do with their courage or intellect. It has everything to do with the fact that males are typically larger, stronger and faster. Women should be able to compete in events that are not slanted against them by laws meant to protect the rights of people who have chosen to live lives as though they were a different sex. That choice, although held sincerely doesn't erase the inherent advantage hormonal and physical advantage they were born with.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Acting Director Goldberg

Dear Acting Director Goldberg,

I am a retired elementary public school teacher and a grandmother. I have concerns about the Education Department's "Title IX Virtual Public Hearing" to gather information for the purpose of improving enforcement of the Title IX Education Amendments.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department of Education have completely ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

When women and girls compete against boys, they lose. When legislation supports the competition of girls against boys, girls lose. The biology is obvious. When a baby is born, the doctor looks at the baby and states, "It's a girl" or "It's a boy". Girls losing to boys in athletic competitions is clearly discrimination to girls and women. Perhaps a fair solution would be to have sporting events that include these categories: boys events, girls events, and transgender events.

The Department of Education and the Biden Administration cannot and should not legislate radical gender ideologies. Parents in the home are to teach their children about sex and the government is supposed to respect this right. For the sake of children thriving in the family, the Department of Education and Biden Administration must allow the family to do their job. If parents were allowed to do their job without government intrusion, there would be a lot less confusion for children growing up in this already confusing world.

I am asking the Department of Education and Biden Administration to stop the implementation of radical gender ideologies in our nation!

Thank you for your time.

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

I strongly oppose incorporating sexual orientation and gender identity in national education policies. Especially concerning is girls needing to share locker rooms with boys. It is well known that males have definite physical advantages over females. To allow the two sexes together undermines one of the original objectives of Title IX which was to upgrade and give girls more advantages in sports.

I have two daughters of my own who are working hard to make their way in this world. We do not need to inject this politically motivated rhetoric into our schools. I will not stand for it. I will not allow biological males to use the same locker room or bathroom that my daughters do, just because they one day decide to call themselves female or because they can't decide what sex they want to be. If there are such people in our schools that can't figure out what their sex is, they should seek medical help. We should not be playing along with their gender-disphoria and confuse them even more.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

I was ten years old, turning eleven when Title IX was implemented. Most Americans can’t imagine a time when girls were not allowed to compete against girls only. If a girl wanted to participate in sports, she had to work to be on the boys’ team.

We can’t allow girls to be forced to again compete against boys/males, even if those males want to test their skills and most likely best the girls. Breaking records in female competitions is easier if you happen to be a male.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Brenda Sunday

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Christina Johnson

Dear Acting Director Goldberg,

Thank you for the opportunity to comment on the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. It seems the definitions, purpose, and scope of this law are being ignored. In a rush to redefine law, the privacy of girls and women is being sacrificed, and the opportunities for women and girls to compete fairly in sports is being lost to biological males.

I am urging this Department to NOT violate the privacy of girls or compromise the integrity of girl's sports. Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This is WRONG.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. This is NOT progress. It is WRONG.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

Dear Acting Director Goldberg,

I understand that the U.S. Department of Education is looking to further destroy real education and real progress in this country by ignoring the definition, purpose and intent of the Title IX of the Education Amendments of 1972.

These amendments have provided educational opportunities to women and girls over the past nearly 50 years and now, special interest groups are looking to redefine law and jerk privacy and opportunity from females? That's crazy!

In addition, I urge this current administration to turn to reason by respecting parental rights regarding teaching children about sex and gender. Promoting radical sex and gender misinformation in schools is NOT real education nor is it the role of the federal government.

I request that the Department of Education reject the move toward implementing radical gender ideologies in schools.

I am writing to you to share my concerns:

Parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide. I strongly oppose any changes in their education policies that redefine sex to include "sexual orientation" and "gender identity". Biden's Education Department has no place attempting to implement this radical agenda into every local school district in the country. We do not need to cause this confusion for our children.

Thank You for your time and review.

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Marcia Hellman

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, completely ignore the detrimental effects YOUR OVERREACHING will have on our children including: harm their privacy and steal opportunities for women and girls. EACH ONE OF YOU NEEDS TO GET OUT OF OUR EDUCATIONAL SYSTEMS AND GET BACK INTO YOUR BIBLES BECAUSE WHAT YOU ARE FORCING IS WRONG & PURELY EVIL! I am praying for God's mighty hand of intervention to rid this earth of the pure evil that is being forced upon the people of this nation & HE WILL NOT tolerate evil & inappropriate ideologies tainting the world that HE created!

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls & I find it absolutely appalling that a letter such as this has to be created to reign in such an inappropriate thought process! Pure evil & wickedness & it does NOT represent the values of this country nor the values in which this country was created! If you don't see this then YOU ARE THE PROBLEM & NEED TO AGAIN GET BACK IN YOUR BIBLES & RESIGN FROM ALL DECISION MAKING ABILITIES AS IT RELATES TO OUR CHILDREN!

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. If transgenderism is so important to you then have separate competitions, for those who are transgender & keep biological males out of our girls sports, locker rooms, hotel rooms, & bathrooms!
Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide because these radical views do NOT represent the MAJORITY OF THE PEOPLE IN THIS COUNTRY but rather a small few!

Each of you need to know that the Title IX Amendments are wrong, evil, & go completely against the values for which this country was created & DOES NOT REPRESENT THE WILL OF THE PEOPLE OF THE UNITED STATES OF AMERICA!

Thank you,

Mrs. Michele Jones

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Tammy Reidenbach

Dear Acting Director Goldberg,

We are writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls. WE STRONGLY OPPOSE ANY CHANGES in their education policies that redefine "sex" to include "sexual orientation" and "gender identity." Biden's Education Department has no place attempting to implement this radical agenda into every local school district in the country. THIS IS SHAMEFUL AND DISRESPECTFUL! What is this country of ours gonna do next to remove our parents AND children's rights???

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide. We thought we voted for the right party!!! Maybe not!!

Get the federal government out of the education system. Federal meddling is getting sicker and sicker when democrats are in power. Today, human trafficking is rampant. Girls are being stolen, exploited and used to make money for sexual predators and faces hiding behind screens. We should be a society who honors, values and protects our girls, not one who will be putting them in more danger in the locker room, or worse yet, creating a feeling of defeat in sports because they can no longer compete against other females and now males as well.

We need to be better than this. We need to be a society who values ALL groups, not just one. Girls need to have rights too.

Thank you for taking the time to hear me.

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I am old enough to have not benefited from Title IX. Opportunities for extracurricular activities for girls was severely limited. My daughter, along with many many others did benefit and I am grateful. I beg you to not consider changes to this policy that will dilute the opportunities women have been rightly given.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

I am equally concerned for the young people who are suffering gender dysphoria. I believe they should be heard and treated compassionately with scientifically substantiated treatments. At this moment in time, this does not include the radical policies being considered. Institutions in this country as well as Sweden who have long treated individuals with medications, hormones, and radical surgeries have noted the poor long term outcomes and therefore suspended these treatments. Please do not overlook these facts for short term political capital.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Adam Graessle

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse—harm privacy and steal opportunities for women and girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

I am tired of this administration telling me what I need to believe and that I must ignore my Biblical beliefs to make someone else comfortable. That is not my responsibility. I will not stand for teaching my children to judge someone else by the color of their skin or their sex. I will hold firm on my religious beliefs and sex cannot be changed. A man can NEVER become a woman and a woman a man. This concept demeans women. Get out of our schools! I as a parent will not stand for this curriculum or your viewpoint!

Finally parental rights— including rights of parents to teach their children about sex—must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Please seek wisdom to make the right decision here!

Thank you,

Mrs. Suzanne Shirley

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. We must remember that girls are already taken advantage of, sexually molested and used for sex slavery in our world today. And by adding these rules and laws, we are only hurting them more. It is as if you want to harm children and not stand up for them. Please reconsider this all. And think about the girls you want to help not hurt. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. We have fought so hard to allow equal opportunities for girls, why must we take that away now. They have a right to participate against others girls, and not have to be fighting for spots against boys. This is not what we have fought so hard to get to, and just to have it stripped away and taken back to what it was.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The federal government must allow me to teach my child about these things, and not taken up on themselves. You the government are there to fight for my rights as a citizen, not tell teach my child the wrong or right way to think of sexual ideologies.
The Department must reject implementing radical gender ideologies nationwide.

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Virginia Choate

I am a Grandmother and I am very concerned about what is being taught to my grandchildren and others. All of this stuff I'm hearing about is ridiculous and goes against all I believe. Please teach the basics - "reading, writing, arithmetic" and the skills to give them a solid footing for their future as well as the true facts about our history - those who forget (or rewrite history) will relive the mistakes of the past and we are already seeing that today in our culture. I am so sad that we have taught disrespect and violence in approaching anyone we disagree with. Why can't we find common ground and work peacefully with one another? Why has the word "tolerance" become "you believe, accept and do as I do" or you're cancelled - no questions asked! I stand up for the Christian values and on the Word of God but I'm willing to sit down and talk about our differences.

Dear Acting Director Goldberg,

I am writing to you about the "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

Sharing locker rooms with boys is potentially dangerous and uncomfortable for girls. If the Biden Administration cares about protecting women's rights, this should not happen.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. This is unfair, and will likely result in most girls not having the opportunity to compete in school sports.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Linda Garcia

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I worry enough about my daughter being hurt by someone's inappropriate actions towards her and her body. The thought of her having to share a locker room or gym shower with a male who claims he identifies as a female makes me cringe. She should not be exposed to a male's anatomy until she is an adult.

Please help protect my daughter's freedom by protecting her from being exposed to things she is not ready to experience.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. How can my little girl ever experience a significant win if biological boys are allowed to compete in the same rank as she is. He would have an unfair advantage biologically.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. I beseech you to protect my freedoms as a parent and reject implementing radical gender ideologies nationwide.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. James Pinedo

This agenda does not protect the rights of parents over their own children, it doesn't protect the rights of each individual to be able to speak for themselves and oppose anything that they do not want to follow or be a part of. This endangers our kids and is a form of hatred towards any one that disagrees with the agendas that the culture is trying to FORCE on others against their wills. This is wrong and will not be tolerated!

Dear Acting Director Goldberg,

Sexual orientation and gender identity are individual and personal choices, as such they are not choices everyone MUST be made to experience or participate in, especially our children. God will judge your actions, and I am writing to encourage you to reconsider your intentions to redefine sex, to include "sexual orientation".

Biological sex is science and for the past year and a half, everyone has been telling the public "to listen to the science", to follow the science" and now those of you in the Department of Education need, may I say, MUST, do the same! Science is factual evidence and the fact is, a human beings sex is pre-determined before birth. It is only sexual confusion of the mind that makes one think "sexual orientation" is scientific.

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender
ideologies nationwide.

Thank you,

Mrs. Cheryl Dempsey

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. This will harm privacy and steal opportunities from women and girls. Please do not violate the privacy of vulnerable girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government.

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department are introducing amendments that are at odds to the original intent of the Amendments and pose a genuine risk to school age girls, if not women generally.

I am particularly concerned about allowing biological males to compete against women and share intimate spaces with women. This ignores fundamental distinctions that experts in the life sciences have confirmed at the cellular, muscular and skeletal level between boys and girls (men/women), not to mention the non-socially-driven differences between boys and girls in their mean/statistical proclivities psychologically (things that track between chimps and humans). Ignoring fundamental differences reflects a profound disrespect for the dignity of boys and girls, men and women. I am not opposed to allowing young people to explore, discuss and understand gender, but it is dangerous to leave the known good science on the matter and put people at risk of life-long damage to their careers, ambitions and psyche generally. The Biden Education Department must not force girls to forfeit their opportunities to boys.

Finally, the Biden Administration must know that the people most invested in, and most likely to take good care of the students' well being are the parents. There are dysfunctional parent-child relationships, but parents will always love and cherish the child more than the State -- parents must be the default decision makers in setting boundaries around children to protect them and nourish them. To design policies around incompetent parenting is to design increasing incompetence into future parenting and reflects a profound disregard for parents and the need for individually accountable humans (parents) to take responsibility for other humans whom they've brought into the world (children). That parent-child relationship is one of the oldest structures known to humanity and it is vital to our ongoing survival, a fact that is very well supported in the sociological
sciences/literature. The Biden Education Department must not disregard parental responsibility and authority for their children, whether biological or adopted.

Thank you,

Dr. Andrew Griffis

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Jessica Aske

I am a parent of 4 girls. Do not take my rights as their mother away. I have their best interest at heart and will do all within my power to help them succeed in life. The federal government cannot say the same and should not be held responsible or given my rights to decide what they should be taught. It is my job to teach and educate and I look to the schools to reinforce and help me, and not the government. I look for schools to help teach math, science, reading, writing, and good citizenship- not gender ideologies.

Do not jeopardise my girl's rights of safety and equality that their parents, grandparents, and countless other generations have worked so
hard for. Please be respectful and kind, but do not hurt the majority for the sake of the minority. One of the reasons the United States has worked and prospered is because we let our voices be heard and majority votes matter.

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls. How many years have women had to fight for their rights and in one quick year you want to strip it down to nothing. We are finally getting out of the deep hush and guilt when we are sexually attacked. And you have the audacity to make it not only legal for men to go into the women's restroom to gawk, molest, or assault women; but to further make it illegal for us to want otherwise. WHERE ARE OUR RIGHTS!

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Additionally sexualizing children at a young age before they even care is far more than inappropriate. Children need to be just that children. why should you shove all your garbage on them.

If anything should be censored it should be our lewd conduct around innocent children.

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Tina Pressler

Discrimination defined as the recognition and understanding of the difference between one thing and another, is not always bad. In fact, it is a natural function of the human mind. Please do not remove healthy discrimination between males and females in a misguided attempt to remove all discrimination from society. You will hurt people of all genders.

Please be reasonable and not radical in your policies.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally, parental rights— including rights of parents to teach their children about sex— must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Gerald Mobley

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

Sexual orientation is an adult issue that should not be imposed on minors in any setting, and especially not by the government. No one other than parents and legal guardians know their children emotionally and developmentally well enough to discern, for their minor child, when the topic of sexual orientation is appropriate to be introduced to their child.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. Furthermore, children as young as 5 years old (kindergarten) are entirely too young to learn about this radical gender ideology. Having taught kindergarten in public schools I understand the development of children 5 and 6 years old. They love to pretend, to dream, to learn. Should the same group of kids who pretend to be dogs and cats on the playground be taught that they can choose their own gender? As if what they pretend or desire is reality? If individual parents want to teach this to their children let them, but it should not be chosen by the states or nations education system.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Marion Haldeman

Dear Acting Director Goldberg,

This is not what Title IX was for, it was for giving girls opportunities and not let them be stolen by guys pretending to be girls. This strikes at the heart of girls sports.

Not only do I strongly oppose these radical gender interpretations, if implemented, I will pull my kids out of public school and I will home school. The government WILL NOT fill my children with anything that goes against scientific facts. It is a fact that you are born either female or male. End of discussion. The government has NO authority to tell my children they can be whatever they want. You are overstepping your authority and have confused your job on what you are supposed to teach. I will not allow you to indoctrinate my children into your radical ideology.

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

Do not use our children as guinea pigs in your desire to craft the minds of the next generation! The Title IX Amendments were designed to protect the privacy of, and opportunities for the young ladies in our families.

Our girls should be allowed to compete on a level playing field - not with biological boys who are allowed to compete with or against them. The Biden administration has shown a total disregard for the true fairness that should be a part of any sport!

Furthermore, we as parents and grandparents should have the right to teach our children about the beauty and uniqueness of the sexes - WITHOUT the government forcing radical gender ideologies in schools nationwide. That is NOT the role of the federal government!!

Thank you,

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Brenda Miller

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s ”Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Susann Pinkerton

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have shamefully ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

By violating the privacy of girls and women you take their safety away as well by those who seek to harm girls and women. You will see an increase in unwanted advances and worse, rape. There are those out there who will play at wanting to become a girl/woman just for the opportunity to breach these privacy areas.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This message continues to tell girls that they are inferior and that it does no good to stand up for what is right. This Department must not force girls to forfeit their opportunities to boys. This administration says that they want equality for all, but at what cost must that equality come? There are simply some areas where equality is not the right answer.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide. My child, my say as to what they learn and when they learn it!

I urge you to NOT make the changes suggested! I work in schools with young girls, particularly athletes, and know the risk and danger that you would be directly responsible for putting them in by making such changes, in particular allowing biological males to enter into biological females restrooms, locker rooms, and to compete alongside each other in sports, which provides a prime opportunity for any victimizer to rape, molest, and mistreat girls. Please do NOT allow these changes!

 Acting Director Goldberg

 Dear Acting Director Goldberg,

 I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

 The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

 I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

 Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

 Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

 Thank you,

 Mr. Robert Konecki

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Lavonne Kemmerer

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you regarding the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The purpose of these Amendments were clearly written to give females - women and girls educational opportunity. Both the Biden Administration and the Department seek to discredit the intent and provisions this law has made. This Administration's and the Department's actions, show us that there is a redefinition trying to be enacted which will rob girls and women of their opportunities in sports.

The Obama Administration tried this by threatening Title IX funding if schools didn't begin violating girls privacy by forcing them to share showers, locker rooms, even hotels with boys. And thankfully, there was an injunction against it. This Department must not seek to again violate girls and their privacy.

Girls are losing their place when competing against biological males during sports events. There is a biological difference between the strength of girls and the strength of boys that cannot be denied. This Department must not force girls and women to forfeit their privacy and opportunity within schools.

Finally, by trying to implement these radical gender ideas on a nationwide level, this Department removes parental rights to teach their own children about sex. Parental rights must be respected. It is not this Departments job to take that right away or inhibit it in any way. This is overreach. I stand STRONGLY OPPOSED to any change in the Departments policies to redefine "sex" to say "sexual orientation" or "gender identity" in any K-12 U.S. schools. These are radical ideologies. I urge you to reject any and all implementation at all levels of these radical gender ideologies. This is not in the best interest of our children.

Thank you,

I believe is my right to teach my children about sex and orientation in a more familiar and private space. With respect and without imposing anything that can go against their believe or imposing anything that can make them fell uncomfortable. The school is there for academics, not shape personal believe about sex on kids.

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Terri Rohr

I have been teaching teens for over 15 years. During their adolescent years they go through so many changes hormonally, socially and physically. They are not ready to make the adult decision to change their gender. There is no place for that in our schools, K-12. Therefore there is no need for unisex bathrooms and locker rooms. Keep things the way they are for the safety and sanity of our children.

The United States of America was founded on FREEDOM. The government has no place in teaching children about sex or sexual orientation. This is the right and duty of their parents to teach their children when the parents feel it is the appropriate time in their children's life.

It is also unfair to allow boys to compete in girl sports just because they feel they should of been born a girl instead of a boy. I do not feel that any child, before the age of 18 years, can truly understand their body and the changes that are and will continue to occur during their adolescent and young adult years. Perhaps the system needs to have transgender sporting events just as the Special Olympics was.
established for special needs people. Allowing transgenders to compete against students born as a female is like telling the special needs people to compete in the regular Olympics.

To conclude, the government has no business taking away the raising of a child from their parents. The moral upbringing of a child is none of the government's business unless the child is in danger. The Federal government IS NOT THE CHILD'S PARENT and has NO RIGHT TO TAKE THIS DUTY AND FREEDOM AWAY FROM THE PARENTS!!!

I am a female who grew up in the 1950's when many career opportunities were denied me, because I was a female. We've come a long way. It is disheartening to see this female empowerment being taken away to advance a social agenda which is not based on the physical science reality of the foundational and significant differences between males and females. Both sexes are equal in value, but we are not the same. Please protection the 50 % of the population that is being denied identity and rights.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights, including rights of parents to teach their children about sex, must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Ellen Grider

Dear Acting Director Goldberg,

This is regarding the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

Title IX Amendments were established to give educational opportunities to women and girls. The Biden-Harris Administration AND the Department have fully ignored the purpose and scope of this law. Your actions to redefine law will harm privacy and steal opportunities for women and girls! It's dangerous! This Department must NOT violate the privacy of girls.

Biological boys being allowed to compete with girls, which is already going on today, is unfair and ethically wrong.

As to sex and gender identity, the federal government has no place, and no right, implementing these ungodly ideologies in schools nation-wide. As to sex education, that is the parents' responsibility and right. I ask that the Department reject the implementation of these radical gender ideologies across this nation.

Thank you,

Mrs. Nancy Letterese

Dear Acting Director Goldberg,

During the late 60's and early 70's, girls sports were almost nonexistent in [b][6] Girls could be cheer leaders and that was about it. I was elected to the school board on the platform that I would work toward equal opportunity for girls in sports. After Title IX was signed into law, the board worked to provide girls the opportunity to participate in a variety of sports.

If changes are made to Title IX that would permit biological boys to participate in girls sports, girls would once again be at a disadvantage. PLEASE DO NOT MAKE CHANGES TO TITLE IX.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Cindy Von Coelln

Males and females of all ages, including children need to be able to keep their right for privacy and modesty by being able to choose if they want to share a bathroom, locker room, hotel room etc with a member of the opposite sex. Forcing children and teens to forfeit their privacy and modesty is a recipe for disaster! There will be an increase in teen pregnancies and promiscuous lifestyles if the privacy and modesty of every individual is not honored!

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

In addition, affirming any belief of a child because it is politically advantageous to do so is wrong. We are told to have mercy on young, teenage murderers and criminals because their frontal lobes are not developed enough to make rational decisions all the time. Victims of crime are told that they should see the perpetrators as children who "didn't know" or couldn't make appropriate decisions. Yet, in this context, the government says a child's thought process or decision-making ability should never be challenged or questioned. This demonstrates to me that these policy decisions are more about politics and less about the youth in question.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

I am finding it exceedingly difficult to share my thoughts on this topic in a respectful way. I am angry and upset that you would even consider changing Title IX to deprive girls and women of their opportunity, safety, and dignity in private spaces and athletic competition.

While I have empathy for those young people and adults who are not comfortable in the body they were born with, this does not change the fact that biological sex is determined at conception, long before birth, and is not a state of mind. Sex is determined by God at conception, not by a person's feelings later in life. To teach otherwise denies the science people are so fond of talking about these days, transgresses reality, and is a folly that is only harmful to many, and soon possibly to everyone if the Title IX changes being investigate are passed. God has a wonderful, meaningful, important plan for each person's life; He means for that plan to be carried out by each person as He created them biologically. He does not make mistakes in determining a person's gender, and His plan for each of us cannot be realized fully if we choose to identify as the opposite sex which He gave us. The truly dignified approach is not to change Title IX and other similar legislation, but help people understand who they are in Christ and as God created them. This is the path to peace and flourishing in our true identities.

The government is greatly exceeding its authority in these matters. Young girls and women should not have to change clothes in front of biological men and boys in locker rooms! They should not have to share bathrooms with boys and men! Girls and women should not be forced to have male roommates, again being forced to change their clothes in front of men! Women and girls in shelters and prisons should not be sharing similar spaces with men! Religious entities should not be forced to violate sacred, long-standing beliefs or forfeit government protections and funding for standing up for their sacred, long-standing beliefs! Just stop this madness now!!
The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department MUST NOT violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department MUST NOT force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department MUST REJECT implementing radical gender ideologies nationwide.

I urge you in the strongest terms to keep Title IX protections for girls and women. Aside from the fact that you are opening a pandora's box of litigation from the families of any girl or from women harmed by the presence of a biological man in a space formerly reserved for girls/women, you will be depriving girls and women of opportunity, safety, and dignity. I WILL BE using my votes to ensure opportunity, safety, and dignity for girls and women. I encourage you to do the same.

Thank you,

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Mary Juber

Dear Acting Director Goldberg,

You need to immediately stop the demonic indoctrination of public school children otherwise God in His justice will judge you for it when you die. What's more you can't expect God to bless you and your families in this life. Is it worth losing "everything" if I am right and continue in your anti-God and anti-family propaganda? Absolutely not!

His word, the bible, clearly states that He created us "male and female" in order that we could populate the earth for His glory and our joy. You are perverting His purposes to be politically correct but God is not going to accept your "radical left" agenda. He can't because He is a Holy God!

These are innocent minds and hearts that you are playing "Russian Roulette" with and you are clearly usurping their parent's right to raise their own children as they see fit and not what the Democratic Party sees fit. There is still time to push back against what the devil wants the DOE to do but it will take courage and hard work to do it. Are you up to that? I pray you are for your sake and the children's and their parent's sake.

I STRONGLY OPPOSE ANY CHANGES in the Department of Education policies that redefine "sex" to include "sexual orientation" and "gender identity." You have no right attempting to implement Biden's radical agenda into every local school district in the country.

Thank you,

Mr. John Wojciech

Dear Acting Director Goldberg,

I am an extremely concerned parent that is completely against changes in the Title IX - each of our children are born boys or girls and if their parents choose to teach something else at home, it should REMAIN at home. My girl deserves to be safe at school and in sports against other girls.
I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. My own children were beneficiaries of Title IX and I appreciated the opportunities it gave my girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls or take away their opportunities to participate against like-bodied competitors.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. As we all know instinctively, boys have more muscle mass, height, etc than girls, whether we like it or not.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide. It will only reduce opportunities for girls and further divide this country. United we stand!

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Charlene Jackson

Dear Acting Director Goldberg,

Nobody likes to have ideology crammed down her throat or her children's throats. I want my children to learn real science. Follow the science! Right? Do you know that some little girls fear they will just wake up some morning and be turned into a boy. They are told there is no absolute about gender or sex. This is not factual or scientific. This is ideology.

Hasn't anyone stopped to think about the physiological reactions of a teenage boy to being in a girl's bathroom and/or shower? How is such a young man NOT to have an erection? What will be HIS reaction to that situation? What will be the reaction of teenage girls to being in that situation - to seeing that?

What makes sense about being a talented teenage female athlete and striving to do your best but being bested by teenage boys who claim to be girls? Hasn't anyone noticed that there are God-given physical differences between men and women - boys and girls? Those differences are to be enjoyed and celebrated within a marriage but have no place being flaunted in the school restrooms and locker rooms.

Please do all you can to stop this madness. Thank you.

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

I could write many arguments against the proposed changes under consideration. While I agree that citizens of our nation must be treated with dignity and respect, the considered changes will not increase the amount of dignity and respect shown to individuals embracing a gender identity contrary to their birth identity. Additionally, the proposed changes will increase hostility towards those affirming a natural understanding of sexuality as heterosexual as expressed in male/female relationships.

The slate of changes under consideration deny biological realities, embrace unproved theories and treatments regarding gender dysphoria, prey upon emotionally fragile youth, increase risk of harm for young girls, and creates an unfair competitive environment for women of all ages.

As a father of three girls, I do not want a male of any type sharing bathroom and locker room facilities with my girls. Further, it is not fair that my girls should sacrifice a fair field of play to support a biological male's gender dysphoria. Lastly, establishing a federal requirement to teach the various expressions of gender dysphoria as acceptable sexual practices does not embrace local control of education, and forces all schools to embrace an unproven understanding of sexuality as a matter of fact.

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dr. Rev. Nick and Jan Buhler

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)." It is beyond belief that in this great country where so much is being done to ensure that all peoples feel accepted and protected a movement to take away security and acceptance from females is being driven by our leaders. What a contradiction and what a revelation about true motives.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. Dear Acting Director Goldberg,

When you re-define common terms or dilute standard definitions like what is female sex and what is male sex, the resulting conversation is distorted and skewed. Most importantly, rights are taken away from one group in preference to another group. This is true discrimination.

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Virginia Clancy

As a further, heart-felt thought, I strongly recommend that the U.S Department of Education be radically shrunk such that it can only work to support clear constitutional freedom and liberty in the educational space and leave the issues of teaching, curricula, and administration to local and state education entities working in collaboration with local parents and families.

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Kathy Arnold

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

I feel the Department of Education is a powerful force in deciding the future of what will be presented to our nation's children and in that must keep in mind the huge responsibility this is. Children are so precious and so vulnerable to being molded and with such an immoral topic such as whether or not a person's sex can be chosen is an outrage. It isn't fair to ask children to even ponder these things since they have to have concrete ideas before they can have an informed opinion. The confusion of the few shouldn't be pressed into a policy for the whole.

Wading into "new policies and mandates" will do nothing but confuse and that isn't what I understand to be the role of educators. It's the role of the parents to teach things like sexual orientation and compassion for those who aren't like yourselves and the role of the schools to teach on the three Rs. The school has no place "teaching" what may very well be just a passing, woke ideology.

Frankly if the Department wants something else to do, you should focus on getting the children of the US back up to the levels of learning that this powerful nation should be and not so close to the bottom of the list for first world nations. Do what you're supposed to do well and stop trying to take on such complex issues that are morally contentious and political. The Department must reject implementing radical gender policies.

Thank you for taking the time to hear what this mom of 4 has to say on the subject.

Thank you,

Mrs. Julie Danielewicz

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Bonnie Winn

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Linda Smith

It is a well proven reality that boys have a physical advantage over girls in many types of physical activities and sports. Thus, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. Dear Acting Director Goldberg,

RE: Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

Title IX Amendments were implemented to give educational opportunities to women and girls, and it is working.

Forcing girls to compete against biological males will never be a fair event. I have witnessed this first hand when a biological male asserted he was now a "woman" because he took medicine to modify his chemical make up. The fact he (now "she") was much stronger allowed him to defeat the woman in a fast serve tennis challenge. He was no more a woman than I am a male. No matter what He takes he cannot birth a child he will never have a period, and he will always be stronger than most females. You cannot chemically change the complete functional DNA of a man to be a "woman" or a woman to the a "man".

All this will accomplish will add to the confusion and harm of 99% of the children in this country so less than 1% can claim they are biologically something they are not.

I wonder what do you plan on telling the young girl who losses a chance at an education via a scholarship because YOU forced her to compete with a male?? Do you really believe you have the right to tell parents their daughters have to share the same restroom and shower with a male? Will you force YOUR granddaughters to do this?? Please do not force a generation of young girls to pay the price for politically ignorance.

Parents must be the ones to teach their children about sex, for no child is alike and each one needs their parents guiding them as they grow up NOT the government. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government.

If a person over the age of 18 (or under with parental permission) wants to modify their body that is their right. But that person's decision to modify their body has consequences asking others to pay for those consequences is not fair.

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were implemented to give educational opportunities to women and girls. The Biden Administration and the Department seem to ignore the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown an intent to redefine law, inhibit privacy, and stop opportunities for women and girls.

Bottom Line: This Department must not violate the privacy of girls.

Today, places on podiums at sports events are being stolen from biological girls. Why? The biology of boys can never be completely altered. IF biological boys are allowed to compete with girls, girls will never be able to compete equally. There will always be disparity.

Hormonal treatments and surgery cannot change another bottom line: God created men and women. Period. This Department must not force girls to forfeit their opportunities to boys, boys created as boys by God.

Finally parental rights-- including rights of parents to teach their children about sex-- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide. Parents are the ultimate teachers of their children. Thank You!

Dear Acting Director Goldberg,

I am writing to you concerning the proposed changes to Title IX. This concerns me because of the proposal to force girls to share locker rooms with boys and also to participate in girls sports stealing opportunities from them. I am also against forcing children to learn about gender ideology. I strongly believe parents should make the choice as to teaching their children about sex. This should not be forced on children. Please do not take these rights away.

I agree with the specifically drafted comments I am sharing within my letter. I, a 60+ year old girl, woman, mother, grandmother, am very concerned with the impact, threat, to sports competitions; and safety to girls physically and emotionally. I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

As a pediatrician, I understand the importance for our children to receive a quality education. Most of my patients have not received substantive instruction during this year if pandemic restrictions and many have fallen behind. This is a travesty. Our Education Department must work to remedy what has been broken rather than spend time on this unproven benefit of sexuality education. It is an ideology and not science. This ideology has hurt and will continue to harm my patients.

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. David S Mitchell

Please stop the these behaviors that degrade the children in society. Girls are entitled to their privacy in all aspects of their life. This type of lawmaking shows you have no concern for the rights of females. We are all created in God's image. He is the One who makes us what we are at birth through the miraculous biological process. Do any on you have daughters, wives, MOTHERS.... oh yes! Times are changing, some of the rules regarding the human race need to stay as they were made.... PRIVACY and RESPECT for all.

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

I have raised 4 girls, 3 of whom, participated seriously in HS sports and 2 in college sports. The pressures girls face in athletics does not need to be increased by violating their privacy while they learn to manage their bodies. The wishes of a very few do not deserve to have priority over all others. This is not an issue of weighing "rights". Participation in sports is optional. If sexual orientation is your primary worry then deal with that but that worry does not need to be placed on the shoulders of all one's peers. They have enough issues of their own to deal with.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Brooke Wentz

The Biden and liberal ideologies of this issue are clearly immoral. God's morality trumps immorality every time. These ideas are wrong and amount to a Trojan horse to want to redefine Title IX to try to justify immoral behavior under the misnomer of civil rights, personal rights, or whatever! In these United States people have the right to misbehave act naughty, but not at the expense of our Constitutional and civil society.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. DANGEROUS! Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. STUPID! And when they speak up, they are censored. CRIMINAL! This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies (NAUGHTY) in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dr. Sara Davis

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

I STRONGLY OPPOSE ANY CHANGES in education policies that redefine "sex" to include "sexual orientation" and "gender identity." The Education Department has no place attempting to implement this radical agenda into every local school district in the country.

I am writing to you as a retired (2 years) teacher of 8th graders. I know first hand how impressionable this age students are when it comes to sexuality and their newly formed hormones. They don't know what is true OR why their hormones are being activated over certain circumstances. We MUST allow children to develope naturally WITHOUT indoctrination! Parental wishes of ALL STUDENTS must be honored!

At birth, we have two sexes...male and female. There are physiological differences between the two that CANNOT be erased because we choose to THINK of them as erased. It is indoctrination to teach children differently! We need to stick to teaching the four core subjects of
math, language arts, history, and science!

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

I am writing concerning the Department's Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).

Along with countless constituents of all political stripes, especially women athletes themselves, I strongly oppose these alarmingly *sexist* Title IX policy change proposals, changes which would discriminate against, gravely disadvantage, and even endanger, women and girls on a massive and broad scale by forcing them to compete and share locker rooms with biological males.

Sincerely,
Rebecca Curtsinger

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Joann Cox

Dear Acting Director Goldberg,

I am writing concerning the Education Amendments of 1972 (Title IX).

Please do not take away girls’ and women’s opportunities to compete with biological females only. To have equal opportunities they must be able to physically compete with those who have the same biological makeup which includes body capabilities. Furthermore only biological females should be allowed into their locker rooms and restrooms. To do otherwise is a great invasion of privacy as well as taking away equality of genders.

Furthermore, leave the teaching about sex and sexual orientation to the parents. Parents know their children and their individual needs better than anyone.

This Department must not force girls and boys to forfeit their innocence and to give up equal opportunities in competitive sports.

I hope you will respect girls and women and make choices that allow them equality and protection.

Thank you,

Ms. Sue Foltz

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls. Something must be done now!

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. Our daughter was a three sport athlete in high school, and an honor student, and it helped shape her into the highly professional and motivated educator that she is today. She is a middle school teacher and she loves her chosen career of teaching children, even in the midst of COVID-19! Education, along with athletics, will be severely hindered if girls have to forfeit their opportunities!

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide. It is not the right of the federal government to teach our children about sex! That is a God given right as a parent!

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Bonnie Bowman

It is the function of education to teach facts, not doctrine. Biology is to do that too. Biological fact is what you are born as and this should be taught. Render Identity is a choice not a biological fact. Indoctrination and special status should be based on fact

Think of the risks and imagine if your own daughter was taken advantage of by a boy. What then? Let kids be kids! It's not the government's responsibility to teach our children about sexuality it is the parents responsibility and right. By doing this millions of parents will be angered. This must be stopped!

I believe it is the right of parents to teach in the home the beliefs we have about gender identity and sexual orientation to our children- and that this is not the responsibility or the right of the government or the schools. [b](b) already has a law that protects these parental rights. These rights must be protected by our national lawmakers as well. The Department must reject the teaching of gender ideologies nationwide.

Girls' rights in sports and locker rooms must also be protected. Too much is at stake here for generations to come. Please maintain Title IX Amendments as they stand today.

Thank you,

Mrs. Carolyn Kasteler

Dear Acting Director Goldberg,

I'm concerned for the well-being and safety of our girls in this country. When we allow biological boys to decide if they'd like to shower with young girls then we risk physical and emotional harm to female students.

When we allow biological boys to compete against biological girls, who have trained for sporting events, we rob those young women again.

The Title IX Amendments were written to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Irina Dragonir

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

It is a violation of the rights of girls and women to allow policies which will force girls to share locker rooms and showers and hotel rooms with boys, and then punish those who disagree.

Today, girls are being forced to give up their places on podiums at sports events and scholarships because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex, sexual orientation and gender identity - must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Heidi Evans

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. However, the actions of the Biden Administration and the Department thus far have ignored the definitions, purpose and scope of this law. Their rush to redefine law will harm privacy and steal opportunities for women and girls.

In the past, the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department has no place to force girls to forfeit their opportunities to boys.

Finally rights of parents to teach their children about sex must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government let alone the Department of Education. Hence this Department must reject implementing radical gender ideologies nationwide.

I am a conservative elementary school teacher, graduate, and smart individual. I understand the science of biology and know that gender is obvious at birth. DNA does not lie. The discussed proposals will not only hurt girls in the long run, but will damage young kids by forcing misguided "education" on minds too young to even consider such concepts as gender identity. As a teacher I would be forced to refuse to teach this curriculum. Many teachers I know feel the same way. Stop this very radical approach to education to placate the vocal minority.

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. This whole agenda frustrates me to no end! Why would you even allow this?

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Why has the Biden government strayed so from His Word, God teaches us in His Holy Bible. The Bible has remained true to its word for thousands of years, yet after 250 years when our founding fathers made the constitution and founded it on Gods word, you have turned a blind eye and introduced all this crap saying it's best for our country. Well it's not. Put away your pride and really look at what you're doing. It's not good for our children. You're only screwing them up for years to come. And if you don't see that, then you are playing into Satan's pocket.

Thank you,

Mrs. Karen Kelly

Changing the definition of sex will discriminate against girls, causing them to lose the opportunities they fight so hard for and will also endanger them and violate their right to privacy as what will stop a boy from pretending he's a girl to get access to the girl's bathroom or locker room. We've already seen criminal cases where this happened where men went right into the changing room and couldn't be questioned then proceeded to assault or film women and girls after Target implemented this bathroom policy.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Look around and the confusion and mess in our government.....it cannot educate our children in any manner, certainly not in a moral way.

Thank you,

Mrs. Hanan Palz

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

We have a more pornagraphic culture than ever before and that is related to the twisted sex education and sexual identity crisis in America today. Even secular data shows the crippling effect of sexual immorality in a culture. Please stop pushing this gender identity agenda. It is not appropriate, not helping any part of our culture, and having something forced on the American people will be strongly opposed.

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Melinda Valenzuela

Gender education is the right of parents to provide, as they see fit and at precisely what age is appropriate. This is clearly the right of parents and NOT the job of the federal or local government. I have a granddaughter now and my hopes for her are that her parents and influential family members will be able to exert their rights and responsibilities to educate her in the way that THEY feel appropriate.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide. These woke ideologies are not healthy for children. We are created male or female period; no other option. Trying to go against our biology at birth leads to misery, and often, suicide. Doctors and counselors must be allowed to help kids work through their identity struggles. Just as we do not allow kids to drink alcohol or drive before 21 years old & 16, respectively, they are not mentally mature enough to make decisions about their bodies, and they should not be made to doubt the gender they were born with, but rather affirmed in it.

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Mary Fulwiler

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Peggy Garcia

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

I believe that rights of young women are being undermined by allowing transgender young men to compete in female sporting events. This is completely unfair to the women who have worked hard to achieve excellence in their sport. Biologically, males generally have significant advantages over females athletically.

Secondly, allowing transgender young men into young women's locker rooms is extremely insensitive to the modesty of young women, not to mention morally wrong. This is not OK. There needs to be other accommodations for the transgender students that do not infringe upon the rights of other students.

Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide and leave these decisions to the local school boards.

Thank you,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Gary Foster

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

The government has no place in allowing biological boys to be sharing facilities with girls where they may expose themselves to those girls. The majority of this nation's people would whole heartedly agree with that statement. The government should represent the will of the majority of the nation on this subject just as it should on any other subject.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide. As I stated these ideologies do not represent those of the vast majority of this nation and should therefore not be implemented. This country's mode of operation was formed as a government were the majority rules. Let the majority therefore decide what should be allowed. This should be specially true when it comes to how we raise out children.

Dear Acting Director Goldberg,

God created us. He created us Male and Female. Period. To not redirect children and teens to that fact when they are confused about their identity is a sin. And sin is judged, by our Creator. We choose to follow Him or not, to trust Him or not, to believe in Him, or not. The choice is ours but we had better not take children down with us because of our pride and ignorance lest it be better for us that a millstone be tied around our neck and drowned than to face the judgement that comes for leading a child astray. You had better think about this idea a bit longer before you decide to lead more children astray. May you come to repentance and choose God over yourself.

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.
God created us. He created us Male and Female. Period. To not redirect children and teens to that fact when they are confused about their identity is a sin. And sin is judged, by our Creator. We choose to follow Him or not, to trust Him or not, to believe in Him, or not. The choice is ours but we had better not take children down with us because of our pride and ignorance lest it be better for us that a millstone be tied around our neck and drowned than to face the judgement that comes for leading a child astray. You had better think about this idea a bit longer before you decide to lead more children astray. May you come to repentance and choose God over yourself.

Thank you,
Barb Kraemer

Dear Acting Director Goldberg,

It is a biological fact that males are inherently stronger than females. When a born male decides he really is a female and then decides he wants to compete in female sports, these transgender males have a huge advantage over female just for the fact that they were born male even with the meds he take to become or look like a female.

This is a huge injustice to born females. Get back to the basics. Most every man, woman, and child
