Jun 11, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Jeff Teeters
Dear Acting Director Goldberg,

I have granddaughters and would not like to see them have to share locker rooms with boys their age or older. I would not like to see them compete for scholarships in sports with boys. Why is it we see this competition only in girls sports and not boys? Isn't it obvious that boys, even those identifying as girls, have an advantage over girls?!

Thank you,

Mr. Scott Starick

(b)(6)
Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments as originally written, intended, and implemented have provided wonderful educational opportunities to women and girls. Redefining those amendments to ignore biological sex, as the Biden Administration and the Department are aiming to do, will strip the advances and opportunities that Title IX has provided to women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with biological boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. Protect our girls!

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

I have been coaching for over 50 years, boys and girls athletics (high school and middle school), and transgenders should NOT compete against girls! Unless they have their hips widened, shoulders narrowed, muscles attached differently (by surgery) I don't care how many hormones, etc they take, they are not girls! If they are going to compete, the most fair thing would be a separate category for the trans people! Protect our girls! I thought the democratic party was about women's rights?!
Thank you,

Mr. Bruce Boldenow

(b)(6)
Jun 11, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am absolutely against your proposed changes to the Department's Title IX. How devious to name these changes "improving enforcement" in your virtual public hearing: "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments, originally crafted to give educational opportunities to women and girls, turn upside down if your proposals go into effect. The Biden Administration and the Department arrogantly overreach reality as you ignore the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, show a hurry to redefine a fine protective law.

Worse, your proposed changes harm the protected privacy of women and girls as well as steal opportunities away from women and girls.

When the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys, a nationwide injunction stopped it. For this Department to force violation of women and girls privacy is bizarre. Stop.

As you already know, girls lose their well-deserved wins at sports events because biological boys compete with them on the lies of these boys who "say" they are women. When women or girls speak up about this travesty of common sense, they are censored. For this Department to decide it's good to demean sports gains, scholarships based on winning of competitions, and joy of biological women and girls is directly opposite to the intent of Title IX.

Parental rights are also violated by these proposed changes. Why do you seek to violate parental rights? To implement governmental control? Government employees not our parents.

Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. I expect you to REJECT implementing these anti-women's rights, anti-science and anti-biological gender
differences proposed rule changes upon our beloved women and girl citizens of the United States.

With any due respect,
Dr. MaryPat Huxley

Note that though this is a letter crafted by others, I've changed it some. I also included my name and contact information in this letter as I can only "thank you" for your courtesy in reading and recording my response.

Thank you,

Dr. Mary-Pat Huxley

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Laura Yoder

(b)(6)
Acting Director Goldberg

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. Any dilution of those opportunities runs afoul of the original intent and purpose but, more importantly, actually disadvantages biological women and girls.

The privacy and, by extension, the dignity of our girls cannot be violated by forcing girls to share showers, locker rooms, and hotels with boys. Further, athletic opportunities for biological girls and boys should not be sacrificed on the altar of pop culture.

Finally parental rights- including rights of parents to teach their children about sex- must be respected and protected by the state / government. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government.

I respectfully urge the Department to reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Dresden Brunner

My family does not agree with all the things our government is wanting to teach our children at school. If we put the Lord Jesus back in our schools and teach them the ways of God. Our world would be a much better place and the truth would be told. Our families are meant to be one Man and one Woman. Our children are boys and girls. It is wrong to take their innocence away from them by teaching things that are not meant for children.
Let God guide your decisions.

Lindsey Lee Kirby Jr. And Gina Kirby

I have held it as a high honor and high responsibility to teach my children all they need to know in the sex education arena. The schools are not where our children should be learning about this topic; rather it should be in each child's home with their parents/guardians.

Thank you,

Mrs. Laura Klob

Jun 11, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Girls need their privacy. I know middle school and high school are tough times because of all the hormone changes that are occurring.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Kari Slagle
Jun 11, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I write concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments aimed to give educational opportunities to women and girls. The Biden Administration and the Department have ignored the definitions, purpose, and scope of this law. The Administration and the Department have rushed to redefine law and -- worse -- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because BIOLOGICAL BOYS are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights -- including rights of parents to teach their children about sex -- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

I STRONGLY OPPOSE ANY CHANGES in education policies that redefine "sex" to include "sexual orientation" and "gender identity." President Biden's Education Department has no place attempting to implement this radical agenda into every local school district in the country.

Thank you,

Dr. Mark Roberts

Acting Director Goldberg

Dear Acting Director Goldberg,

As a mother, daughter, and sister, I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Natisha Wetherill

Jun 11, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's Title IX Virtual Public Hearing.

I was a full ride scholarship collegiate athlete. If biological males would've been able to compete in the same sport, there is no way I would have had the same opportunity for a volleyball scholarship. This Bill suppresses women! The liberal right think it's only fair, but obviously the women pushing this legislation were never high level athletes-otherwise they would see the injustice to biological females who work their whole lives to secure an athletic scholarship. Males are genetically, physically and biologically different than females. They are stronger, taller, and have faster twitch muscles which enables them to jump higher, run faster and lift more. That's why the liberal women's groups supported Title IX in the first place... to protect women. This bill sets women's rights back decades and creates an uneven playing field.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Chris McClurkin

Mr. Ronald Steinfeld
Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This is terribly unjust and deprives girls of the opportunities that girls' sports are supposed to provide. I urge you to oppose the policy changes that would redefine "sex" to include sexual orientation and gender identity.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. It is not the role of the federal government to decide what children should be taught about sex.

Thank you,

Mr. Paul Byrne

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Tammy Slayman

(b)(6)
Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I am a parent of a high school, female athlete. It is not fair for her to potentially have to compete against a stronger biological boy nor is it safe or reasonable for her to share a restroom or locker room with biological males.

Thank you,

Mrs. Jessica Mitchell

Acting Director Goldberg

Dear Acting Director Goldberg,

Having safely raised [FAY] daughters into adulthood without the threat of men invading their sacred spaces as females is something I am grateful for, but is also now something I'm greatly concerned about for the younger generations fo women. Please think not just about what seem's tolerant for a few who want there way, but for safety and fairness of the many who are entitled to what's always existed for generations prior to these new ideas being proposed.

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Jenny Vesta

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I have [EMI] daughters who compete in high level club sports and it is frustrating to think they will have to compete against boys (who claim they are girls). Keep the kids playing field/courts fair and my daughters safe!

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Luke Sunukjian
Dear Acting Director Goldberg,

I am writing to you about the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were designed to give educational opportunities to women and girls. Please do not ignore the definitions, purpose, and scope of this law. Please do not harm a female's right to privacy and steal opportunities from them.

Girls should not be forced to compete in sports against biological males because this is completely unfair and unnecessary. Sports should be divided based on birth gender. This Department must not force girls to forfeit their opportunities.

This entire issue should fall under parental rights - rights of parents to teach their children about sex and religion must be respected. Implementing gender ideologies in schools nationwide is a religious decision and not the role of the federal government. The Department must reject implementing new religious ideologies like this nationwide.

Thank you,

Dr. Matthew Swenty

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Shin Kim

Jun 11, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

Good Afternoon,

As a physician who has seen countless young athletes pass through my office and occasionally through the surgical suite, what is striking throughout the Title IX discussion is the lack of accurate data on the severe consequences to our youth who undergo transgender pharmacological and/or surgical procedures. The John's Hopkins experience and Sweden's experience reveals a shocking 17 times and 19 times suicide rates in people who have undergone pharmacological and/or surgical procedures.

At the end of the day, one cannot change orthopaedic anatomy: pelvic width, shoulder anatomy, tibial/femoral biomechanics and many other characteristics of a genetic male or female. As a physician, should I ignore biological science and not treat typical male diseases in a biological male who insists on being treated like a female.

Pharmacological and/or surgical procedures will not change one's chromosomes. Every person will die with the chromosomes given to him or her when the sperm penetrates the egg.

The Department of Education would be wise to study accurate data regarding the astonishing magnitude of medical ills occurring as a result of attempting to change one's sex.

Thank you,

Dr. Raymond Gruby

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

I personally participated in both high school and college athletics and coached high school volleyball, basketball, and softball for 10+ years. Had boys been allowed to participate in these activities, girls would have been disheartened to the point where most, if not all, would have quit, defeating the hard work of those who fought to allow girls to play sports in the first place.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Sharon Reilly

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

As a mother of 2 collegiate athletes, I STRONGLY OPPOSE ANY CHANGES to redefine sexual orientations. They would never ever had the success they experienced if they had to compete against any male. Your emotional and mental feelings DO NOT change your biological gender!

Let the boys compete with boys!! Or are you with the Biden administration that wants to destroy America?

Thank you,

Mrs. Michele Daubenmire

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

As a mother of two daughters and grandmother of four and educator by profession, I entered the classroom to make a positive difference in young lives which I consider the most important privilege and responsibility. But I chose to stay home and raise our girls according to Biblical values, teaching them that they were created in God's image for His purpose and plan for good. Parents are our children's first teachers and play the most important role in their lives. When one of our daughters was bullied by male classmates, we took strong action to
protect her and pulled her out of the classroom until we were assured of her safety and well being. We would be negligent parents if we did not step in to advocate for her. The government has no jurisdiction to put our daughters (or any child) in harms way with perverted legislation!

Therefore, I strongly urge you not to redefine existing law to protect privacy of our girls.

Thank you,

Mrs. Rebekah Sutherland

Acting Director Goldberg

Dear Acting Director Goldberg,

Please use common sense. I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Charles Stoddart

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Gretchen Curtis

Mr. Rick Culver

(b)(6)
Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Raul Tavarez

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Rebecca Rose

Acting Director Goldberg

Dear Acting Director Goldberg,

Please don't do this to our children! Don't let the Biden Administration redefine the current law. I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Linda Lawrence

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Joseph Bach

Acting Director Goldberg

Dear Acting Director Goldberg,

Concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)"., it is imperative NOT TO REDEFINE THE DEFINITION OF "SEX" to include "sexual orientation" or "gender identity."

Title IX was clearly crafted to give opportunities to WOMEN AND GIRLS. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department MUST NOT VIOLATE THE PRIVACY OF GIRLS.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department MUST NOT FORCE GIRLS TO FORFEIT THEIR OPPORTUNITIES TO BOYS.

Finally parental rights - including rights of parents to teach their children about sex - must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Kalika Kirk

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Peter Thies
Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Thank you,

Mrs. Sherrill Williams
Jun 11, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the original definitions, purpose, and scope of this law. The Administration’s and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. While originally, it was felt permitting transgender biological males to enter girls' sports would not be a big deal, but only last year trans-males won over 250 contests, taking away victories from girls, the reverse of the original design of this rule.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Therefore, I strongly oppose this action and urge an immediate reversal of all actions to implement said proposed changes.

Thank you,
Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Jonnell Miller

(b)(6)
Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dr. Justin Wachs
Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were written to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

The Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys, which is completely inappropriate. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide. Parents should be the ones deciding how and when it is appropriate to teach that to their children.

Thank you,

Mrs. Hannah Main

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Jan Heffley

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Vicki Bridges

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Debbie Gastineau

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Ronda Creedon

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

The ideology of everyone having the same rights is being suppressed with this redefinition of Title IX. On one hand, you support women's rights in leadership roles, and on the other hand you repress their achievements in sports. How can this even make sense? Confusion reigns during this day and age. This administration is forcing ideas and interpretations of laws that were never intended from our forefathers.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

Try to do what's right for the students. Find an unbiased psychologist to consult, Even listen to those on both sides of the issue. And then try to do what's best for the kids. That was popular with the president or what's expected by those who bribe and threaten. Fight for the innocent children to have a loving upbringing under watchful parental care.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

Thank you,

Mr. John Swartz
(b)(6)
Dear Acting Director Goldberg,

Please, please, please do not force sexual orientation and gender identity training on our children.

Teaching respect for others (regardless of race, gender, or sexual orientation), and insisting that students and teachers treat each other with respect is vitally important.

Respecting Liberty is vital.

Forcing sexual identity training, critical race theory and other political positions is not wise and not what school systems should be doing.

Thank you,

Claudia Van Porter
Acting Director Goldberg

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)." As a parent of 2 school aged children this is a VERY important issue to me and my family.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls. PLEASE listen to everyone, including parents of girls in school. This policy change is in DIRECT opposition to them. Please don't push my girls out of the way, to make a "WOKE" choice.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Jennifer Bezner
Jun 11, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you as a mother, pastor, and a concerned American citizen, regarding the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

It is vital that we return to our roots and uphold the Constitution as written by the Founding Fathers who understood their God-given identity, purpose, and liberties.

Thank you,

Mrs. Kate Neilsen

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Susan Dehamer

Acting Director Goldberg

Dear Acting Director Goldberg,

As a former high school athlete, I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

My experience in [b](6)would have certainly been different, and not in a good way, if guys who were gender confused had access to our changing room or to even compete against our girls. The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Virginia Galloway

[b](6)
(b)(6)
Jun 11, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)." I am STRONGLY opposed to any changes to this policy that redefine "sex" to include sexual orientation and gender identity. These topics have no place in our schools.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I was opposed when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls. I doubt this is a situation that these Board members would want girls in their own families exposed to.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. This is not fair and goes against everything that women have been fighting for since Women's Suffrage.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,
Mrs. Donna Sant
(b)(6)
Jun 11, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. We must not ignore the definitions, purpose, and scope of this law. Redefining this law harms privacy and steals opportunities for women and girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally, and perhaps most importantly, parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide. God created man in his own image, in the image of God he created him; MALE AND FEMALE he created them. In the name of all that is good and true and right and honest, please do not open the door wider to confusion and madness in the hearts and minds of our children by redefining Title IX Amendments.

Thank you,

Mrs. Judith Ward

Jun 11, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)" (hereby Executive Order).

There are several issues that draw my attention. The first of which is the neglect to define what is and what is not considered discrimination. In other words, it is left entirely to an individual's opinions, feelings, and perspectives as to whether or not they experienced discrimination. A lack of clarity will inevitably lead into a multitude of emotional accusations that deteriorate into a back-and-forth debate. Furthermore, who is the authority in an accusation taking place at school? Is it the accuser who has the ultimate decision; public opinion; parents; a judge? What actions are the Administration taking to protect staff and students who hold different beliefs?

Ironically, the next glaring problem is in fact an issue that many would argue is discriminatory. Federal aid is being stripped from schools on the basis of their religious beliefs, as those beliefs do not adhere to the Biden Administration or others' ideology surrounding identity and sex. As the Biden Administration has maintained the removal of funding from schools that don't align with its stance on sex and identity, what are we to tell families that disagree with the public, government-funded schools? Many families rely on financial aid, especially now, and are trying to find an alternative school that meets their personal convictions so as not to disrupt the new regulations of public schools. What is the logic and reasoning behind removing funding from schools that hold a belief about sex and identity counter to the Biden Administration's ideology? Practically, I would like to know the Administration plans to withdraw funding support, as well.

The literature states, "For students attending schools and other educational institutions that receive Federal financial assistance, this guarantee is codified, in part, in Title IX of the Education
Amendments
of 1972, 20 U.S.C. 1681 et seq., which prohibits discrimination on the
basis of sex in education programs or activities receiving Federal
financial
assistance."

How is the Administration defining a religious school's actions as
discriminatory? Based on that school holding a belief that is different
to the government? Is it not discrimination to treat one type of school
differently (funding vs no funding), based on their religious faith?

You have made the decision to impose schools to adopt an ideology about
sex identity, removing funding from religious and all other schools
that hold a different belief. You have made requirements for schools to
enforce and deal punishments, as appropriate and consistent, in order
to ensure this law of non-discrimination, which has no parameters set
and therefore based on a person's feeling and perspective, is carried
out. However, in contrast to your sweeping decisions and vague wording,
you have made it a priority carefully word and protect yourselves from
the impending fallout of this Executive Order by including a section
that protects [the] executive department or agency, or the head
thereof. These protections are all listed out in Section 3. I find it
disturbing that schools, teachers, fellow students, staff, and anyone
else in the educational field may be, according to anyone's feelings or
opinions, accused of discrimination. Schools may lose funding if they
don't submit to the Biden Administration's policies on sex and
identity. However, the staff and school have themselves little
protection and recourse, particularly when not sharing the same
beliefs.

Sec. 3. General Provisions. (a) Nothing in this order shall be
construed
to impair or otherwise affect:
(i) the authority granted by law to an executive department or agency,
or the head thereof; or
(ii) the functions of the Director of the Office of Management and
Budget
relating to budgetary, administrative, or legislative proposals.
(b) This order shall be implemented consistent with applicable law and
subject to the availability of appropriations.
(c) This order is not intended to, and does not, create any right or
benefit,
substantive or procedural, enforceable at law or in equity by any
party
against the United States, its departments, agencies, or entities, its
officers,
employees, or agents, or any other person.

Protection for anyone who faces discrimination is important and
necessary. I cannot think of anyone who is not in favor of respect,
kindness, or support for individuals facing these issues. This
Executive Order, however, is a poor substitute for the respect,
kindness, and support anyone in the LGBTQ+ community deserves. It is a
piece of candy. Looks and tastes good, but not good for you. A vague,
undefined idea of discrimination with no boundaries helps no one. Your
party and Administration know this, I can only assume. Removing funding
from schools where staff and families may otherwise turn, would cease to be an option for many of those individuals. In fact, schools may shut down. Your decision to drop funding could easily lead to increased tensions as there would be few or no alternatives for lower-income families that disagree with the Biden Administration's sex and identity stance. Lastly, you have sought to ensure your own agencies and other governing/executive agencies are heavily protected. Where the LGBTQ+ community was given a vague and open-door policy with a simple, "no discrimination" law, you meticulously worded Section 3 to ensure executive, the US, agencies, individuals, etc. would be absolutely covered with protection. Hopefully, the LGBTQ+ community notices the poorly contrived attempt to aid their cause and echoes these points.

The retraction of funding to schools who hold different beliefs, in addition to the Department pushing radical gender ideologies into the education system and nation, reveals a gross misunderstanding of the relationship between Church and State which leave this Executive Order regarding Title IX of the Education Amendments of 1972 in need of rejection. Thank you for patiently reading through these concerns of mine.

Thank you,

Mrs. Jacquelyn Chung

Jun 8, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)." I am a former Juvenile Court judge in [h[6] and since 2007 have developed a legal expertise on the irreparable and permanent harms to all citizens affected by laws purporting to protect transgendered persons ("gender identity or expression") from discrimination in ways that go far beyond such purpose. Because of the number of harms such laws visit on citizens and their rights, I will focus primarily herein on the destruction of quality of life that occurs to students if their school shower and restrooms are opened up to both biological genders, especially in the over 90% of U.S. public schools in which such facilities are not all "lockable, single user" facilities or do not at least have individual shower stalls separated by walls and lockable doors, i.e. NOT curtains which easily move aside.

First, as a judge, I know the law says clearly that executive branch agencies, including the U.S. Department of Education, have NO power whatsoever to "interpret" law. That power is SOLELY vested in the judicial branch by the Constitution and U.S. Supreme Court rulings starting with Marbury v Madison.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls. By law also, statutes are interpreted by courts by legislative intent AT THE TIME OF ENACTMENT. I have personally participated in the drafting of an amicus brief in the U.S. Supreme Court's "Bostock" case decided in 2020. In that brief, I submitted documentation of the fact that the manmade concept of "gender identity" was not first invented until AFTER Title VII was passed, and therefore, it is an impossibility that the legislature's intent could include "gender identity." The same is true of Title IX passed in I 1972. Further, the Congressional Record excerpts that I
have read that there was a debate over what would happen if the word "sex" were ever interpreted to include both biological genders (stated on the record as a theoretical debate at the time given that again, "gender identity" hadn't actually been invented yet). The resolution of that debate was to add a CFR that still states that schools are free to segregate locker rooms, restrooms and sleeping quarters based on biological sex and gender. That CFR is the law and is mandatory for this agency to follow based on biology.

FOLLOW THE SCIENCE, WHICH IS BIOLOGY!!! BIOLOGY MATTERS!!! AND FOLLOW THE LAW, NOT WHAT PRESIDENT BIDEN WANTS THE LAW TO BE!!!

I remember May 13, 2016, when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. I also personally witnessed then-Pres. Obama saying on television specifically that his executive order of that earlier date was acknowledged to be illegal. That has not changed. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Then came the Bostock case. I have read it word for word. Bostock expressly says: 1) its holding is extremely narrow, 2) it applies only to Title VII and specifically says that it does not apply to any other federal statute, 3) it is further narrowed to only apply even in Title VII to the firing (NOT any other discipline or to hiring practices or dress codes) pertaining to LGBT employees IF the discharge is due to that status of the employee, which is now illegal, 4) and Bostock says expressly that it has absolutely nothing to do with showers or bathrooms or anything of the sort. So, the most this agency could possibly conclude, and even that would be beyond its legal power and Bostock, is that it is illegal to kick a student out of school solely because he or she is LGBT. And I doubt that is actually happening anywhere. Further, even then, Title IX contains specific terms such as the CFR that are not in Title VII and therefore, not present in Bostock. School policies also critically implicate rights of other students, including Constitutional rights including religious and privacy, not present when an employee is fired, in which case no other employee is affected. All of the above distinguish this from Bostock.

If this agency adopts again a policy that opens up community, multiple user showers in schools to both biological sexes, how is that to be administered by schools without any biological girl EVER seeing a penis in a shower, or conversely, any biological boy EVER seeing a vagina in a shower? How exactly is that to be done? And why would a federal agency set up any transgendered student to a SLAM DUNK conviction under the law of any of the fifty states for indecent exposure or Peeping Tom type charges, or even subject them to a "she-said", or "he-said" court case having to defend such a charge? There is no "school shower" exception to ANY of the fifty states indecent exposure or anti-nudity statutes - I have read every single one of them!

Today, girls are also being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. This is causing them to lose college scholarships, just the opposite of Title IX. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.
A "gender identity" policy would completely unravel and destroy Title IX de facto.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. Children are not guinea pigs in a laboratory. Granting students access to shower rooms in one thing, but no government EVER has ANY power to grant access to other students, who are individual persons and not government facilities, in vulnerable states of undress etc., The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Thomas North

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Judy Spaulding

This is yet another example of government intrusion into personal freedom. Efforts like this are literally destroying the fabric of American society, creating divide rather than unity. If this type of activity is allowed to persist it will result in revolution but not with the outcome the idealogs anticipate. This approach will only harm those you are trying to help by worsening animosity, not increasing understanding. STOP DIVISION! RESTART RESPECT! Before it's too late.
Thank you,

Dr. Valerie Jameson, MD

Thank you,

Dr. Matthew Weitzel
Jun 11, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls. I can not understand why we want to put girls at risk for sexual abuse. I remember being in the gym locker room as young teenager and being uncomfortable with being there with a bunch of my female classmates. I can not phantom by emotional pain if I would have been in there with boys too. Please make sure you keep girls as girls and boys as boys, don't let intermingling be forced.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. I want equality for my daughter. I want her to compete with biological girls. I don't want a biological boy to take her place as a scholarship recipient or compete against her. There are differences in males and females, and that's OK. But please, don't make my daughter suffer consequences because she don't have her rights as a female.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal
government. The Department must reject implementing radical gender ideologies nationwide.

Thank you for your time and consideration
Brenda Hedrick

Thank you,

Mrs. Brenda Hedrick
Jun 11, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse--harm privacy and steal opportunities from women and girls.

When the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys, a nationwide injunction stopped it from going into effect. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally, parental rights--including rights of parents to teach their children about sex--must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Chelsey McNeil

(b)(6)
Jun 11, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).”

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Bruce Pippenger

Jun 10, 2021

Acting Director Goldberg,

Hello! As a conservative Christian parent I STRONGLY OPPOSE ANY CHANGES in the education policies that redefine "sex" to include "sexual orientation" and "gender identity.

It is my right to teach my children about sex and my strongly held religious beliefs. It is also another parents right to teach their children about sexual orientation and gender identity. It seems very unfair right now. Schools are not allowed to preach Christianity, however you were trying to make it possible to teach things that go against the Bible. Why does one side "get their way" And it's deemed acceptable but the other side is deemed intolerant.

Making this change is not in the best interest of ALL Americans..... but only the small percent of the population that is LGBTQ.

I feel this is a topic that should be left up to individual families to discuss at home and has no business being taught in the school system.

Thank you,

Mrs. Tina Gronewald

Parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

As a physician, I am truly perplexed by this proposed change, which seems blatantly anti-science. Ask yourself this question: would you want your own daughter to be competing against a biological boy who "identifies" as a girl? Even if the boy was given artificial hormones to affect his physiology, he would still have the baseline body structure of a male child. And what level of hormones would subsequently be "required" in order to ensure "fairness" in girls sports? This would open a can of worms, and few people have thought through the consequences.

Thank you,

Dr. Jason Kippenbrock

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

For an administration that says that they are so pro-feminism and women's rights, doing things like forcing girls to share locker rooms, bathrooms and sports with boys and men makes no sense at all. It seems to be anti-women. We need to be protecting these girls rights just as much as the administration is fighting for others rights. Please consider the fall-out that could come from these actions. Do we really want our girls to fear going to public places, or feel that uncomfortable. It seems that it leans on the side of neglect and abuse.
not giving rights to others. It has the idea of taking away one person’s right and protection to accommodate others’ preferences. Please reconsider these policies you are trying to pass. Protect our girls!

Thank you,

Mrs. Kathryn Bodtke

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Tyler Bourgeois

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Laura Beasley

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Melissa Henry

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

It is the most absurd thing to allow boys to use the same locker room as girls. This is pure stupidity. Girls who are biologically girls should not be forced to share a locker room with a boy. Where is there say in this matter? This Department must not violate the privacy of girls.

Biological boys have an advantage over girls in strength and endurance. Allowing biological boys to participate in girls sports will not give the girls the opportunity to compete. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Audrey Platt

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Pamela Smith

(b)(6)
Dear Acting Director Goldberg,

"Sex" is the immutable biological binary reality (objective truth). Gender is the subjective (preferential) perception of ones identity. When implementing policy and legislation, one must understand the difference. If a person of the male sex prefers to identify as female, so be it. however, If that person wants to be on the girls track team he has an unfair advantage that is rooted in his immutable biology. This is inequality! We should create a level playing field (equality) and give people liberty to pursue happiness. To give someone the liberty to pursue happiness with out equality is unjust!. Let me give another example to see if you agree or not? Imagine a white person identified as a black person for the purpose to take advantage of Affirmative action to get a job he was not qualified for. Would this be morally right or wrong? My point is that we should only legislate objective truths not subjective preferences.

Let's stop confusing kids with this nonsense. Half the adults I know don't understand the difference between objective truth and subjective truth, and you want to confuse kids with this?

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

-
Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The purpose of the Title IX Amendments were to honor girls and give them equal access to athletics and educational opportunities. Allowing boys who believe they are girls to compete against girls actually takes away the opportunities for girls to compete in fair competition. The science is clear that biological males consistently achieve results 10-20% higher than equally trained females across almost all athletic events. This type of advantage has been called "insane and cheating" by former tennis star and outspoken homosexual supporter Martina Navratilova. It is your job to uphold and defend the rights of all women to enjoy the best of competition, which is fair competition. Please make sure that Title IX reflects and defends the real, biological differences between males and female athletes. With anything less it will be the girls who suffer. This Department must not force girls to forfeit their opportunities to boys.

Please do everything possible to make sure that Title IX is kept so that fair opportunities are available for biological females. Thank you.

Thank you,

Mrs. Jen Miller

Jun 10, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

Dear Office for Civil Rights, in the Department of Education,

I am writing to you about the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

Title IX was clearly written to give educational opportunities to women and girls - and to deny discrimination based on sex. "Sex" refers to being male or female, not to a multiplicity of so-called "genders" or "orientations" - no matter what legal contortions you may use to misconstrue the word.

The Biden Administration is ignoring the definitions, purpose, and scope of this law, redefining language and laws for its own agenda.

This agenda will destroy girls and women's sports, as males who "identify" as girls or women will be allowed to take opportunities, scholarships and medals from biological females. Despite what gender ideologues repeatedly state, "trans girls" are not real girls. Surgery, hormones and drugs cannot change a male into a female - and vice versa.

Redefining sex in education rules and regulations will also leave girls and women open to violations of privacy and safety. No one is arguing that transgender-identified people will attack girls and women in restrooms, showers and locker rooms - though that has happened. The real threat is that other disturbed boys and men will use these regulations to assault and leer at girls and women.

The redefinition of sex - being male or female - promotes a false ideology that says a girl can change into a boy, a boy into a girl, and that there are a myriad - a veritable infinitude - of
"genders." Such propaganda is not rooted in science or reality. Children across the nation should not be taught such lies.

Lastly, the redefinition of sex threatens parental rights to guard and guide the education of their children. Across the country, schools have colluded against parents to promote this gender dogma. School administrators, teachers and staff have withheld information from parents about their children's gender confusion. This is a clear violation of parents' rights in education and not in the best interest of children, the standard in U.S. law and policy.

I urge you to REJECT this gender and sexual ideology that confuses and sexualizes children. It is wrong.

Thank you,

Jeff Johnston

(b)(6)

Thank you,

Mr. Jeff Johnston

(b)(6)
Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Thank you,

Mrs. Imelda Imelda Garza

(b)(6)
Jun 10, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were intended to insure educational opportunities for women and girls. The Biden Administration and the Department have ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and at the same time infringe on the rights of parents, and take opportunities away from women and girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys - just as it prevented from taking privacy away from girls when the Obama administration tried to force girls to share locker rooms with biological boys.

Finally parental rights - including rights of parents to teach their children about sex - must be respected. Implementing policies that deny the fundamental differences between males and females is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dr. Bernadette Flynn

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Melvin Wingrove

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Maria Lucero

Jun 10, 2021

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Abigail Desiga

(b)(6)
Dear Acting Director Goldberg,

I am writing to give you my input for the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

I understand that The Title IX Amendments were clearly designed to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls. As a mother of a daughter and a son, I am absolutely appalled by the choices that Biden and Obama have and continue to make. They care more about appeasing the LGBTQ side than they do about all the girls and young ladies in this country.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. I am disgusted at what is being taught right now in public schools. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. J Verissimo
Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Carmen Galindo

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

I am sympathetic to the desire to exercise compassion and respect toward students who may experience gender dysphoria or identify as transgender. At the same time, I am concerned that broad-ranging, top-down efforts to force a certain style of addressing this complex, sensitive issue will undermine hard-fought advances in justice and equality for women and girls.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide. Given the sensitivity and novelty of the issues at hand, such matters ought to be addressed at the most local level possible.
Thank you,

Mr. Kyle Ratuiste

(b)(6)
Jun 10, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

Regarding so-called gender identity: The gender of a living organism is determined and expressed solely by the manner in which it is organized for reproduction. In mammals, it is the chromosomes which control the formation and function of the genitalia. Therefore, our (human) chromosomes determine our gender. Any thought or feeling to the contrary is irrational and flies in the face of reality.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration's and the Department's interpretation of the definitions, purpose, and scope of the Amendments have thus far shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls. Worse still, they ignore the reality of binary human gender.

The Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Regarding sexual orientation: The government has no authority to teach children about it. It is strictly the role and right of parents to teach their children about sex. This includes sexual orientation.

In summary, reality and proper responsibility must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing these ideologies nationwide.
Thank you,

Mr. Paul Galli

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dr. Steven Braatz

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dr. Brian Birmingham

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law in order to pander to small, intolerant and violent fringe groups.

There is no rational reason or existing need to change the existing law!

It is time that this Administration and Department acknowledge the rights of parents to teach their children what they will regarding sex, identity and gender. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department MUST reject this effort to radicalize public schools!!

If not, the Department will continue to see a decline in the public school rolls.

Thank you,

Mr. Matthew Kavanaugh

Mrs. Irena Piastowski-Cook
Jun 10, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

The Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

Educate: To bring up, as a child; to instruct; to inform and enlighten the understanding; to instill into the mind principles of arts, science, morals, religion and behavior. To educate children well is one of the most important duties of parents and guardians. Reference: American Dictionary of the English Language, Noah Webster 1828.

Gender: to beget, or to be born; offspring; from the same root. A sex, male or female. In grammar, a difference in words to express distinction of sex; usually a difference of termination in nouns, adjectives and participles, to express the distinction of male and female. Reference: American Dictionary of the English Language, Noah Webster 1828.

The Title IX Amendments were crafted to give educational opportunities to females. Yall are ignoring the definitions, purpose, and scope of the Title IX. The Department’s actions are trying to force falsified science, redefine this law and remove safety provided for the female sex in schools.

The previous Democratic administration tried withholding Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it.

Females are being forced to compete against biological males in sporting events that are designed for the biological differences (i.e. military standards for PT, men have stronger chest and arm muscles, therefore are required to perform more pushups and pullups).

As a parent and a "baby boomer" teaching children begins at home. Pushing falsified science teaching is not acceptable! The Department must reject falsified gender ideologies nationwide.
Thank you,

Mrs. Dawn Gaston

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dr. Christopher DeCock

Acting Director Goldberg

Dear Acting Director Goldberg,

These comments are in response to the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

Honestly, I cannot believe these changes are even being considered. I work with women in crisis and the vast majority of these women have been victims of sexual assault. Allowing men access to the personal spaces of girls and women is detrimental to the mental health of those who have been abused, and provides more opportunities for sexual predators to victimize women and girls who, by your edicts, will be placed in situations that make them more vulnerable to assault. Have you considered their rights at all?

Also, I am firmly against changes to the law that would deny females opportunities that the current law was written to provide and protect.

Lastly, but most importantly, to deny the biological differences between male and female is antithetical to science. The Department of Education should be developing policies based on facts and science, not emotions and lies. The DOE should cease this attempt to undermine parental and local authorities by forcing this radical gender ideology upon us.

Thank you,

Mrs. Theresa Spenney

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Janet Carter

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Kenneth Wacker

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

This Department must not violate the privacy of girls or prevent them from healthy development and success in society.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

In addition, parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government.

Finally, as a doctor I utilize research based on male and female gender to quickly and accurately provide healthcare to ALL individuals. These laws create confusion and restrictions that could decrease efficiency and quality healthcare for individuals with gender confusion if treatments and true gender are not accurately reported to healthcare providers. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dr. Carla Ericksen

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Jennifer Pagano
Jun 10, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Jun 10, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly created to give educational opportunities to women and girls. The Biden Administration and the Department have side-stepped the definitions, purpose, and scope of this law. The Administration's and the Department's actions are trying to redefine the law and greatly endanger the privacy and protection of young girls and women.

When the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys a nationwide injunction stopped it. This Department must not violate the privacy and protection of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

The right for parents to teach their own children about sex must be preserved and respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Sharon Smith

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dr. Steven White

Jun 10, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions have had the unintended effects of violating privacy of girls and women. Including biological males, at best, intensifies competition and increases the risk of athletic injury for women and girls. A women's locker room is a safe space for those who have been sexually harassed or assaulted. Please consider these women and girls, their needs for privacy and protection.

When the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys, a nationwide injunction was issued against the order. Parents are mobilized by these intensely personal issues which distract from the real work of the Department during a period of academic and social recovery for students following COVID shutdown.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department does not exist to force girls to forfeit their opportunities to boys.

Finally, I urge you to respect the rights of parents to teach their children about sex. Such policies are best considered at the local level to allow parental input and oversight. Implementing radical gender ideologies in schools nationwide is a violation of the Constitution which will lead to anger and legal battles. The Department would be wise to avoid implementing radical gender ideologies nationwide.
Thank you,

Dr. Bridget Hannahan

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Luis Fernandez

Jun 10, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dr. Stephen Vogel

Thank you,

Dr. Robert Domaleski
Dear Acting Director Goldberg,

I am speaking as a grandparent and a registered nurse. I thoroughly disagree and disapprove of "gender identity and gender orientation" being taught in schools. Years ago when I taught sex education we were sensitive to girls and boys needing to be taught sex education in separate rooms and preferable men teaching the boys and I taught the girls. That way there could be open discussion about such a sensitive issue as sex. I cannot imagine even teaching such a class that the Biden administration and the activists are trying to ram down our children's throats. What should be taught is that all children are equal and are to be respected for the person that they are at the present moment, just as all adults should be respected and treated equally. Children are getting an onslaught of information on sexual dysphoria online they don't need to be taught these complicated issues in school. We are seeing an increase of suicidal behavior in young teenagers because they are given information that is way beyond their years and their minds can't process this which results in confusion and vulnerably falling into "gender dysphoria". Many adults are pushing this issue which is causing damage to these young minds. My (NAME) has been in this "gender dysphoria" mindset for two years. He learned all this information on social media. Heaven forbid he be taught this damaging information in school. He is (LOCATION) and so confused. My daughter put him in (LOCATION) with a counselor "sensitive" to issues like this. Problem is, her job is on the line if she tells him the truth that boys are boys and girls are girls. I am familiar with the rare cases of a baby being born with both male and female genitalia. That is a medical problem. "Gender Dysphoria" is a mental problem that has been created by this "WOKE" generation who think they know it all and they know what's right for our children and grandchildren. Well they better go back to the drawing board because they don't have a clue what is good or bad, good or evil.

Yes, we need to be sensitive to others differences and sensitivity training for staff and children would go a lot farther then jamming up these kids heads with this cruel form of "sex" education. If a transgender person does not feel comfortable in a bathroom with multiple stalls, then have a bathroom made for a single occupant with a lock on the door. We have handicapped restrooms, why can't we have
single restrooms for a boy and or a girls in all buildings used by the public. It is a very simple fix apparently too complicated for the Biden Administration and these WOKE educators.

As for teen boys playing on girls teams and sharing locker rooms is so beyond unfair and just wrong. I agree with the following:

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

A BOY IS A BOY AND A GIRL IS A GIRL. I WILL NOT LIE TO SOMEONE OR TAKE PART IN THEIR DELUSION. STOP THIS FOOLISHNESS. STOP NORMALIZING GENDER Dysphoria AND INDOCTRINATING ACCEPTANCE OF CULTURAL DEGRADATION. SCHOOL SHOULD TEACH CHILDREN HOW TO BE A PRODUCTIVE MEMBER OF SOCIETY, NOT GROOM THEM FOR SEXUAL PERVERSION. PROTECT THEIR INNOCENCE. COMMON SENSE.

Thank you,

.
Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. I competed in track and field during high school and college, so I understand that most boys are always going to be faster than me no matter how hard I train. Boys will always be faster due to their biological build. I would have been devastated if all of my hard work had been for nothing and I lost my place on the podium due to circumstances out of my control. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. I have an 18 year old daughter and an 18 year old son I will be the person to talk to my children about sex and give them age appropriate information.

Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.
Thank you,

Mrs. Taunja Warga

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

It was wrong when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. It's wrong now.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Most parents and children do not want the extreme changes being proposed.

Thank you,
Amy

Thank you,

Mrs. Amy Haywood

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dr. Sonia Miles

Jun 9, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

I am the first person in my family to earn the title of doctor. I am a female medical doctor. Did you know that there are studies that show that female physicians are more often introduced by their first name in the conference setting than male doctors? Did you know that I have been asked if I am a nurse countless times even when I am wearing my white coat? I have worked so hard for my title, and I deserve to be called by it. This is a micro-error, but there are plenty of macro-errors out there that Title IX was instituted to combat for the protection of women. Title IX as it was written was intended to protect women like me from discrimination in the workplace and in school.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. It is inappropriate to ignore the definitions, purpose, and scope of this law. The Biden Administration and the Department have rushed to redefine the law when it’s sole purpose was to protect women in the workplace so that they would not be discriminated against. If you add words to include all gender identities then you are introducing room for genetically male students to participate in female sports leagues, use girls locker rooms and restrooms, and you hinder the good that has been done for women in the workplace by favoring the rights of genetic males once again.

I have worked hard for my title as a female physician and for a male to come along and say, "I am female, and I am a female physician" is like a slap in the face for all the work I did, and the discrimination I have had to overcome along my education journey.

Today, girls are being forced to give up their rightful places on podiums at sports events because genetically male athletes are allowed to compete with them. And when these girls speak up, they are "cancelled." Sports scholarships provide many girls across...
the country with opportunities for college education and it is wrong to allow male athletes who are genetically stronger and faster to compete in the same league.

I am also a mother to two girls. I, as a mother, should retain the right to teach my own children about sex, sexual orientation, and transgenderism. Teaching radical gender theories and ideologies to kids is not the role of the federal government. I believe that telling girls that there is nothing special about being a girl, that boys can just become girls if they wish to will be incredibly damaging to our nations females over time.

Thank you,

Dr. Mary Irving

Mr. Jerome Taubel

(b)(6)
I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Anthony Kerosky

(b)(6)
Jun 9, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. With a woman vice president, I expected that the Biden administration would respect and honor the rights, safety, and integrity of women. Making girls compete against biological males is in direct violation to this goal.

Every person is born biologically male or female. That is a scientific fact. Please honor it.

Thank you,

Ms. Colleen Roller

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Erin LUNA

Acting Director Goldberg

Dear Acting Director Goldberg,

I bet when you were a little child, you knew there was a difference between Mommy and Daddy and boys and girls. Many people still recognize this, but somehow many others of have forgotten it. Anyway, it remains a fact that there are two genders, and there in no point in blurring the lines so confused people feel better. To try to change us into "It's" instead of "he" and "she" is downright disrespectful to everyone.

Anyone who does the slightest research will find that male and female bodies are not created equal, and for a boy to grow long hair and put on the girls team's uniform does not level the playing field. It took a long time for girls to even have sports; don't mess it up now by ignoring the definitions and purpose of Title IX.

I will assume the best and believe that the Biden Administration and the U.S. Department of Education are tinkering with Title IX in an effort to let LGBTQ persons not feel left out of the game. I appreciate the concerns for equality as an admirable value. But disabling equality to girls and women athletes in the process certainly cannot be considered a success. Letting biological males into women's spaces isn't even safe!

I strongly oppose any changes that would redefine "sex" to include "sexual orientation" and "gender identity."

Thank you,

Ms. Ingrid Winckler

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dr. Margarita Goldar

(b)(6)
Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Samantha Ruiz
Dear Acting Director Goldberg,

I am a family physician from [Location]. Thankfully my children are grown and out of college. If I had a girl in high school these days, it would be very concerning. My daughter participated in HS sports, and if she had to share a locker room with boys, I think I would have pulled her from the team.

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Thank you,

Mrs. Alisha Lane

(b)(6)
Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department are clearly ignoring the definitions, purpose, and scope of this law. The notion of sexual orientation and gender identity have nothing to do with the intent of Article IX. These notions are personal, not governmental preferences, that an individual may choose. Choices have consequences. If a person chooses to pursue an identity different than their biological gender that carries with it the responsibility to abide by already existing laws and social norms. Accommodation is not proper. Accountability is the requisite answer to decision making. The Administration's and the Department's actions, thus far, show a disregard for accountability and an pursuit of social engineering far beyond the scope of law.

The nation already rejected this type of overreach under the Obama initiatives. There is no majority mandate or overwhelming popular insistence for elevating sexual orientation or gender identity as compelling codified law and practice. In fact the opposite is true. This Department must not violate personal decision making by imposing unwarranted and unnecessary political interpretations forwarding a preference as a protected mandate.

The American government is a servant of the people, it is not its sovereign. There is no point of law or compelling civil interest to encourage, inspire, or demand the citizens of America release their individual rights of choice and personal decision making to the whims of government. The Department of Education maladaptive attempts to redefine human biological constants is an incursion into power, censorship, and indoctrination.

Sexual behavior, orientation and gender identity are highly personal...
decisions. Each must be carefully understood and evaluated by mature, competent adults. Parental rights- including rights of parents to teach their children about sex- must be respected. Implementing sexual orientation and gender ideologies in schools attempts to usurp parental supervision, family norms, and preys upon adolescent vulnerabilities. This is neither the purpose nor function of the Department of Education. It is certainly NOT the role of the federal government. The Department must reject implementing sexual orientation and gender ideologies as a credible method of access to school aged children nationwide.

Thank you,

Mr. Mike Hoyt

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Kaye Northcott

Ms. Catherine Gleason
Acting Director Goldberg

Dear Acting Director Goldberg,

Re: the Dept of Education's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

Title IX Amendments (passed in 1972) gave sport and educational opportunities to young women and girls. The Department of Education is acting as if is ignorant of the definitions, purpose, and scope of this law. The Biden Administration's and the Department's actions reveal their RUSH to REDEFINE this law and invade the privacy and take opportunities away from women and girls.

When President Obama said he would deny Title IX funds to schools that didn't force girls to share showers and locker rooms with boys, a nationwide injunction stopped him. The Dept. of Education should NOT EVEN THINK ABOUT violating the privacy of girls.

Girls can now be forced to give up their places at sports events because biological boys, who call themselves girls, are allowed to compete as girls. The girls who object are silenced when they speak up. The Department of Education must not force girls to forfeit their games to boys.

We parents have rights, which include the right to teach our children about sex. These rights must be respected. Why should the government now be trying to FORCE such RADICAL gender ideologies into schools throughout our country? This should NEVER be the role of any government agency.

Thank you,

Dr. David C Thorrez MD

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. This has functioned the way it was intended. I oppose the Biden Administration's plan to ignore the definitions, purpose, and scope of this law. The Administration and the Department of Education's actions, shown their rush to redefine law and even harm privacy which will steal opportunities from women and girls.

This attempt is similar to the Obama Administration's threat to remove Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, this attempt was thwarted. This Department must not violate the privacy of girls this time either.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dr. Eric Fraser

In my pediatric practice I see kids with increasing anxiety and stress in our school system regularly. They do not need anything else to stress about. ALL children deserve safety and this type of legislation would put ALL children in danger and divide our nation more. The best thing to help our LGBT children is to let them grow and make decisions as an adult, not lock them into a decision at a young age. Did you know what you wanted to be when you grew up when you were 5? Or 15? Some 25 year old still don't know what they want to do, how can we
expect children to make this decision? They need love and health like every other child.

Thank you,

Dr. Bethany Rife

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Dennis M. Weber

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

This Department must not violate the privacy of girls. Do not threaten to take away their funding or try to redesign the differences between boys and girls. Bent on confusing them has been harmful enough already-just check the suicide rates in younger people.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. Why step backward? Is this not showing a prejudice to girls and favoring boys? It is.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide. These are NOT your children and I strongly oppose Government trying to change educational policies centered around redefining what a boy or girl is. They can see what they are and do not need to consider what their "hidden" gender might be through sexual orientation "options" and the propaganda that includes.: especially before High School. They are children-boys and girls! Let them be that and enjoy life without emotional abuse to derail their general health and well-being.

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Sadly, children who are frustrated, anxious, uncertain, or maybe neglected, abused or looking for attention are taught that they are maybe in the wrong body. Even more alarming is the inability for anyone to explore the reason for this common teenage (or younger) angst without being labeled as intolerant.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

The endless combinations and permutations related to self determination of truth, or of truth relevant only to each individual, makes subscribing to said philosophy of relativism inherently untenable for any society.

Thank you,

Dr. Ken Edel

Girls and biological boys should not be competing against one another in the same sports! There is no such thing as "gender equality" when we speak about the physical differences between male and female.

I am opposed to parents not be told about radical gender ideologies that are being taught to their children. It is Not the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Sheila Shaffer

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dr. Roshanak Markley

I know you have read this letter from so many others; but as a parent, grandparent, retired school counselor I know first hand how detrimental this would be for our children. Young women deserve to compete on a LEVEL playing field, to be protected at all times and have these conversations with parents. Faith and family is being attacked and now females rights also. Where are the pink hats now?

Thank you,
Mrs. Maureen McGoldrick

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

Encouraging self- or surgical mutilation in young, inexperienced individuals who have not fully matured in all respects is likely to be disastrous and eventually bitterly regretted. This kind of "transition" should be considered, if ever, by fully informed adults. Forcing the issue in schools, gyms and sports is harmful and morally and ethically misguided.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dr. Brian Burnbaum

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dr. Suzanne Martini

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dr. Rafael Ruiz Enriquez

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Education Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

I strongly oppose any changes in your education policies that redefine "sex" to include "sexual orientation" and "gender identity." The Education Department has no place introducing this radical agenda into every local school district in the country.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration and the Department have rushed to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dr. Jeremy Jones

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

As a practicing pediatrician, I understand the biological differences bestowed on individuals genetically. Genetics (at the time of my writing) cannot be changed. Every cell is affected by a person's DNA.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Including gender ideologies in schools nationwide is NOT the role of the federal government. It is unwise to promote non traditional gender ideologies.

Janie Hamner, MD

Mrs. Kristen Landry
Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Janice Bleich

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

The people who feel like their biological sex does not match who they are need compassion and help to understand why they feel that way. Those closest to them (parents, teachers, their school administrators) can work to find ways to meet their needs individually without trampling on the rights and needs of other students, especially girls and women.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Alaina Booth

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls. There is no reason for these children to be subjected to sex orientation at an early age or share showers n sports with them. Let them be children. Parents should decide when to teach their child about sex, not government.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dr. Mary Nave
Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse - harm privacy and remove opportunities for women and girls. This is a gross injustice against biological females, showing extreme disregard for girls and women.

The preceding Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls or the right of any girl to have a safe, non-threatening environment while at school or while participating in school functions.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. This department should not devalue girls or women.

Finally, the parental right to teach their children about sexual issues should not be supplanted by government. Implementing gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing gender ideologies nationwide that forsake the safety and rights of biological females.

Thank you,

Mrs. Wendy Copeland

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have PURPOSELY ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

Some years ago the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy and SAFETY of girls; that is NOT its place!!

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them--and when they speak up, they are censored. Even some trans people have acknowledged that this is patently unfair!! Why subjugate girls and women to woke culture????

Finally parental RIGHTS- including rights of parents to teach their children about sex- MUST be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The government did not birth nor raise our children!! The Department must REJECT implementing radical gender ideologies nationwide!!

Thank you,

Mrs. Chris Schear

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

This Department must not violate the privacy of girls or the opportunities for fair and just competition in sport teams and individual sporting events. A biological boy should not be allowed to compete as a woman. Lockers should be divided by scientific DNA proof of gender. The rush to embrace non-scientific terms by politicians and educators is harmful to our children.

Please do not censor the rights of those who are what science proves them to be. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Judi Buncher

Thank you,

Mrs. Pamela Villanueva
Dear Acting Director Goldberg,

We are writing to give input for the Department of Education's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. My husband and I STRONGLY OPPOSE ANY CHANGES in education policies that will redefine "sex" to include "sexual orientation" and "gender identity." This will harm privacy and steal opportunities for women and girls.

The proposed policy changes will force girls to share showers, locker rooms, and hotel rooms with boys. The Biden Administration must not violate the privacy and safety of biological girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing these gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing controversial gender ideologies nationwide.

Thank you,

David Ericksen, Ph.D., and Irene Ericksen, M.S.

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Eileen Golden

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

I do strongly oppose this action to change education policies that redefine sex to include sexual orientation and gender identity. Everyone these days says "follow the science" where is that here? Biology and genetics show that we are born either male or female. Those with issues with that are welcome to their opinions, however this is a very small minority and the majority of citizens do not want male/female to cross the lines these new polices would bring. This is negatively effecting so much of womens rights. Please do not allow
these changes. Sherry Reinke

Thank you,

Mrs. sherry reinke

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Lord made male and female (Genesis 1:27). Accordingly, you have no right or justification to attempt to allow males to masquerade as girls. Our girls are worthy of our protection. The incorporation of 'sexual orientation' and "gender identity" into national education policies doesn't protect our girls, it protects deception and perversion.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Cherie Epley

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Miss Victoria Diaz

Jun 9, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I strongly oppose any changes in their education policies that redefine "sex" to include "sexual orientation" and "gender identity." Biden's Education Department has no place attempting to implement this radical agenda into every local school district in the country.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Penny Patras

Acting Director Goldberg

Dear Acting Director Goldberg,

I like to express my concerns regarding the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

Changing this and using "word crafting" to impose radical gender ideologies is the intended purpose of this hearing. It is apparent that girls are being overlooked and forced to give up their rights to participate in sports with their own gender, as it has been for years. It is so ludicrous that biological males are swarming women’s sports and winning and you condone that and write amendments and laws to force this on the people. It is not the federal government’s role to implement disturbing and disordered ideologies as the new norm. Leave us females alone and do not change what we have worked so hard to obtain as our civil rights.

Sincerely,
Linda Bouchard

(b)(6)

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Priscilla Arzola
Jun 9, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Donna Hanson

Jun 9, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am against the passing of the Title IX Educational Amendment of 1972. It is prejudiced against women in allowing boys to compete in girls sports & subjecting them to boys in their locker rooms. What happened to all of the women's rights you are always proposing?

I am a parent and grandparent and my rights are being violated to teach my family about sex. Imposing ideas of gender ideologies is my responsibility, not the job of the schools or federal government. Teaching young children about your idea of gender related subjects, can be confusing to the children and is just wrong!

Please reject this amendment!

Thank you,

Mrs. Kris Heath

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. I do not support this push to redefine law, especially in such a way that harms woman and girls' privacy and ability to compete in sports.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to biological boys. It is wrong.

It is not the role of the government to implement radical ideologies in schools, especially when they could be so harmful to children. It is the parents' role to teach their children about identity, sexual or otherwise. The government should not implement laws that would dishonor this role and potentially violate the conscience of many families in our nation.

Thank you,

Miss Danya Moore

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Janet Drabecki
Jun 9, 2021

Acting Director Goldberg,

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Becky Gray

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

Parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

I am a retired teacher and I suggest the government stays out of our education and allow teachers to teach what needs to be taught so they can succeed in life. We don't need our students taught critical race theory--this is a Marxist attack on America!! We need to teach the 1776 commission instead of teaching them that America was founded on slaves and race. Teach the basics--so our students can compete in the world. We are so far down on the education of our students we should be embarrassed how we stand in the world of educated students. Take away the control of the teachers union and allow us to be free to do what is right for ALL students.

Thank you,

Ms. Delores Williamson

I remember as a child how difficult it was to just enter the locker room with only girls while I worried if I was tall enough, thin enough, and pretty enough. We should not be putting anymore stress on this generation. To now include boys and girls in the same locker room is going to set females back even further. This change will also have a terrible impact on suicide numbers and rape/molestation of women. Please stop this madness.
Thank you,

Mrs. Tonya Paredes

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Robin Snyder

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

Furthermore, I have girls aged to and they all participate in sports activities. They have never had to worry about who was sharing the locker room or bathroom with them or fair sports competition. Now you are forcing young innocent girls who may have not been exposed to dressing in front of the opposite sex to learn about sex orientation before their minds are ready for this understanding. The parents ARE the first to educate and explain sexual orientation and genitalia when they deem fitting based on each child's maturity. Biden's administration will take children's innocence away and force children to be exposed with NO regard to the parent. The parent gave birth to this child and has sole responsibility of educating the child on their own and decides when and how to speak to her about sexual education, genitalia and orientation. That is not the Biden or the governments job! Nor is it fair well knowing that boys and girls are physically not made equally. Boys upper body strength varies greatly from girls giving bouts the advantage of competing with girls. How is this fair, equal and right?

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at
sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Thank you,

Mrs. Gwen Golonka

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

I am adding to the above by making a final statement that you need to not allow lgbtq or any other political special interest groups to destroy my family values or any other thing and ways they wish to influence and teach my kids morals. Mostly this specific act is making it unfair for our kids and making non equal opportunity. But the big picture is if you allow this or things like it you are allowing peoples own personal religious influence over my own children because that is what it has become, a religion of non religious and their oppositions
and influences being forced onto everyone as if they themselves are God.

Thank you,

Mr. Steven Rudnick

(b)(6)
Dear Acting Director Goldberg,

RE: Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX).

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls.

Beyond this, being able to "Identify" one's self as being of another sex has no legal standing and defies all logic.

If I were a criminal, would you allow me to "Identify" myself as a non-criminal?

If I were a factory worker, would you allow me to "Identify" myself as a medical doctor? Or, am attorney?

If I were a monkey, would you allow me to "Identify" myself as a human being?

If I were white, would you allow me to "Identify" myself as black?

IF I WERE UNVACCINATED, WOULD YOU ALLOW ME TO "IDENTIFY MYSELF AS VACCINATED?"

Parental rights- including the rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Please reject any attempt by any Federal agency to impose gender identity, or to change the original intent of Title IX Amendments.

Thank you,
Robert W. Day

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dr. Robert Hoffman

(b)(6)
Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

I STRONGLY OPPOSE ANY CHANGES in the education policies that redefine "sex" to include "sexual orientation" and "gender identity. A girl is born with XX chromosomes and a boy is born with XY chromosomes. These simple scientific and medical facts DO NOT change based on someone's ideology! Support individuals and their unique God given talents without trying to make everyone the same!

Thank you,

Ms. Rebecca Neighbors

(b)(6)

Not to mention this would promote sexual predators at an even earlier age, with probable cause for rape to occur further causing some children to suffer life long debilitating PTSD mental issues all while trying to garner an education which is required by law.

Get a grip and realize what you are doing to this once great country.

Thank you,

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dr. Elizabeth Felder
Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dr. Carol Swartz

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Joan Marshall

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dr. George Kane

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Donna Franco

Jun 9, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. As I understand the changes now being considered, some proposed changes would harm children and remove protections for women and girls by making it more possible for perpetrators to use all-gender bathrooms as opportunities for criminal actions and creating unfair advantages for transgenders in female competition in sports. Perhaps the increase in perpetrating sexual crimes will not increase very much with all-gender bathrooms (we don't know, but every avoidable sex crime should be prevented), the presence of males in bathrooms is likely to increase trauma in girls and women who have been victimized previously.

Even 60 minutes had a recent special highlighting the plight of people who now regret taking medical steps to change their biological gender. This is one area where rights advocates seem to be pushing their agenda far beyond the objective scientific evidence needed to fully understand the costs and benefits of various policies and programs. Many are concerned about the increasing level of depression, anxiety and suicidal behaviors in adolescents, especially girls. There are likely to be several underlying causes of that worrisome trend, but one factor might be the increasing confusion about what it means to grow up as female or male in our sex-saturated society (e.g., in the media, the internet, and social media).

Changes to Title IX should be made cautiously so that we do not inadvertently make the problems faced by young people worse in this country.

Thank you,

Dr. Robert E. Larzelere

Acting Director Goldberg

Dear Acting Director Goldberg,

As a female pediatrician and mother, please listen to my voice as part of the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly IGNORED the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

As someone who's job is to protect babies and children, both at work and in my home, and as someone who once voted democratically, please do NOT change title IX safeguards.

Thank you,

Dr. Robin Pierucci

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Jacqueline Rojas

Acting Director Goldberg

Dear Acting Director Goldberg,

Dear Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. As a long time advocate (and participant) of girls' and women's sports, it's very difficult watching girls lose so much - including confidence and hard-earned advancements.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you!

(b)(6)
Thank you,

Mrs. Lynn Rodden

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

It is my understanding that the Title IX amendment was designed to allow increased opportunities to women and girls. As a female physician, I understand the barriers girls and women face in achieving different goals.

Allowing a biological male to participate in a female sport puts girls and women at a physical disadvantage and undermines the idea behind the Title IX amendment.

Additionally, allowing a biological male to use a female locker room puts the privacy of girls in jeopardy.

As a pediatrician, the thought of someone being forced to teach government sponsored ideas on gender and sex is overstepping the bounds of the government's reach.

Thank you,

Dr. Julie Morgan

Jun 9, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

My letter is regarding the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Administration and the Department must not needlessly throw away the Title IX Amendments, which provide opportunities and equal access to girls. Changing these Amendments as discussed will strip away these opportunities and harm privacy in locker rooms. This cannot happen.

Despite talk of equality, girls are now having to compete against biological boys in sports, which is having the obvious effect of displacing fine female athletes. It's only science. Boys are boys and girls are girls down to the cellular level, and it does not change simply because a person says so. This Department must not force girls to forfeit their opportunities to boys.

Finally, this Administration and this Department must respect parental rights- including rights of parents to teach their children about sex. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Claire Snell

Acting Director Goldberg

Dear Acting Director Goldberg,

Dear Acting Director Goldberg,

Reference: Title IX Public Hearing on Sexual Orientation and Gender Identity

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The definition of sex is determined by XX and XY chromosomes is reality. While there are genetic components to sexual orientation, this is a completely different issue than the male-female distinctions based upon the gross features of the XX vs. XY chromosomes.

Please keep our young girls safe from sharing locker rooms with boys that want to be girls.

Thank you,

Tony Barr

Jun 9, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls of which I am grateful for the opportunities this has given me as a biological female. The Biden Administration and the Department are ignoring the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown a rush to redefine law and, worse- harm privacy and steal opportunities for women and girls. WHY?

This is a very serious matter and needs to be carefully thought through and considered. The domino affect from such a HUGE change should be considered. The logical results appears to completely reverse the opportunities Title IX created. Let's be honest. Human anatomy and physiology is very complicated.

In addition, when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys, thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls or their safety from abuse. Again, this is an extremely difficult situation demanding careful consideration, please.

Sadly, I continue to read about girls losing their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

-
Thank you,

Mrs. Lydia Deem

Dear Acting Director Goldberg,

Good day,

I'm the permissive actions of making some feel comfortable about committing sin in front of God, those that incorporate these laws will have to respond for leading this generation astray. Repent from your sins and come back to your Maker. I complete oppose this new change. But if you do pass let it be know that I will fight this in my house. Me and my house will serve the Lord!

Manuel Elias Garcia

(b)(6)

Thank you,

Mr. Manuel Garcia

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Therese Stokan

Mrs. Maureen McAteer
Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you regarding the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were written and implemented to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because athletes who have the bodies of biological boys are allowed to compete with them. Male and female bodies are genetically different, with male bodies having (on average) a clear strength and physical advantage over female. Girls have separate teams for a reason, and allowing trans students to join girls teams is telling the girls that they don't matter - biologically male competitors are more valued, even when they identify as girls. This is unjust.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Hanna Baker
Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

As a student I enjoyed the opportunity of participating in a number of activities where being in a group with others of the same biological sex matters. In school our class went on a school overnight, sleeping in cabins and spending time outdoors. Going on that overnight, many of the students were apprehensive. If we had been required to sleep in a cabin with students of the opposite sex at that young age, for many of us it would have caused great anxiety and led us begging our parents to be excused from the trip. I also enjoyed running track and cross country in high school. I built some great friendships while training and competing. One of the girls on our team was very fast and at times trained with the boys team for more of a challenge. But we all competed against biological girls. I was not one of the fastest girls, and being forced to compete against biological males would have been demoralizing. One of my close friends in cross country took the wrong turn one race and ran the boys route; it's a 4K for girls and 5k for boys. When the route met back up with the girls route she was no longer leading the girls race. That mistake was extremely frustrating to her. Why should excellent athletes be subjected continuously to a competition they can not win, because they are competing against someone who is a different biological sex, not just someone who has trained and worked harder? That sounds like discrimination!

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

Now as a parent of three little girls I see the issues in another light as well. I am their parent and my husband and I know them best. We
should have the right as parents to decide when and how to teach them, especially about complex and sensitive issues like gender. School, especially early elementary school is not the place to be teaching whatever the "current" cultural ideology on sex and gender. Parents primarily, discussing with their school boards and teachers can best teach children. It is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Sonja Carpiaux
Acting Director Goldberg

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

I am the mother of \textbf{3} sons and \textbf{1} daughter, all of whom competed athletically at the high school level, and 3 of whom competed at the college level. At NO time would my daughter have been able to even stand on a court with my boys much less have been competitive at their sports despite her state-championship level performances in volleyball and tennis. My oldest son was physically superior to me by the time he finished grade 7, and could have crushed any biological female in the state in any sport at the high school level even at that age. How does this serve actual girls, as Title IX is intended to do, by disqualifying them before they can even get on the athletic field?

The Title IX Amendments were clearly crafted to GIVE and protect educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced from their places on podiums at sports events because biological boys are allowed to compete with them. When they and their parents speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal
government. I actually believe the federal government has NO place at all making decisions that are specifically and clearly reserved for the State and/or Local level regarding parental rights, education, family planning, or any other Constitutionally protected issues. The Department must reject implementing radical gender ideologies nationwide.

Thank you.

Elizabeth Gottfried

(b)(6)

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. June Burnett
Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Sarah Grunder
Acting Director Goldberg

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to allow the same type of educational opportunities for women and girls that males have. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse-harm privacy and steal opportunities for women and girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Biological sex is not something that should be debated. Save a few sex anomalies at birth, everyone is born with a certain God given gender, and that gender should be respected with the sacred rights that come with it. No one sex is better, but they each have equally important attributes that are specific to that gender. If one does not identify with his or her biological gender, then that is a psychological issue that should be dealt with as any other mental problem, as that is what it is, and should not be treated as normal because it isn't. We should not be entertaining the idea that people can deem what sex they want to be any more than we should entertain the idea that people think they are a god and can kill people at will. They are both crazy notions, but we have somehow deemed one not so crazy, thus opening a can of worms that people are taking advantage of, as that is what people often do when give the opportunity. We need to get back to basic moral principles and honor the gender people are born with, not what they think they are nor what they, through ridiculous surgeries, try to make themselves into. We need to call these latter ideas what they are: WRONG!
Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide. There should not be any ideologies, only what things truly are: male or female biologically, and stop trying to rationalize anything else.

Thank you,

Mrs. Heather Stewart

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Lisa Murray

Mrs. Cat Ingram
Jun 8, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls. I'm shocked to think that our lawmakers would want their children and grandchildren sharing showers with children of the opposite sex. What has happened to our country? The country that I once loved so much.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. This is so unfair. Think about how you would feel if you were in this circumstance. Do you think this is fair for your children, grandchildren when they are in sports?

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide. The government has NO RIGHT to teach their views on sex to our children and grandchildren. That is the parent's responsibility.
Thank you,

Ms. Anita McMahan

Jun 11, 2021

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. Allowing biological or transgender males to participate in girls' sports effectively robs girls of any chance to compete fairly and discriminates against biological females.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Lynn Staszak
Good Afternoon,

Nicole Hudgens
June 11, 2021

Written Comment: Title IX Public Hearing
Relating to the Redefinition of “Sex” in Title IX K-12 Policies

To the U.S. Department of Education:

Family Policy Alliance is a leading national organization representing hundreds of thousands of Americans who support protecting opportunities and privacy for women and girls.

We are writing to voice our concerns about potential changes to Title IX, specifically the potential redefinition of “sex” in K-12 policies.

As a matter of first importance, Title IX is NOT the same as Title VII. The U.S. Supreme Court explicitly stated they excluded other laws from consideration in the Bostock decision.¹

Second, Title IX was clearly intended to ensure females have equal access to educational opportunities with males.

Prior to 1972, there were virtually no college scholarships available for women to play sports. Women were fortunate if they even had a sports team at their schools. They often had no locker rooms, low-quality uniforms, old training equipment, no travel stipends, absurd practice schedules, and no championship opportunities. It’s no surprise that only 1 in every 27 girls played sports.

Today, over 100,000 women play college sports and about 3 million play high school sports.² These opportunities are in large part due to Title IX. But women and girls still face challenges in this arena. In fact, during this year’s “March Madness,” Americans were appalled when they found out female athletes were given inadequate workout rooms and hardly any media attention.³

The NCAA publicly apologized for “dropping the ball” after denying women reasonable access to proper equipment and facilities.³

---

¹ Bostock v. Clayton County, 140 S. Ct. 1731, 207 L. Ed. 2d 218 (2020)
If the Department of Education redefines Title IX, they won’t just “drop the ball” on equipment and opportunities for women and girls, they will kick them off of their podiums and out of the gym entirely.³

Every girl should have the chance to compete on a level playing field. In today’s world, that means one that is reserved just for girls. Males naturally possess physical advantages over females. This natural advantage can result in them winning titles, scholarships, and other opportunities that should be reserved for girls.

The Department of Education has a responsibility to protect women and girls, not steal their dreams.

Third, redefining sex will run counter to the explicit text of Title IX regarding single-sex facilities.

Title IX itself explicitly allows educational institutions to maintain “separate living facilities for the different sexes,” indicating binary, biological sex.⁴ Of course this makes sense in the context of private spaces like locker rooms and showers.

No student should be forced into an intimate setting like a restroom or locker room with someone of the opposite sex. The Department of Education should not get to determine the first time a student is exposed to a member of the opposite sex while in a state of undress.

In conclusion, we urge the Department to:

- Adhere to the original legislative intent of “sex” in Title IX.
- Ensure sports and opportunities for females will not be stolen by males.
- Protect the privacy and dignity of women and girls in intimate facilities.

Sincerely,

Nicole Hudgens
Government Affairs
Family Policy Alliance

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Patricia Van Tassel-Cromie
