Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Debby Esposito

Subject: Written Comment: Title IX Public Hearing on Sexual Orientation and Gender Identity

May 28, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

Please do not push the "sexual orientation" and "gender identity" to our children. They should be taught Reading, Math, Writing, History etc...the normal education that's been taught for years. Why can't you just let them be boys and girls. They go through so much while growing up, and they certainly don't need someone telling them they can be something they aren't. Why put more confusion into our youth.

I truly believe you are trying to get our children to follow an agenda which they shouldn't even be exposed to. How dare you try to do it through our schools. You should be ashamed of yourself. This is not only nasty but completely vulgar.

What you are trying to do goes against everything this country was built on "In God We Trust".

Sincerely,
Debra McConnico

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

I am very concerned about attempts to change or redefine what it means to be a girl or a boy.

I am very concerned about the administration's and the Department or Education's rush to change this law and enact policies which could harm the privacy of girls and steal opportunities for girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

It is the parents' role and right to teach their children about life including sex. The government must respect those rights. It is not the role or right of the Department of Education or any other federal agency to implement radical gender ideologies especially not on a nationwide level!

The administration has ABSOLUTELY NO right to interfere with the parents rights to force their beliefs on families!! The schools are there to educate our children so they can go to college and be able to support themselves as an adults, as to be able to get a job, hold a job and be able to be self-satisfaction. The LGBT say they want everyone to get along and live harmoniously, yet they continually force their beliefs and life styles on everyone. No body and I mean no body has the right to force their opinions, beliefs and life style on anyone.

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. Unless there is a clear policy that stands by biological sex, not what an individual identifies as, to protect biological girls, girls wanting to compete in a sport will not succeed as they had…anything other than biologically separated sports should not be allowed.

If males that identify as female want to compete, let them compete against other males that identify as females only…or against other males. I think it is interesting that there has not been 1 case where a female that identifies as male enters any competition against biological males, and wins.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,
Mrs. Karen Baker

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

People hated President Trump for every perceived anti-female remark he made, and yet President Biden is selling women and girls down the river. Do not allow this to happen!

Please don’t do this to our young girls! It’s not fair or just. It’s a violation of their rights and privacy! Girls have come so far in sports, don’t take away their dreams because of a few that choose to be a different gender than what they were born with. Their minds may have changed but their bodies are still a boy’s body which is clearly different than a girl’s body. Also, try to remember how awkward it was when you were in middle school and had to dress and undress in front of others, even your own gender. It’s such a tender age to make them do this with boys.

I beg you to please rethink this political policy that you want to force only for political purposes!

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).”

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Melinda Jones

Raising children is not a job for the government but rather for parents. Our children should not be forced to be bombarded by ideologies we choose not to be a part of.

I work in a public middle school health office and see the detrimental effects sexual identity confusion causes not only to the student who is feeling conflicted but also to the students around him/her. Every person has been born with a gender and those who choose to continue as they were created should be able to do so without others pushing their ideas on them.

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Alfred Hanna

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

I am a mom of 2 boys and 1 girl who are all still in school. I read about all these girls working their whole lives to achieve their sports goals and it being taken away by boys who are biologically stronger and bigger than them.

This is not right for these girls. It is so important to me that my daughter will be able to have equal opportunity to compete with girls and not against boys. I also want her to have physical privacy and safety and not have to share locker rooms and shower with boys.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls.

I do not want the Biden Administration and the Department to ignore the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

It is unfair, as past swimming star Jenner stated, to cause biological boys/men to compete with biological girls/women in the field of athletics. In athletics/sports, the strength and prowess of the competitor is tested from the position of equal baselines, just as each starts from the same starting position.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. To share dressing rooms, bathrooms, or housing promotes/invites and presents opportunity unities for sexual aggression.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government and the government . The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Caroll Winslow

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally, parental rights - including rights of parents to teach their children about sex - must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Dear Acting Director Goldberg,

Why are you trying to punish girls? You no longer protect us, you are punishing us and pushing our womanhood out of America! This is not only breaking up the family unit, but breaking up what females stand for. Who raised you, who cooked your meals, who helped when you were hurt, who curled your hair, who cleaned your clothes? It was your female mother that made sure you had a comfortable clean and welcoming home while your male father went off to work to secure your home and safe upbringing. Don't demoralize women and stop demoralizing men!!

Dear Acting Director Goldberg,

My husband is a retired military officer and has served [b] years in the military for defending the constitutional rights we now have. At the end of his career, I experienced the changes of allowing transgender people into the women's locker rooms on Base. A law suit went out immediately when a transgender man undressed himself in front of a mother with two young daughters who were traumatized by the incident. This should NOT happen! The girls did NOT have a choice in the matter! Who is defending their rights? I choose to. I also do NOT feel safe publicly in women's locker rooms or bathrooms. This should NOT be!

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Additionally, parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Furthermore, how a juvenile feels from one moment to the next often changes drastically. Teens fluctuate frequently in their thinking and in their emotions. Adults are called upon to help them adjust during this process, not to go along with whatever notion strikes them and allow them to make life altering (and often regretful) changes. When children become ADULTS, they can choose for themselves. Minors cannot and should not. That’s why they have to be protected by parents, educators and laws! Our legislators need to just say no!

One final thought: why isn’t there a study looking into why there are so many children who have gender confusion? Aside from schools promoting it (and they are, but they should not be), and causing confusion to elementary school students, there has always been concern
over using hormones in our foods. Hormone replacement medications cause hormonal changes, so obviously putting hormones in our food supply is bound to cause hormonal imbalance. There is much evidence that soy products cause hormonal imbalance, particularly in boys. So instead of accepting that gender dysphoria is the "new normal," why not see if the cause is in the environment and put a stop to it?! Imagine if no one had studied the effects of lead paint? Should the USA just have accepted that irreversible brain damage, seizures and early death was the "new normal" for our children?!

Thank you,

Ms. Kathleen Kennedy

Dear Acting Director Goldberg,

2021 May 28

Dear Director Goldberg,

The announcement by the U.S. Department of Education's Office for Civil Rights to hold a virtual public hearing to gather information to assess if further enforcement of Title IX of the Education Amendments of 1972 is needed.

"The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls." This prompts me to offer a perspective shared by many American citizens. First of all, it is apparent that the Biden Administration is bent on foisting an unproven, contrived premise of "gender identity" and "sexual orientation" that is not supported by the established science of human physiology, the specific branch of human biology. As such, this pursuit of allowing for changes to Title IX based on those two unscientific theories is an abuse of political power by the Biden Administration. It is politicizing education all the way from a student's entry into public education at kindergarten and continues all the way up through postgraduate level studies in universities.

Where do parents' rights factor into how their children are educated with Biden's arbitrary distortion of Title IX?

Parents send their children to public schools to be educated to master the basic core academic subjects of the math, language arts - reading, expansion of vocabulary so that they can better comprehend what they read, spelling, legible penmanship, writing coherently to whatever point with which any topic they are prompted to address - science, and social studies.

Parents do not send their children to public schools to be indoctrinated with the narrative and agenda of university Leftists who are striving to remake American society to fit said narrative through their subversive agenda.
Subversive?? That is a strong accusation, but it is a significant and mostly silent portion of America's parents who are genuinely alarmed by how their rights and consent are being censored and intentionally circumvented by the pressure that the dominant Left in university education is having upon K-12 schools. They are coercing schools to conform to their controversial agenda with topics like "Queer Theory." In turn, "QT" is being foisted upon their children as if it has a scientific, physiological basis. It does not. Doing so without parental consent violates their rights as parents and the trust that the public has placed in administrators and boards of education across America. Would you like to be railroaded and disregarded in similar manner??

If children have questions about their sexual identity, they should be referred back to their parents for guidance according to their parents' beliefs, which are often more firmly grounded in the actual, immutable science of physiology and not some conjured up theory regarding human sexuality and sexual orientation in an ever-changing field of speculative misnamed science of psychology. An injustice that is even more stark is the latest push that has invaded public education's extracurricular field of athletics by appallingly allowing biological males to compete in and dominate girls in sports.

How is that fair? Would any of you want your daughters or granddaughters to be unjustly denied the opportunity to compete against other biological girls? I would hope this last question would evoke a resounding "NO!"

"Remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys? Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

"Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys."

Physiological boys and girls need to compete separately due to the obvious physical advantages that males measurably have over females. There is also the very real risk of physical injury and the violation of any of our daughters' privacy in their locker rooms. Preserving girls' and women's right to compete on a level physiological field does not prevent boys and men who are afflicted with gender dysphoria from competing in sports with others of their same physiological sex.

Please keep these perspectives at the forefront of thought as you weigh what is fair for all in your review of the original intent of Title IX. The Department of Education must summarily reject implementing extremist false gender narrative and agenda.

Respectfully,
-- T.S. Malone

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Theresa DeLa Rosa

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally, parental rights— including rights of parents to teach their children about sex—must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Carol Bielejeski

It breeds further confusion in these poor misguided young people. Please do not incorporate this into our schools. Teachers should teach reading, writing, and arithmetic. This has nothing to do with learning and helping our children find their way through life. If parents want it taught then let them instruct about gender identity etc.

Oh how far we have fallen that it is even an issue to discuss!!

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights— including rights of parents to teach their children about sex—must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls and putting them at risk for sexual assault!

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

PROTECT OUR FEMALE RIGHTS!

Thank you,

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).”

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally, parental rights— including rights of parents to teach their children about sex— must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Nancy Foran

The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).”

I strongly oppose changing the term "sex" to "sexual orientation or gender identity". Title IX exists to protect women and girls and provide educational opportunities.

Even if a male wants to change gender, he is still has physical advantages due to xy chromosomes that cannot be removed even with surgery or hormone therapies. To change Title IX definition of sex is to negate the whole legislation. All protections are removed and become null and void.

Even Caitlyn Jenner, formerly Bruce, agrees that Title IX should not be changed. As a world class athlete and transgender, she is an expert whose opinion should be trusted as Truth.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Rita Sisko

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

Schools are meant to educate for a successful future teaching reading, writing, history, social studies, science, and math. While the school is in a position to also teach good citizenship it should not be allowed to overreach its boundaries by encroaching on the rights of others. If children are allowed to choose their gender that right does not lessen the rights of children who identify based on their physical, and frankly their mental, birth given identity.

Boys and girls should not have to share showers, bathrooms, nor sports with the opposite physical gender. This creates boundary problems for personal safety, privacy, and fair competition. If a child is attempting to define themself other than by their birth sex it should be the responsibility of the parent to walk the child through this decision and it should not be a part of the school system. Each child should use facilities and play in sports based on their birth gender unless they are physically changed to the opposite sex.

Lastly, parents should be the ones to teach their children about gender identity. The school's only role should be teaching children to respect the differences of others in appearance, thought, and lifestyle -- and this means all children including teaching children that identify as different from their birth sex why they cannot step on the rights of others. The number of children that identify as the opposite of their birth sex is so small that accommodations could be made at each school for changing and using the bathroom. The Department must reject implementing radical gender ideologies nationwide.

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Joe Wright

There is no denying we are seeing the moral decline of people caught up in many types of sexual sin and you can witness the impact through all realms of social and economic status leading to wrecked lives. Allowing these things to be taught at a younger age and to become the 'norm' will only accelerate the moral decline and harm many lives. These lifestyles lead to crime/sin and separation from society. To promote these behaviors is nothing short of sin.

While I respect people, I cannot support a lifestyle that leads to such human destruction.

Dear Acting Director Goldberg,

To The U.S. Department of Education:

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

I STRONGLY OPPOSE ANY CHANGES to Title IX!

Title IX Amendments were CLEARLY crafted to give educational opportunities to women and girls. Why would we want to take opportunities AWAY from women and girls sports. Why would we want to force biological boys and girls to share locker rooms, hotel rooms, take showers together? No privacy! This makes no common sense!

Why are we forcing women and girls, that have worked so hard to have a level playing field in sports, to now compete with biological boys. They are losing out on well deserved scholarships and other educational opportunities. This Department must not force girls to forfeit their opportunities to biological boys! Again, this makes no common sense to do this! Stealing privacy and stealing opportunities for women and girls!!

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights - including rights of parents to teach their children about sex - must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Joleen Sytsma

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

Title IX funding of government in schools didn't force girls to share showers, locker rooms, and hotels with boys. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Parental rights-including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government but a God given responsibility to parents.

We are praying this Department reject implementing radical gender ideologies nationwide which is not your responsibility.

Whether we agree with it or not each person has the responsibility to raise their children however they choose. Again, this responsibility was given by our creator and should not be overreached by the government that is supposed to represent us not dictate to us.

Thank you,

Mrs. Angie Mendoza

Dear Acting Director Goldberg,

I am strictly opposed to making proposed changes to Title IX. We must protect the girls' privacy and sports as described below. Forcing these kinds of changes on girls is simply unimaginable. This would be to allow the view of a few to rule the overwhelming majority without any consideration to the damage it will do to the girls that would be impacted.

Let Title IX stand to support the educational opportunities for girls and women.

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).”

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dr. Peter Pendell

Finally parental rights - including rights of parents to teach their children about sex - must be respected. Implementing radical gender identity ideologies in schools nationwide is NOT the role of the federal government. In fact, it smacks of child abuse, and flies in the face of the science surrounding the outcomes of radical gender identity actions against children who are too young to make the kinds of decisions that the Administration and the Department are pushing. The Department and the Administration must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. John Graham

I plead with you to stop letting boys into girls bathrooms, locker rooms and participate in girls sports! Yikes! I'm scared for my daughters and granddaughters and future great-granddaughters. Women and men are physically different. In order to create a human life there needs to be an egg and a sperm.

Wouldn't your Mother or Grandmother have been horrified to share a locker room with a boy/man? NOT safe or wise.

Maybe start separate sport leagues uniquely for a mix of boys and girls.

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

Presently, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. I strongly oppose any changes in educational policy that redefine "sex" to include "sexual orientation" and "gender identity."

On that note, and lastly, I want to address parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. David Stratton

Dear Acting Director Goldberg,

As a father of two daughters involved in sports I am deeply concerned by the Biden Administration's efforts to undermine the protection Title IX gives to girls.

Girls are being denied the recognition they deserve when biological boys, living as girls, compete in the same sports. This directly opposes the purposes of law which is intended to provide equal opportunities for girls to excel in their sports in the same way boys compete to excel in their sports.

Attempts force girls to share locker rooms with biological boys takes away their most fundamental privacy and decency. We have separate locker rooms and showers because we have different bodies. Ignoring this fact robs our children, especially our girls, of their dignity.

Furthermore, the administration's effort to push gender politics into our schools will produce many victims. Children are being fed confusing messages about their gender and increasing numbers are taking drastic measures to change and harm their bodies. The fact is that the vast majority of kids who identify with the opposite sex later revert to their biological sex. Pushing them to confusion often causes great pain in the long run and sometimes irreversible harm. Allowing them alter their bodies with hormones and surgery results in immense regret in many and ultimately leads to the high suicide rate that is seen in those that have gone through with these actions.

Let Title IX stand as it was intended.

Thank you,

Mr. Eric Bosch

Dear Acting Director Goldberg,

Please protect the privacy and rights of girls and young women, and the rights of parents as well! We believe that the federal government has no right to force its own version of morality or lack thereof on anyone in a free and open society.

I am commenting on the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

When the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys, a nationwide injunction stopped it. Thankfully! This Department must not do the unthinkable and violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).”

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).”

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

Dear Acting Director Goldberg,

I am a retired school teacher and administrator. I am writing to you concerning the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).”

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- ham privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls and young women.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. This is the height of unfair “disadvantage” for those girls who compete.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

As a retired educator, I am not writing to you as "just" a concerned citizen. I am writing because I’ve been involved in education for 33 years and I understand the implications of these changes. I hope you will give due consideration to the whole picture before you make a decision in favor of these proposed changes!

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Betsy Clark

Dear Acting Director Goldberg,

It's disgusting, repulsive and evil what the unhinged, radical Biden Administration wants children to learn in school regarding Title IX. Children go to school to learn how to do math, read, and write, and to get an education, so that they can contribute to society in a healthy manner.

I will fight with all I have to protect children's innocence from the filthy, disgusting, unhinged radicals in Government and Department of Education.

Dear Acting Director Goldberg,

Equality and equity for all means protecting the most vulnerable communities of which girls and young women are a part of. I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls because of old societal prejudices and inequalities. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law in their effort to appease unreasonable special interest groups. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls and put them at risk, in danger, and many times defenseless with no defense.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys even when, in very few cases, the boys believe themselves to actually be girls although their biology, chromosomes, and characteristics are male. Special privileges for males does not help them, females, or society and in actuality flies in the face of Title IX intent.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government and is morally reprehensible. The Department must reject implementing radical gender ideologies nationwide.

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).”

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally, parental rights— including rights of parents to teach their children about sex—must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Estela Moreno

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls, which I have been so fortunate to benefit from in my life. I was in 2nd grade when Title IX was passed and because of it I was then able to participate in girls basketball from 5th grade through my high school graduation. It was through basketball and additionally softball, track and golf that I learned so many important lessons that have allowed me to be successful in my life and have added lifetime relationships and achievements that have been woven into the fabric of who I am today. I am so very disappointed and concerned for my granddaughters as I see the Biden Administration and the Department clearly ignore the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls. This must not happen.

I cannot imagine how horrible that would have been during my high school years to have had to deal with the addition of an athlete that was born male but identified as a female to participate in the locker room. The locker room setting was one where we had an open shower stall with many shower heads and so we all showered together. I don't understand how a male - whether he identifies as female or not - could have any place in there with out it adversely affecting the majority of girls on the teams. Not to mention the imbalance to the playing teams should males who identify as females be allowed to compete in the female arena. Please follow the science. The male anatomy strongly shows us that men are often stronger, faster and taller than most females and therefore have an advantage over them in the sports arena.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. I cannot believe that an administration that so strongly celebrated our first women Vice
President is now willing to toss aside women in order to appease the LGBTQ community.

Finally, and most importantly, parental rights- including rights of parents to teach their children about sex - must be respected. Implementing radical gender ideologies - ones that go against science - in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide. I STRONGLY OPPOSE ANY CHANGES in your education policies that redefine "sex" to include "sexual orientation" and "gender identity."

Thank you,

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. Women and girls are female, meaning they bear 2 X chromosomes in the cell nuclei. You cannot change the chromosomes no matter how you identify or feel. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. No one can change their biological sex or alter the chromosomes which identify them as a male or female. You can "identify" as a female all day long but if you don't have 2 X chromosomes, you are not a female. We are different and that is ok. If a male identifies as a female, that is their choice but the Department of Education must not force girls to forfeit their opportunities to boys just because a boy identifies as female. It is genetically impossible to for a male to become a female, meaning he cannot replace the Y chromosome with an X chromosome.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide. It is the responsibility of the parent to teach their children their values. Each parent is free to teach their child whatever they believe but it is not the role of any government entity to teach gender orientation to children, meaning any person under the
Let's get back to what the Constitution says is the role of federal government. The scope of Title IX is to give educational opportunities to females, not to redefine gender based on identity or feelings.

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Leah Hunt

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).”

The Title IX Amendments were designed to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions redefine the law and harm privacy and steal opportunities for women and girls.

When the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

As an employee at a school district and a Christian, I will not teach this nonsense just because the far left want to force their beliefs on everyone. If I don't have the right to force students to listen to me teach about Jesus, then we shouldn't be forced to teach Satan's agenda.

My daughter was a collegiate player and had the opportunity to play in the semifinals of the .

This opportunity would not be possible for young women like my daughter if your plan to allow biological males to participate in women's sports is made law. Girls' and women's athletics have come so far since I was that age. WHY DO WE WANT TO GO BACKWARDS?

I'm also deeply concerned about the safety of girls and women if biological males are allowed in rest rooms, locker rooms and dressing rooms. This is simply not safe!

You want to talk science, but there is no science that says you can go from being born one sex and change to another. It is wishful and immature thinking. Young people’s brains are not fully mature till they are in their 20’s. If being a transgender is pushed in schools, younger and younger people will be confused about their sexuality. Right now changing your sexual identity makes you a celebrity at school and garners you all kind of attention, which many young people are desperately looking for. But the result of sex change hormones and surgeries is mutilated genitalia and people who neither look or sound male or female and they don’t fit in anywhere really, except to enhance the#s of gay/lesbians & their political clout. Often they become
more mixed up psychologically and more suicidal after hormone therapy, etc. Teaching about transgender to the impressionable and quick learning young will confuse them about their bodies. Children should not have to worry or even think about sex when they are young. Protective parental warnings about stranger danger and unwanted touch should meet there needs. This transsexual agenda is for the benefit of adults and not children. We need to have compassion on the genuinely confused. We should not take away the gains made by women in sports, protection for all from abuse, and our long held and treasured religious freedoms.

Truth is where the answer lies. Social Justice which ignores the truth will makes a mockery of our laws and lives, create problems for our beloved children, takes away our hard fought and blood bought freedoms. Schools are failing to teach many children the basics so they can lead productive and fulfilling lives. As a teacher, I saw the health education in our schools being hijacked for years now by adults with agendas who have now been successfully indoctrinating our children for years. Capable parents teach their children moral standards and kindness towards others.

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights— including rights of parents to teach their children about sex— must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Patrice Kreber

***As a parent, grandparent, and great-grandparent, I am very concerned that the government is planning to still further infringe on the privacy of both girls and boys through amending Title IX yet again. These plans have absolutely nothing to do with the improvement of education and are very degrading to every student. If you are a parent you surely should not want this for your children as you have a responsibility to protect them. You have that same responsibility to the students of America’s schools due to your position with the U.S. Department of Education. Please act accordingly!***

I have a hard articulating my thoughts, but this agenda is just wrong for everyone. It is based on feelings rather than science. Follow the science. Males and females are biologically different. Women and girls fought hard and long for equality with their male counterparts in schools, business, politics, jobs and all kinds of areas. This Gender identity agenda tries to eliminate the advances women have made. Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. Public schools are going downhill fast. I have taught school for 25 years and children are struggling academically because we have diverted to teaching far left ideology instead of the basics of reading, writing and arithmetic. Let's focus on those again before parents pull their kids out for good and there is no public education left.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Wanda Chmiel

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).”

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse, ham privacy and steal opportunities for women and girls.

I remember the long fight to add women’s sports to our schools and colleges. Where are the women’s lib groups who fought so hard to have women included in sports scholarships, etc. on their own playing fields? You claim not to want to discriminate against the LGBQT community, but this is a huge discrimination, intimidation and abuse of young girls. We claim that abuse of women is wrong and harmful, yet we as a nation are abusing girls at the youngest of ages by forcing them to undress in front of people of the opposite sex.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. When girls speak up, they are censored and accused of being against LGBQT, yet the young men pushing for this are being not being against women. This is a very big step backwards. One group’s rights should never destroy another group’s rights. That is not justice or equality.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).”

My daughter [redacted] worked really hard all through middle school and high school to be recruited for a [redacted] scholarship in college. The positions on various teams were very competitive just among biological females. If biological males are allowed to compete for those positions, young women like my daughter will be forced to sit the bench or not receive scholarships at all. I think that’s more important than hurting the feelings of someone who has decided they don’t like their biological sex.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights— including rights of parents to teach their children about sex— must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dear Acting Director Goldberg,

I am writing to you as a concerned citizen and a parent. I oppose the changes in Title IX to include sexual orientation and gender identity. I’m convinced that such a blanket policy will cause far more harm and confusion than good even to those few who seriously suffer from gender dysphoria or have gender identity issues.

How are we to tell who’s genuinely in these categories and who’s taking advantage of the policy to harm others? How will you protect the majority citizens? How will you protect our girls? In my state of [redacted], there were over 200 male inmates who requested to be transferred to female prisons, but only a handful of women who wanted to be transferred to male prisons. Do you have explanations for this? Do those female inmates welcome the transfer of biological males who feel they are otherwise? How is it just to allow biological males to use private female spaces and participate in female sports teams? Why have there been gender specific competitions and spaces in the first place? Will you ask our children how they would feel, not just those activists who try to push their agenda?

I am vehemently opposed to discrimination based on sexual orientation and gender identity, but the solution being proposed is hardly a solution. It will create more confusion, anger among vast majority of people, and divide us to not trust others. I strongly ask you to NOT change the terms in the Title IX.

Thank you,

Mrs. Young Pintaske

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).”

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

Biological boys, in general, are bigger, stronger, and are able to outperform girls in most athletic endeavors, thereby assuring few, if any, females have a chance at athletic scholarships. Girls should not be forced to compete against them.

Furthermore, having to share showers and bathrooms with biological males is clearly an intimidating experience for any female to contemplate. Wanting personal privacy is not to be scoffed at and made little of.

When girls speak out on this, they have a right to be heard and their concerns given weight as they are the losers if this trend to allow biological males to compete and share showers continues.

Finally, as a parent, it is my right to teach my children about sex when I determine they are ready for it. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Acting Director Goldberg

Dear Acting Director Goldberg,

I intended to personalize this message with my own thoughts. BUT these are my thoughts expressed clearly and concisely. I believe they are also the thoughts of a majority of parents in our country.

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Margaret Larrow

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls. This policy is unthinkable! We must keep our girls safe and not exposed to the nude bodies of biological males. Most locker rooms have open showers and it is uncomfortable enough for girls who are modest even with all biological females. I do not trust the motives of individuals who will lie just to gain entrance into bathrooms and showers with girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. This would take away all fairness in athletic competitions for girls.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls. If you're going to follow the "science" in other areas, why are you then ignoring the science of absolute fact, that biological boys are different than biological girls. It doesn't matter that they want to identify as a girl, it will take away scholarships and other things if this is allowed to happen. Since boys/men are physically stronger in most sports. So why do you want to discriminate and take away what has been put in place to keep to allow biological girls to excel in competing against other biological girls. Let's STOP the stealing of educational opportunities for women and girls

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls. You REALLY have no issue putting your daughter in this situation?

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

As a grandmother of 5 girls and 3 boys with I am another one on the way, I urge you to vote against making changes to Title IX to redefine sex to include sexual orientation or gender identity. There are enough challenges for children and adolescents as they are growing up. It has become worse since the alcohol and drugs in my mine and my children's generations. There is also social media bullying, school shootings and a rise in suicides. It would make it very difficult and embarrassing to share showers, locker rooms etc with boys. It was hard enough to share those with girls.

Thank you,

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

I urge you to abandon this flawed and dangerous attempt to remove protections and freedoms from the children and youth of our nation. I wholeheartedly stand against the removal of Title XI freedoms and protection of our girls and youth. I know many other Americans who share my view that these proposals are wrong. Also I believe that much of the public hasn’t been given enough opportunity to understand the seriousness of these proposed policies. Therefore, it is an attempt to deceive many. Our generation will be judged by history as having either stood up to these policies or caved into the pressure of a few who want to force the majority to sacrifice their safety and opportunities. Please do not abandon the young children, primarily girls, that will suffer from these proposed policies. Please understand that they are not popular and should the current leaders of our nation choose to pursue these dangerous ideologies, they will not be popular either.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse, hamper privacy and steal opportunities for women and girls.

Let’s focus on teaching core subjects especially math and science where the US lags behind other industrial nations while spending far more money than those countries that are ahead of us. I strongly oppose using my tax dollars to teach issues that are best taught by parents, not elitists. Also as long as the the democratic party is controlled by the teachers unions we will never have equality in education.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights - including rights of parents to teach their children about sex - must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Teresa Nieto

As a parent, minister, and former school board member I urge the Department of Education to not change their education policies that redefine "sex" to include "sexual orientation" and "gender identity." It is the parent’s responsibility to teach their children about sex, not the government’s. Please allow the schools to teach academic subjects and democratic values.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Karen Spyker

Please, please, please stand up for the rights of the children, the girls, the boys and the citizens of this country to protect them from having their privacy, educational opportunities, and freedoms taken away. America was founded on the idea of it's people having freedom and on the principals found in God's word. Please do not try to make this into a different country by forcing it's people to be where they do not want to be, to be force taught ideas held by a few and considered abominable by most. And as Jonah cried out in the streets of Nineveh, "...Nineveh shall be overthrown!", beware that God will destroy the people— and the nations who are going against His commands unless they/ we listen as Nineveh did and repent and turn from
our evil ways. May our leaders learn from the king of Nineveh and encourage our country as a whole to humble ourselves, repent, turn from evil ways and cry out to God.

It is God who puts all into leadership roles. You were placed in this role for a reason. Our country was founded to be by the people and for the people. I adjure you to listen to what the people of this nation really want.

Thank you,

Mrs. Todd Miller

As a parent, I thank the Lord God Almighty that TRUTH never changes despite bad politics and politicians. The Word of God clearly defines men and women and limits sexual activity between husband and wife only. To violate God’s law is sin. To push this disgusting ideology on children is intrinsically evil on the part of any adult who approves of this.

This needs to stop however, I have put my trust in Jesus Christ. It would be of great value to Biden and those around him to do so as well. I will continue to pray for their souls.

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Judith Lageschulte

Dear Acting Director Goldberg,

School for a lot of children is difficult enough without trying to confuse them about their identity. This agenda to teach sexual identity and allowing mixed genders in locker rooms, bathrooms, etc will traumatize many young people. I have children and grandchildren who are very private and protective of their body. It would also violate the values of parent who are Muslim, Christain and of other faiths.

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).”

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Sue Zepeda

Dear Acting Director Goldberg,

I am writing concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law, and I am writing to state that I am strongly opposed to any changes in wording, definition, or enforcement of this policy.

When the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys, thankfully a nationwide injunction stopped it. I believe the current Administration and this Department must also now be stopped from violating the privacy of girls.

Girls in America are now being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are harassed, shamed or censored. The Department must not force girls to forfeit their unique female-specific opportunities.

Finally, I am strongly in favor of respecting parental rights - including the right of parents to teach their children about sex. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. Thank you for your consideration of my position.

The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights - including rights of parents to teach their children about sex - must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

As a mother of two daughter, please realize the dangers and concerns I have with what the Biden administration is attempting.

The Title IX Amendments were clearly crafted to give educational opportunities to biological women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

Science is being ignored on how biological males perform compared to women. Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. Has this administration forgotten the obvious genetic makeup in why we have women's sports in the first place vs all sports Co-Ed? And when women speak up, or even biological males that identify as women speak out saying that biological males in female sports is not right-they are censored! This Department must not force girls to forfeit their opportunities to biological boys. It is a direct infringement on women’s rights!

When the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

As a mother I have parental rights, and those rights include being able to teach my children about sex. And that right must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. Nor should an educator be forced to teach something that is against their religious beliefs. The federal government is overstepping their boundaries on parental rights with this Administration’s agenda. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Tialyn John

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).”

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights - including rights of parents to teach their children about sex - must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Kristofer Egeland

We move backwards instead of forwards if we disadvantage our nation’s girls in the name of gender identity. Truly protecting the rights of one group has never meant discriminating against another group instead. All Americans should be given opportunities to advance. Our girls deserve protection, support and dignity. Surely individual communities have the best ability to identify the needs of all their people, as well as the highest motivation to do what is right for neighbor. Forcing schools nationwide to fit into one mold hurts more than it helps. Rather, keep rules the same so that communities can address the changing needs of their people and protect the rights of all.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. Girls/Women have come so far to even be able to compete in leagues of our own in various sports where they can thrive and shine fairly competing with other Girls/Women within the same range of strength and ability, only to have it unfairly taken away by men/boys wanting to compete with them. It's just not fair. Boys and Men have a biological advantage.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. This begins in the home, not in school. It's my job to teach my child about sex, not the school. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. Please do not overstep on my role as a parent to raise my child according to mine and my family's Christian beliefs. The Department must reject implementing radical gender ideologies nationwide. Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally, parental rights - including rights of parents to teach their children about sex - must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Ronald Garber

I’m concerned how these “improvements” would disregard girl’s safety as well as the simplicity of keeping sports fair, enjoyable, and attendance up (who wants to play having the guy dominating the field—watch any playground sports and see which girls enjoy more—playing among other girls or being ignored as the guy dominates the game).

Take the time to read and ponder these serious issues for children, boys and girls. Thanks so much!

Thank you,
Ms. Sarah Abney

The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights— including rights of parents to teach their children about sex—must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Kathleen Smedley

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

This country was founded on Christian Jedediah teaching and we as a nation should be seeking God’s teaching which clearly shows the physical disadvantages of girls, so we have to respect their nature and level the field for them to have their own sports and maintain their dignity by giving them privacy in bathrooms and showers.

Finally, parental rights— including rights of parents to teach their children about sex—must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).”

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights - including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).”

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Pricella Lua

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights - including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Bethany Ballenger

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

There is not nearly enough data to back the claims that biological boys who identify as female can alter their bodies in order to make competition against other biological females fair - not to mention safe - for the biological females. Until there is irrefutable evidence that biological girls are safe and in equal playing fields, it is the duty of our government to protect our biological girls and women and continue to uphold all the rights of females that our country has fought for over the years.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

This message is in regard to the upcoming public hearing on title IX (June 7-14). I say, how about we teach actual school subjects in the schools like math, reading, writing, etc. Not sexual orientation and gender identity. This has absolutely NO place in our schools. We are hurting our kids and their future success in the world.

The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex - must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Let families teach social issues and public schools stick to the basics such as math, language and true science. Believe science.

I know it’s hard to please everyone, but stick to education and let families fill in the gray spaces. It’s not the government’s place.

Thank you for serving our citizens. Please listen to them as well.

Thank you,

Mrs. Wendy King

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).”

Title IX is an important piece of legislation that was designed to give educational opportunities to women and girls. It seems that the current Administration and the Department are now trying to use Title IX to actually take opportunities away from girls and women. That is, redefining "sex," "gender," and "girl" in such a way that actual, biological, girls and women are disenfranchised by Title IX. In my opinion, such a twisting of definitions and the intended result of these definition changes is both unacceptable and disgusting. The Administration's and the Department's actions, thus far (including those taken on International Women's Day), have shown their rush to redefine law and, worse—harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).”

The Title IX Amendments were crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown haste to redefine law, invade privacy, and steal opportunities for women and girls.

The Obama Administration had threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. When they raise their objection to this, they are censored. This Department must not take away women’s rights by forcing girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be upheld. A public education should be focused on teaching children reading, writing, and arithmetic. Implementing radical gender ideologies in public schools nationwide is NOT the role of the federal government. It is the sole right of the parent to teach their child about sex. Our federal government was put in place to serve the citizens of this nation, not enforce heinous laws that restrict our God given rights as a free nation and a free people.

As a mother of young children, a citizen, and a tax payer, I urge the Department to reject implementing radical gender ideologies nationwide.

I am against the proposed changes to our schools' curriculum, like CRT and instilling our children with gender propaganda.

The Biden administration has overstepped its bounds and needs to be stopped right now.

Parents across the nation are up in arms about these changes and the harm they would bring to our country's children.

Should these changes go through, I suspect public school enrollment to drastically drop in favor of parents homeschooling their children to protect them from far out leftist dogma that is downright dangerous.

Parents are the ones to teach their children about sex and sexual orientation. The government needs to butt out.

Thank you for listening.

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide. This is a violation of my religious freedom. These are extremely controversial issues that violate religious freedoms. They do not unite but clearly divide. Forcing people to accept these ideologies is not unity!

Thank you,

Mrs. Sandy Prassakos

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).”

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights— including rights of parents to teach their children about sex— must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. M. Worman

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

Most importantly, parental rights including rights of parents to teach their children about sex must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

The Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Our children deserve to be children, not forced to follow radical social agendas that violate the values taught in their homes.

Thank you,

Ms. Beth Dawson

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls -- not to redefine those terms. I strongly oppose any changes to redefine those terms to include gender identity. Nor should local school districts be required to include sexual orientation and gender identity in their educational policies.

Finally, implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Dear Acting Director Goldberg,

Please hear our deep concern at the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).”

The Title IX Amendments are specifically designed to give equal and full educational opportunities to women and girls. Mister Biden’s administration along with the Department are tragically ignoring the definitions, purpose, and scope of this law. I cannot fathom why Administration’s and the Department’s actions and their rush to redefine law are aimed to violate our privacy and steal opportunities for women and girls.

The Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. Now you want again to violate the privacy of girls. This must not be allowed.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys and to be denied their freedom of speech.

Finally parental rights—including rights of parents to teach their children about sex—must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights— including rights of parents to teach their children about sex— must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing anything that deprives our young girls from their fair chance at competition.

Thank you,

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).”

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

I am adding my voice against the implementation of these proposals to changing Title IX.

These proposals are not moral or legal. The time is over trying to usurp rights of parents & an attempt to ruin the moral fabric of our children. We the people are saying NO to your agenda. You do not rule over us. If you continue in this horrific agenda, you will find yourselves without jobs when elections are held as we the people will no longer tolerate such plans.

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights - including rights of parents to teach their children about sex - must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Denise Singer

Dear Acting Director Goldberg,

As an adult, parent, and grandparent, we should all know that our primary job to the young is to protect them as they grow into adulthood where they can then make decisions and choices regarding their lifestyles. Growing up is a wonderful and confusing time but given the proposed changes to Title IX, it will cause detrimental consequences to the young whether male or female concerning their rights to privacy within their born physical appearances, value to society and abuse by others. This is another stone on the grave of lost values in America and we should all be ashamed at how far we have fallen in the quagmire of disrespect. It is time to take a step back and look down the road to the future of what is being created and the poor legacy we are leaving on the backs of these generations. As stated below, do not support these changes across our vulnerable young and our whole country!!!

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Mike Randolph

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights - including rights of parents to teach their children about sex - must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Stop discrimination against girls.
Stop confusing next generations.
Stop stealing kids' innocence.
Stop discrimination against people of faith.
Stop violating the constitutional rights.
Stop discrimination against science and scientists when you throw the scientific facts away and ignore them.

Be Americans and let America be great again.

Thank you,

Dear Acting Director Goldberg,

I am a grandmother of six wonderful children with one little baby girl on the way! I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. I am highly concerned that the Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, so far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls. My 14 year old grand daughter is just going into high school and I am horrified that her very safety is of no concern to you! Not only is it hard enough to be a growing girl but to be put in danger by being exposed to boys--biological boys--is far beyond keeping her and other girls safe!!!

When the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys it was unbelievable, especially as a father to two girls!! WHAT WAS HE THINKING?? Thankfully, a nationwide injunction stopped it. Common sense prevailed! Is there any common sense and decency remaining now in 2021? This Department must not violate the privacy of girls. It MUST protect our girls!

Today, hard working athletes who are girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. How can this be?? Again common sense should tell you that these boys, no matter what they want to be, have the God-given physical abilities of BOYS/MALES!! And when these girls speak up, they are censored. CENSORED!!! Shameful!!! This Department must NOT force girls to forfeit their opportunities to boys, nor their very safety!!!

Finally parental rights- including rights of parents to teach their children about sex- MUST be respected. Implementing radical gender ideologies in schools nationwide is NOT THE ROLE OF THE FEDERAL GOVERNMENT!! The Department MUST reject implementing radical gender...
ideologies nationwide. Let parents be parents! Let the educational system see that you are actually teaching reading, writing—yes, writing—and math! Leave your moralization or lack thereof in your OWN HOMES!

I respectfully submit—

Thank you,

Mrs. Jacque Baldassare

Time was when education was teaching kids how to think, not what to think. The manner of our educational system continues to move in a direction of indoctrination over free thinking, and this can only lead to a society lacking freedom of diverse opinion, lacking tolerance for those who don’t share the majority perspective, lack of respect for those who choose living outside what’s considered an acceptable norm.

As has been said many times - your rights end where my nose begins. We can always engage in debate and dialog over differing views, and agree to disagree if we choose, but where we're told what to think, of are assaulted for not agreeing with any group's way of thinking, we are a society are sinking into a quagmire of social engineering outside of the freedom and liberty this for which this country was established!

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Biological boys are not to be competing in girls' sports or using girls' locker rooms or restrooms.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex - must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Deborah Hodgdon

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

I am tired of the federal government taking on roles NOT specified in our Constitution. The Department of Education didn't exist until 1979, fully 200 years after our country's founding. I don't think we missed out on anything constitutionally required during those two centuries, and I don't think we've added anything worthwhile since 1979.

I played softball and volleyball as a high schooler. I cannot fathom having to compete against guys for a spot on the team! There was probably only a handful of girls that could have done so. Plus the comradere of our team would have been totally lost. Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual
Public Hearing to gather information for the purpose of improving
enforcement of Title IX of the Education Amendments of 1972 (Title
IX)."

The Title IX Amendments were clearly crafted to give educational
opportunities to women and girls. The Biden Administration and the
Department have clearly ignored the definitions, purpose, and scope of
this law. The Administration's and the Department's actions, thus far,
have shown their rush to redefine law and, worse, harm privacy and
steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if
schools didn't force girls to share showers, locker rooms, and hotels
with boys. Thankfully, a nationwide injunction stopped it. This
Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at
sports events because biological boys are allowed to compete with them.
And when they speak up, they are censored. This Department must not
force girls to forfeit their opportunities to boys.

Finally parental rights - including rights of parents to teach their
children about sex - must be respected. Implementing radical gender
ideologies in schools nationwide is NOT the role of the federal
government. The Department must reject implementing radical gender
ideologies nationwide.

Thank you,

Mrs. Angela Weidenbenner

There are two genders, male and female. Any changes made are unnatural and should not be taught in school. Schools should teach reading, math, science and actual facts of history. Radical ideologies, gender or otherwise should not be taught or expressed in any classroom.

When our daughter was in school many years ago, she was both a scholar and an athlete... and had this kind of lunacy proposed by our nation's leadership been circulated back then, I have no doubt my husband (a former college athlete, also) would have quite likely gone to jail over his reaction to these dangers presented to his little girl. I understand President Biden does not have daughters, but he must know what parents of daughters are going through when they hear this news. If he is unable to put himself in the shoes of most Americans, he should not be holding such a powerful role. To ignore such an outcry is a crime!

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls!!!

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected! Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Pamela Dowell

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Nancy Heck

Listen to the American people: We don't want changes to the education policies to redefine "sex" as "sexual orientation" or "gender identity." Girls and young women have the right to be who God created them to be- female- without threat, harassment, or removal of opportunities.

Thank you,

Everyone praised Kamala Harris for becoming the first female Vice President. However, this administration wants to erase gender, so in that case, it absolutely can't be a big deal that she's the first female VP; otherwise, there is gross hypocrisy in this administration's message. Why does this administration want to create a glass ceiling in girls' sports and open us up to abuse, invasion of privacy, etc? Where is the protection for women and girls? Women have fought for freedom and their rights through our country's history. If this law passes, our country will have taken a giant step backwards in freedom for women and girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it, but current proposed changes make me fearful that it's only a matter of time before that injunction is reversed. This Department must not violate the privacy of girls! Even though I'm now a grandmother of teens, I can still recall the embarrassment of having to change and shower following physical education classes. All of us tried to find a place to hide so our nudity wouldn't be exposed. Now the new modifications to Title IX will open the door to facing that horror with those who still exhibit a biological male body even if they identify as female. This strips away the modesty of all people while also placing females in a position of harm.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. We need to face the reality of biological differences between males and females. Someone's "identity" does not change that fact, so our legislation should not yield to erroneous conclusions based on a faulty perception of reality.

Finally parental rights- including rights of parents to teach their children about sex- must be respected! Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide. This is not kind-hearted tolerance but a harsh
denial of the documented evidence that harm is done.

Thank you,

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally, parental rights - including rights of parents to teach their children about sex - must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Linda Custer

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department appear to have ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse-than-private, remove exclusive opportunities for women and girls.

The Obama Administration once threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally, parental rights— including rights of parents to teach their children about sex—must be respected. Implementing gender ideologies or human sexuality teachings in schools nationwide is NOT the role of the federal government. Natural, biological reproduction can fall under sciences, but sexuality of any kind is not appropriate to be taught to young children by anyone other than a parent or guardian. The Department must reject implementing these agendas nationwide.

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).” Created to provide girls and young women with opportunities offered boys and young men, that females would have a chance to compete against similarly capable athletes. Adding males to the mix, regardless of how they identify, robs them of the opportunity. Adding biological males to female athletics removes equity and the principals for which you claim to be fighting.

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dear Acting Director Goldberg,

I am highly concerned about the "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Biden Administration has clearly ignored the definitions, purpose, and scope of this law. The Administration's rush to redefine law and to harm privacy and steal opportunities for women and girls is unacceptable.

When the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys, a nationwide injunction stopped it...for very good reasons which prevail to this day.

Girls are now being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. That's just wrong in any culture. And when they speak up, they are censored. This Department must not force biological girls to forfeit their opportunities to boys.

Finally parental rights - including rights of parents to teach their children about sex - must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Dear Acting Director Goldberg,

When a society discards its basic traditions and substitutes a perverse ideology, that society will not survive. There are absolute truths even if we don't like it. There are only two sexes according to the way God has ordered the universe. Every one of us was born of a mother and a father. This current insanity has become a religion that wants to impose itself on every one of us. This is Marxism. It is anti-God, anti-religions, anti-traditional moral values and it will destroy our youth much as the serpent deceived Eve into believing a lie.

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).”

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Ted Georgiou

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I believe that only those born as a female should be allowed to use bathrooms/locker rooms designated as "girls" or "Women". And furthermore, they should be the only participants in female sports such as basketball, track, softball etc. There are biological differences between male and female and to cross these lines violates women's privacy and equal opportunity to compete and succeed.

I do not believe the Department of Education or any other department should interfere with a parent's right to teach their own children about sex and gender. Leave those decisions to the local, parent-run school boards. Our children were born to a mother and father to love, nurture, educate and protect. We do not need radical leftist teachings and censorship of our children throughout the educational system. The children do NOT belong to the Department of Education nor the government to educate as they feel politically expedient! Keep your hands off with all your liberal policies and stop training them to "Think correctly!" History does not show that in favorable light or with positive results! Learn from history - don't repeat it!

To sum it up, the Department must reject implementing radical gender ideologies nationwide and listen to the parents and citizens of this nation!

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Patricia Lewison

Dear Acting Director Goldberg,

This message is regarding the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were created to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. Their actions have harmed privacy and stolen opportunities for women and girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. This is clearly unfair. Biological males are stronger and faster than females, and allowing biological males who self-identify as female is unjust and destroying women's sports. When girls and women speak up about this injustice, they are censored or criticized. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- MUST be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Boys and girls were never meant to share locker rooms together. Our society has surely not sunk so low that we have no concern for this. Do we as parents and grandparents truly want our sons, daughters, grandsons, and granddaughters sharing locker rooms, bathrooms, showers, or even sports together. While we may want similar rights for men and women such as equal pay, we do not want men and women to use the same bathrooms, locker rooms and showers ever. We want our children and grandchildren to respect sexuality.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).”

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Jacqueline Valentino

Dear Acting Director Goldberg,

I am writing to you about the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)." I oppose the proposed changes to this amendment.

As a woman who enjoyed competing in girl's sports while growing up, I am very concerned about this issue. The Title IX Amendments were meant to give educational opportunities to women and girls. It is a terrible step backwards to now use this funding to force schools to make girls share locker rooms with and compete against biological males. It doesn't matter where you stand on the issue of gender identity, this is wrong and goes entirely against the spirit of Title IX.

Also, the government has no right or place to force sexual awareness and gender ideology on children and young adults. This is a highly sensitive and personal area of development and should be left to those closest to the children to determine timing and appropriate content. A one-size-fits-all approach can be devastatingly harmful. Please do not force these harmful policies on the people. We need more personalized care in this area, not mass brainwashing.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights - including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Dr.Fullmer Barry

Dear Acting Director Goldberg,

Aloha. I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Dear Acting Director Goldberg,

I am writing to you concerning the upcoming Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

Thank you for allowing me to share my concerns. I believe that girls need to be protected in school. I am concerned that if biological born boys who identify themselves as a girl are allowed to participate in girl's sports, girls will not be given a fair chance to win in their sport that they are competing because biological born boys will outperform girls in that sport. We must and should protect the young females in our society and give them equal opportunity to compete against only other biologically born girls. Also, I am afraid that if biological born boys are allowed to use girl locker rooms that many of our young girl athletes will be sexually violated.

Thank you for upholding the privacy and dignity of our girls in our nation!

Thank you,

It is the parents rights to teach their children about sexuality...not the schools...this must be respected and acted upon.

Schools in the USA were originally began by communities, not the government, to teach their children, both male and female, education to better the community and also to be able to read the Bible on their own instead of relying on one literate person to interpret it for them.

Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The current administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights - including rights of parents to teach their children about sex - must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you for your service, don't abuse it.

Thank you,

Mr. Paul Toelke

Education should teach students the basics of math, the arts, writing, reading, history, civics, and science. Ideology should not be part of the school curriculum. That is the right of parents.

Sexual orientation and gender identity have no place in a school's curriculum. These matters should be up to individual families to discuss.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Duane Finn

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.
