Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide. Please respect children and families rights.

Thank you,

Mrs. Paige Whaley

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Michael McClane

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

If you are going to force this issue, please mandate school vouchers so we parents who don't agree with this change have an option to schools that agree with our outlook.

Thank you,

Ms. Leslie C. Miller

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Lorinda Christianson

We have boys and we have girls. What they were born with is how they should be separated for showers, restrooms, hotels...please be realistic...are you going to share your bathroom with the opposite sex, are you going to have the opposite sex in the gym shower with you.

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Connie Dinardi

On a personal note: I've watched this eroding of American moral values over the past 40 years and I'm astounded at how far we've sunk into this putrid line of thinking. Please show at least a glimmer of integrity (and sane thinking!) and reject this effort to drag us down even lower!!

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

I strongly oppose "teaching" sexual orientation and gender identity in the public schools. Schools are there to teach reading, writing, math, problem solving and science, not gender identity and sexual orientation. Our children should learn these matters at home. Children, especially in elementary school, are not mature enough to "decide" their gender or sexual orientation. Let our children be children and grow up without this "teaching".

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

As a mother of two grown daughters and an infant granddaughter, I implore you to protect my granddaughter's health, safety, and rights as a female. I am a retired school teacher, and I am asking you to protect the girls by taking appropriate action today.

Thank you for your time and thoughtful consideration,

Thank you,

Mrs. Cindy Sanders

I STRONGLY OPPOSE ANY CHANGES in their education policies that redefine "sex" to include "sexual orientation" and "gender identity." Biden's Education Department has no place attempting to implement this radical agenda into every local school district in the country.

Picture this happening to the schools that your daughter, granddaughter, and nieces attend. How does it feel now!

Our country has made great strides to ensure girls and women have opportunities in education and sports. Changing the law in the ways proposed only serves to reverse the progress that has been made and bring irreparable damage to girls' and women's opportunities.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Dan Lieberum

Dear Acting Director Goldberg,

Schools should teach reading, phonics, English grammar, arithmetic and higher mathematics, the true history of the United States and world history, civics, business courses and trades, generally accepted science, foreign languages, the arts, physical education and generally accepted health and nutrition practices. These types of courses will benefit society at large.

Sexual and personal behaviors are the right of only the parents to teach. Freedom of Religion demands that these subjects be taught in the home according to the family’s religious beliefs and practices, not the secular schools’. Having healthy families will also benefit society at large and it is not up to the state to usurp the role of parents.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Charles Van Der Kooi

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

I strongly oppose any changes to Title IX

Julie Prine

Thank you,

Mrs. Julie Prine

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Acting Director Goldberg

Dear Acting Director Goldberg,

To Whom It May,
I am writing to you regarding the relationship between parents, teachers, School Board members, Superintendents AND Biden’s attack on Title IX as they do or do NOT relate to Parents, their Children and the Taxpayers. Somewhere along the way all types of roles have been reversed, misconstrued, mistaken or mismanaged.

In America’s past, things having to do with Education (and I stress Education) of American Children fell, in a large part, to Teachers and the Superintendents etc. Education was what prepared Children to have a successful future and education contained all kinds of great subjects like Math, Science, Engineering, Chemistry, Accounting, Physics, Algebra, Reading, Writing, REAL American and World History, Geography, some Social SCIENCES (and I stress Science since it is based on fact not fantasy), The English Language with (in K-12) one other language and some arts and sports.

Along the ways somewhere teaching "MORALS", "social skills", "SEX education" and all that entails overcame all the above and the roles of Educator and Parent have reversed. Now parents and taxpayers alike just pay the bills and hope that when the American Children leave the K-12 system they will emerge smart and capable and love this great Nation. This Great Nation where everyone wants to live free or we wouldn’t have the Border Problem. People would be desirous of living in Venezuela or China or Cuba instead of The USA.

Now the Children are taught what the parents historically told them and showed them which is morals and kindnesses and sexual education AND GENDER ID by people ill-equipped to do so. Why teach morals and try to make the world a nicer place and a place where people have a chance to survive and thrive when you are teaching HATRED and confusion?

I am an American Taxpayer. I want the Academic Scores of our American Children to skyrocket and their success to know no bounds. I am terribly distressed over your wasting time and huge amounts of taxpayer dollars trying to manipulate children again and again.
PLEASE remember to help THIS Nation regain a Scholastic level of achievement that she knew in her history. American scholastic achievement has dropped like a rock compared to levels Internationally. Don't let the American Children be unable to compete Internationally while you fret about YOUR gender and bathroom confusion issues for LESS THAN 1% percent of the US population.

Thank you for your time.
Sincerely,
Viva Goorian

Thank you,

Mrs. Viva Goorian

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

It's very clear that the Title IX Amendments were crafted to give educational opportunities to women and girls. The Biden Administration and the Department have blatantly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, far, far worse, to harm privacy and steal opportunities for women and girls.

Back when the Obama Administration threatened Title IX funding if schools didn't FORCE girls to share showers, locker rooms, and hotels with boys, (How utterly wrong that was) I was thankful for a nationwide injunction stopping it. This Department must not violate the privacy of girls.

You well know that, today, girls are being FORCED to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not put girls in such an untenable situation as to forfeit their hard-earned dreams and opportunities to boys.

Finally, my parental rights, including MY RIGHT to teach my children about sex, must not be stepped upon!! This push to implement radical gender ideologies in schools nationwide IS NOT the role of the federal government! The Department must reject implementing radical gender ideologies nationwide.

Thank you,

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Ms. Karin Dahlin

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

I am a dad of 2 girls and 2 boys. One of my boys identifies as gay. Yet, he knows he's a boy, a man now. If we had given him the option to "be a girl" when he was 5-10 years old, I'm confident he would have chosen that option. However, time and maturity have allowed him to know that his sex at birth, ie his gender is male today, just like it was when the OB told us we had another boy 25 years ago. Biology matters and it is very unwise for us to pretend it doesn't.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls and has done that quite successfully for several decades now. The Administration's and the Department's actions, thus far, have shown their rush to ignore biology, redefine law and, worse- harm privacy and steal opportunities for women and girls.

For an administration that seems so intent on elevating the role of science ... evidences by actions taken their first week in office (Scientific American, 1/28/21), regarding climate change, appointments, etc. They seem quite inconsistent with these policies related to gender identity. If we are going to rely on science, then let's do it. We don't get to pick and choose what science we like and the science we don't because it's politically expedient. It's ok to be for climate change and against the idea that gender is a social construct. Please know I'm not minimizing the the struggle many children and teens, like my son, are facing.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. There are LGBTQ voices that are acknowledging biological males competing in women's sports is unfair. For example, Caitlyn Jenner and Martina Navratilova ... both of whom are being disrespected by not
allowing their views to be seen and heard, about a perspective that doesn't fit the current mood.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you for allowing me to comment.

Dear Acting Director Goldberg,

Honestly, how dare any educator even consider making changes that amount to the indoctrination and systematic abuse of all of America's children except the ones whose parents can afford to exempt them through private education? There are no words strong enough for the utter condemnation these cruel abuses in the name of "policy" deserved. And parents who care about their children will have to respond with more than words. What these ideologues are proposing in the name of inclusion is criminal.

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

Remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it - and we can't let this push stopped also. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide. Children belong to families, not the government. Stay in your lane, DOE.

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you regarding your department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

Title IX was written and implemented to improve educational opportunities for women and girls. The Biden Administration and the Department of Education are attempting to undermine the purposes of this law by redefining its terms. This redefinition would result in taking away opportunities for women and girls.

I began Kindergarten in the Los Angeles Unified School District in 1979 and graduated from Westchester High School in 1992. I enjoyed the benefits of Title IX. I had ample opportunities to play sports and never felt that I was treated unfairly. I competed with other girls and shared a camaraderie with my teammates that I still treasure today. The implementation of the Biden Administration's redefinitions of Title IX would reverse the benefits that I enjoyed. I now have three daughters ages 9-14, and hope that they will have the opportunities that I had. However, the implementation of the Biden Administration's proposals would take those opportunities away.

In 2016, I was stunned when the Obama Administration wrote guidance threatening to remove Title IX funding if schools did not redefine "sex" to include "gender identity" when granting boys access to girls' restrooms, locker rooms, hotel rooms, and showers. This guidance opened the door to predators, and thankfully a nationwide injunction stopped the enforcement of this guidance.

Now boys are being allowed to compete in girls' sports, and the Biden Administration and Department of Education are seeking to take away the opportunities protected by the original Title IX Amendments of 1972. The Department must do the right thing and continue to protect the opportunities of girls to compete in sports without censoring them or...
shaming them for speaking out against the unfairness of the Biden Administration's proposals.

In conclusion, the rights of parents must be respected when it comes to teaching their children about sex. The federal government is attempting to undermine parents' rights by implementing the teaching of radical gender ideologies to children in public schools. This is not the federal government's role. It is vital that the Department reject the teaching of radical gender ideologies to children in public schools.

Thank you,

Mrs. Kay Yang-Stayner

How would you like a man going into the women's dressing room while your wife or daughter are in there. Not a safe way to protect them. People lie and pretend to be something else to do wrong and commit crimes. Female for females and male for males, the way they were born.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Dear Acting Director Goldberg,

I can add no new arguments against allowing trans boys (or girls) be treated exactly as their biological counterparts. I vehemently oppose what is being suggested by the current administration. Their suggestion doesn't even pass a common sense standard. Please keep Title IX as is!

Thank you,

Mr. Darrell Beernink

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

STRONGLY OPPOSE ANY CHANGES in education policies that redefine "sex" to include "sexual orientation" and "gender identity." Biden's Education Department has no place attempting to implement this radical agenda into every local school district in the country.

Thank you,

Mrs. Tausha Mace
Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

This amendment was supposed to give women a fair opportunity in education and sports. Allowing biological males to be treated as females flies in the face of this hope. I strongly oppose changes that would allow any transgender male to be given place in a female designed sport or educational opportunity. Young women are losing the chance for scholarships and rewards while being in an unfair competition.

The privacy of girls in showers, locker rooms and hotels must also be preserved. Our young women need to be protected from any hint of harassment.

Parents rights are also being infringed on by not having the right to teach their own children about sex. The government pushing its agenda through the schools is not wanted or appropriate.

Thank you,

Ms. Joy Dilg

Dear Acting Director Goldberg,

Please do not make any changes to Title IX.
Please do not force girls and boys to use the same bathrooms, locker rooms and showers.
Please do not let the Federal Government take away the parent's right to teach their own children about sex. Most parents do not want their children to be taught the far left, radical ideology of the sexual revolutionists.
Thank you.

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Miss Diana Jenkins

As tax payer, parents, and registered voters in California, these are policies that my husband and I find horrific! Shame on you!! What is the purpose of education? Where is the motivation to discipline oneself to be the best as an athlete if the opposition / competition is not physically on par with other same-gendered-by-birth children? (What are we becoming that such a definitive statement needs to be made?) How do shared showers, school facilities, and hotel rooms protect and facilitate healthy, respectful and responsible adults? We
believe Education is about discipline and self-mastery to improve one’s future. Those who are serving the public in office, introducing & overseeing legislation, seem to believe that promiscuity, sex-crazed, self-absorbed, entitled, and small-minded individuals will improve the prospects of the next generations! That is nothing short of a lie from the pit of hell! It is not the proper course for our children, their future, and not least of all, the use of tax payer funds! The radical gender ideologies MUST NOT BE IMPLEMENTED!

Thank you,

Mrs. Christina Martinez

Dear Acting Director Goldberg,

I know the message below is one you are receiving from many people as a boiler plate concern. However, I strongly agree with everything they have so succinctly stated. Most of my grandchildren are in elementary school and I certainly don't want them (boys or girls) hearing about gender identify from their school. That is definitely something their parents need to address at the appropriate time. I also have one granddaughter in junior high who is very active in sports. I believe it is totally inappropriate for her to be forced to share a locker room with boys or having to play against them on her teams. Boys are physically different from girls and are naturally better at many sports. It would be an unfair competition. Thank you for considering out comments.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Dear Acting Director Goldberg,

I am opposed to the Title IX bill. This policy would be totally hypocritical of all the work women and men have done to give women equality in the community, workplace, and sports. It is totally fine if someone wants to identify as a different gender but when it comes to sports, they should only be required to compete against others of their biological gender or forgo sports altogether. In non-competitive sports, I feel like the option should be more open to all.

As far as restrooms and locker rooms go, it should be based on biology and not what you identify as.

Dear Acting Director Goldberg,

I am writing concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)." Thank you for reading our comments.

Years ago, the Title IX Amendments were clearly crafted to give educational opportunities to women and girls. This happened while I was still at school and I appreciated the chance it gave us. This Administration has clearly ignored the definitions, purpose, and scope of this law. Your actions, thus far, harm our privacy and take away the gains that females had made in sports. Biology is biology! Follow the science.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. Besides, it seems to me that this should be a matter for the local elected school boards, not a national push.

Also, our parental rights- including rights to teach our children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government- which was formed for the purpose of national security. Please reject implementing these gender ideologies nationwide.

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Laurel Bryant

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department is ignoring the definitions, purpose, and scope of this law. In so doing, the Administration and the Department will not only undo the progress made to date by limiting competitive sports opportunities for women and girls, they will also put women and girls in the way of harm by eliminating their right to privacy in spaces where they are particularly vulnerable.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. I wholeheartedly support treating all individuals with respect, dignity, and compassion; however, what is being proposed places women and girls in situations where their unalterable genetic make-up puts them at a disadvantage when competing with biological males. This position is based solely upon scientific facts and should not be ignored. The result of this is that women and girls are losing the very opportunities that Title IX meant to provide.

An even more egregious effect of the proposed changes to Title IX is the loss of privacy for women and girls. Consider the female child or adult who has suffered sexual abuse and is required to share a bathroom or locker room with a biological male - the situation will not only increase their mental suffering, it will diminish their sense of security and personal safety. Indeed, the proposed changes could put them at risk of further abuse at the hands of those who would utilize changes to the provisions to gain access to bathrooms and locker rooms with ill intent in mind. If the desire is to accommodate all individuals, the Administration and the Department should identify alternatives which afford privacy for everyone, not just a particular group.
Finally proposed changes to Title IX would violate parental rights particularly with respect to teaching their children about sex. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government, nor is it appropriate for schools to be assuming the authority to instruct children on these issues.

For the above reasons, I respectfully oppose the proposed changes to Title IX and request that they not be adopted.

Thank you,

Mrs. Susan Prosser

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. John McBride

Acting Director Goldberg

Dear Acting Director Goldberg,

Dear Department of Education,
I recently learned of the Biden administration’s agenda to rewrite policies regarding gender ideologies in schools nationwide. This is not the role of government. State and local school boards and primarily parents should have the discretion to decide if their children will be best served by allowing boys to share girls locker rooms, (which should never happen), allowing boys to compete against girls in girls sports (a discriminatory practice that is unfair and demeaning to our youth), and for their children to be educated about human sexuality (something the government has no business being involved in).

The Department’s “Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 is of great concern. The Biden Administration and the Department of Education have clearly ignored the definitions, purpose, and scope of this law. They would put girls and women at risk for discrimination, oppression and abuse.

The Department of Education must not attempt to undermine values that would end up violating the privacy and safety of girls.

Also, girls must not be forced into competing against biological boys and must not be censored for speaking out about this abuse.

Finally, parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Suzann Wimer

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. LORI GREEN

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

As a female, I am appalled that a young woman may not have the ability to shield her privacy in bathrooms and locker rooms across the country. To subject herself to body shaming, sexual innuendo, abuse or worse rape, my heart breaks for the possibilities of all of these situations that can and absolutely will occur to our young people. Sex is a sacred thing to be discussed with young children, youth and teens only with a trusted parent not a LGBTQIA proponent ensconced in the public forum of so called progressive schools. As a former educator I witnessed so many
broken children that had at an early age, been subjected to sexual abuse and pornography by trusted adults. Their brokenness was heartbreaking because it took so much for them to trust someone again. Make no mistake, the sex Ed that is being taught to our youngest children in schools is not healthy nor helpful. It is demonic and deviant. PLEASE do NOT pass this TITLE IX enforcement and also deny the education system to teach sex to our children. That is a GOD given right for parents to decide how, when and what will be taught to their own flesh and blood.

Do what is right not what is popular in this broken world.

Thank you,

Mrs. Nancy Botelho

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

To do so, is to go backwards, not forward.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls, nor their right to compete in girl only (no biological males) sports. Why not create a separate group for transgender girls (ie, biological males who want to identify as female). Let them compete against their true gender or compete against themselves. Since biological males have distinct advantages over biological girls, it's not fair for biological girls to have them compete against biological males.

People may want to change their gender and claim there are many genders, but if we stick to science there are still only two; male and female.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide. Please do not make any changes to Title X. Rather encourage schools to make a new category in sports; transgender,
so all trans students compete against themselves. 
Thank you for your time and consideration on this important topic. 

Thank you,

Mrs. Willard Michael

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Delores Baez

The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

As the grandmother or two girls, one of whom competes in track, these things are deeply concerning to me. Children are not stupid; they are trusting. We are all born with a conscience. Con meaning with. Science meaning knowledge. To purposely teach what children and adults instinctively know is against natural design is to purposely confuse and corrupt.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were written to benefit and protect biological females. The current administration wants to frustrate, if not defeat, this purpose by using the amendment to promote a political agenda geared at pushing the concept of multiple sexual genders and outlawing the application of a binary sexual gender approach that promotes biological women and girls.

The current administration is willing to put the safety of women and girls at risk by forcing them to mingle with males in such private functions as bathing, showering, and even using a toilet. Biological girls are being forced to compete with biological males in athletic contests which frustrate the very purpose of the Title IX Amendment. Such a use makes girls second class citizens as activities designed to promote them are defeated by the inclusion of biological males. The girls are not even allowed to object to this unfair process without threat of penalty which violates their First Amendment right of free speech.

Even the parental rights of rearing their own children is under attack with parents being threatened with penalties if they refuse to support the political objectives of the current administration. This smacks of authoritarianism and dictatorship which is anathema to the American way of life and our basic government.

Thank you,

Dr. David Porter

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Nancy Hendren

Acting Director Goldberg

Dear Acting Director Goldberg,

To Whom It May Concern:

This comment is coming from a person who is concerned about public education and who has 32 years experience teaching in NJ public school. I am expressing my opposition to any changes in the way the state defines sex. "Sexual orientation" and "gender identity" should play no part in defining a person's sex. Sex is determined by one's birth certificate on which the person's sex is confirmed by the person's genitalia produced by the person's DNA even before he or she leaves his or her mother's womb. It is not determined by how one sees himself or herself at a later date or how they choose to present themselves to others. One's DNA, at least as this point, is an unchangeable, scientifically accurate identifier of one's sex that is not changed by how one sees himself or herself, or by a sex-change operation, or by hormone treatments. No matter what a human may do to themselves physically or what they may think, their DNA speaks the truth about their sex. People who desire to live as a gender not indicated by their DNA certainly have the right to do as they please. However, they cannot be allowed to do that when it has a detrimental impact - emotionally, psychologically, or physically - to others. Imagine being a young man who has known a person for 15 years as a female having to share a locker room with her during his sophomore year in high school because she now identifies as a male. That would be incredibly uncomfortable without a doubt and could surely lead to some issues. The same would be true for someone thought of as a male being placed in a locker room with young women. We cannot see things ending well in either circumstance. Our greatest concerns, however, as teachers who were also coaches is the impact redefining sex will have on young women participating in sports. After years working for equal opportunity for females through Title IX, to see females forced to compete for championships and scholarships against males who identify as woman but have the genetic and body mass advantage provided through male DNA is beyond disheartening and intrinsically unfair. If you need proof, look up the record times and distances recorded recently by the top male high school track and field athletes and the record times and distances recorded for the top female Olympians in the same events. Hopefully,
what you read will be eye-opening. Here is the bottom line. Our desire is that all people should feel welcomed and valued in our society, but the way in which we accomplish that for one group cannot be allowed to negatively impact another. Women are a group who have already taken a long journey toward equality. Now that they have seen so much progress, it is unthinkable to allow genetic males (who will ALWAYS be genetic males) to negatively impact women’s success. And the negative impact on athletic programs themselves at every level, but especially for high school and college programs, is almost hard to imagine. Women will be disenfranchised, and that is unacceptable.

Thank you,

Mrs. Letitia Sarracino

I don't think I'm alone in thinking it appalling and completely unacceptable to force these ideologies upon our children. HERE’S AN IDEA - LET'S GET BACK TO THE BASICS OF EDUCATION SO THAT OUR CHILDREN CAN SIMPLY GROW INTO INTELLIGENT ADULTS. AND AGAIN, RESPECT PARENTS ENOUGH TO LET THEM TEACH WHAT THEY THINK IS APPROPRIATE AT THE APPROPRIATE TIME.

Acting Director Goldberg

Dear Acting Director Goldberg,

I highly oppose the implementation of Title IX. It is indecent and immoral to force these kinds of lifestyle and behavior choices on the American people who have the God-given right to decide what they think is best for themselves, their children and how they should be raised and educated.

There should not be laws governing morality and individual lifestyle choices that are born out of people's own confusion, a destructive past or lack of personal discipline. I don't believe government has the right to impose a curriculum that seeks to destroy and manipulate the minds and hearts of young, vulnerable and innocent children who are unable to distinguish what is right and what is wrong and do not have the experience or the wisdom to discern and oppose the ideologies of people who don't care. An individual's values and standards should be governed by their own personal beliefs and conscience, and not dictated by any government.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys who want to impersonate them.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Wanda Massey

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Dear Acting Director Goldberg,

I STRONGLY OPPOSE ANY CHANGES in the current federal education policies that redefine "sex" to include "sexual orientation" and "gender identity." Biden's Education Department has no place attempting to implement this radical agenda into every local school district in the country to manipulate the minds of our innocent children.

Dear Acting Director Goldberg,

I am writing to give you my comments for the Title IX Virtual Public Hearing, which is gathering information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972.

These amendments were designed to provide women and girls with educational opportunities. To the contrary, incorporating sexual orientation and gender identity in national education policies would violate privacy and undercut opportunities for women and girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys with physical advantages are allowed to compete directly and unfairly with them. The Department must not force girls to forfeit their opportunities.

Rather than implementing radical gender ideologies, the Department should respect parental rights, including the rights of parents to teach their children about sex.

Thank you,

Mr. Robert Rodriguez

I strongly condemn and oppose any and all efforts to indoctrinate children, of all ages and races, to believe that there are more than two genders. Man and woman God created. Any other teaching is a sick deviation; which the government has no business teaching. I oppose the use of my hard earned tax dollars to push liberal progressive anti Christian believe. It is completely irresponsible on the part of the Department of Education to even contemplate hearings and meeting to force an anti american agenda; against our principles and morals.
Please stop these efforts before you cause irreversible damage to our country and society.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Carolyn Pacek

I STRONGLY agree with ALL of the above! Women have fought too hard for too many years to achieve the rights we have! And are still fighting for them! Example: kamel Harris wouldn't be where she is right now if not for those rights we've won! Let the mutilated ones compete against each other! So STOP trying to take women's rights away from us! And it's OUR job to teach OUR children about sex! NOT YOURS!! Regardless of whether you're for or against child mutilation, it's the PARENTS responsibility to inform their own children about it!! NOT YOU, EVER!!

Thank you,

You will get plenty of specific input, but I want to suggest the underlying basis for this depraved or reprobate thinking.

I don't know if there are any left in positions of power that believe in a Creator, God, but His revelation to the highest of His creation, mankind, the Bible, point out the explicit reasons for this kind of thinking. It is found in the book of Romans, Chapter 1, verses 18-32.

Our beloved nation is literally spinning out of control, and the ultimate outcome will not be pretty. Your children are going to have to deal with these irrational decisions. God help them.

Very sincerely,

Acting Director Goldberg

Dear Acting Director Goldberg,

Sex education belongs to the family, not the public (ie school, job or any other public institution or outlet).

Sexuality is our most base form of being. We are created/born - "male and female created He them" - and is proven by untampered DNA.

With the ungodly science and evil political agendas of our times, if allowed, future DNA may be manipulated and spew forth something other. However, whatever that may be, it will not be HUMAN.

I ask that you, as a responsible HUMAN BEING, created/born of the union of one male and one female, identify with your innate sexuality. In so doing, I trust that you will remember how personal the subject is and how is should not be exploited by being made a public spectacle and by vial, evil, political agendas.

Get sex education out of the public domain!

Thank you,

Mr. Patrice Smith

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Monte Campbell

Sex education belongs to the family, not the public (i.e., school, job or any other public institution or outlet).

Sexuality is our most base form of being. We are created/born - "male and female created He them" - and is proven by untampered DNA.

With the ungodly science and evil political agendas of our times, if allowed, future DNA may be manipulated and spew forth something other. However, whatever that may be, it will not be HUMAN.

I ask that you, as a responsible HUMAN BEING, created/born of the union of one male and one female, identify with your innate sexuality. In so doing, I trust that you will remember how personal the subject is and how is should not be exploited by being made a public spectacle and by vial, evil, political agendas.

Get sex education out of the public domain!

Thank you,

Mr. Gordon Smith

The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Sex education belongs to the family, not the public (ie school, job or any other public institution or outlet).

Sexuality is our most base form of being. We are created/born - "male and female created He them" - and is proven by untampered DNA.

With the ungodly science and evil political agendas of our times, if allowed, future DNA may be manipulated and spew forth something other. However, whatever that may be, it will not be HUMAN.

I ask that you, as a responsible HUMAN BEING, created/born of the union of one male and one female, identify with your innate sexuality. In so doing, I trust that you will remember how personal the subject is and how it should not be exploited by being made a public spectacle and by vial, evil, political agendas.

Get sex education out of the public domain!

Thank you,

Mr. Patrice Smith

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

We fully support the original intent of Title IX, as written and amended in 1972. These amendments were crafted to give educational opportunities to women and girls.

The Biden agenda to redefine Title IX would obliterate the original intent of this law. The proposed changes would remove privacy as well as destroying opportunities for women and girls. Males do not belong in girls locker rooms or on the field with them.

The Biden agenda deprives parents of their God given right to teach their children about sex and must be respected.

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Joy Johnson

Usurping the authority and sensibilities of families and communities to pursue progressive objectives is not the role of an Education Department desiring to be valued or respected by the majority of Americans. Spend your focus instead on helping local school districts decertify the teachers unions that have show clearly themselves to be disconnected from the goals of tax-paying families.

Thank you,

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls, and they do not need any 'improvements' whatsoever. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls and women.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Last but not least--rather most importantly--are the parental rights, which include but are not limited to the rights of parents to teach their children about sex, relationships, and roles in life; all these must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government and is viewed by many as a grievous mistake which will affect American families greatly. The Department must reject implementing radical gender ideologies nationwide.

Please keep Title IX as-is, and allow women, children, and families to function peacefully and privately according to the freedoms we are guaranteed in the great country of America.
Thank you,

Mrs. Krystal Jordan

Sex education belongs to the family, not the public (ie school, job or any other public institution or outlet).

Sexuality is our most base form of being. We are created/born - "male and female created He them" - and is proven by untampered DNA.

With the ungodly science and evil political agendas of our times, if allowed, future DNA may be manipulated and spew forth something other. However, whatever that may be, it will not be HUMAN.

I ask that you, as a responsible HUMAN BEING, created/born of the union of one male and one female, identify with your inate sexuality. In so doing, I trust that you will remember how personal the subject is and how is should not be exploited by being made a public spectacule and by vial, evil, political agendas.

Get sex education out of the public domain!

Thank you,

Mr. Gordon Smith

Acting Director Goldberg

Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mr. Alex Martinez

Dear Acting Director Goldberg,

I am totally concerned with the education department and school districts stuffing sex genders gays cross dressers and critical race theory down the throats of our young children. This is not the job of the schools. They need to be teaching math English science. Not be secretly teaching liberal agenda.

The rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Please don't pass laws that jeopardize so many to placate a few.

I find it unbelievable that lawmakers think that youths know enough to make life-changing decisions regarding sexual orientation. Very scary!

Dear Acting Director Goldberg,

I am writing to you concerning the Department’s "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration’s and the Department’s actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls. You are apparently willing to alienate half of the population and throw away the gains of the women’s movement.

I remember when the Obama Administration threatened Title IX funding if schools didn’t force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys. Freedom of opportunity is for girls as well as boys. Quit limiting that.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Finally, to be abundantly clear, I very strongly oppose any attempts to redefine “sex”, to have schools teach about such "redefined sex" and the attempt to remove or change parental rights in these matters!

Dear Acting Director Goldberg,

I am writing to you because I strongly oppose redefining "sex" and "gender" in the public school policies. Any redefinition of any kind has incredible implications for a society—in all respects, including its most vulnerable—young children. As a people, we have a responsibility to be cautious and slow when it comes to any kind of massive change of language and definitions. We MUST allow the test of time to be the litmus before we make official policy changes. Not doing so puts the health, well-being, and future of our sweet, innocent progeny at great risk. Dear Acting Director Goldberg,

I am writing to you concerning the Department's "Title IX Virtual Public Hearing to gather information for the purpose of improving enforcement of Title IX of the Education Amendments of 1972 (Title IX)."

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities from women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Valerie Thomas

God made us male or female. If a person cannot look between their legs and figure out what sex they are then they have a real mental problem. All the Biden administration wants to do is push the LGBTQ agenda down our children's throats and I am fed up with it. The sodomites make up less than 2% of our population, so quit favoring their ungodly lifestyle and get to work on the real problems in America.

Please protect the integrity of Title IX by keeping it based off biological sex only. Girl's and women deserve their own spaces and sports free from male bodies. I benefited from Title IX and was able to play sports against only female bodies and I obtained a college scholarship for running. Being a female is a biological reality not an identity or a feeling and Title IX should reflect that.

PLEASE DO NOT MAKE ANY CHANGES TO TITLE IX OR IN THE WAY IT IS ENFORCED, ADMINISTERED, OR INTERPRETED.

Women and girls should not be forced to share showers, locker rooms, and hotels with boys. We have a right to privacy and to compete for scholarships and opportunities on an equal playing field. To force biological girls to compete with biological boys is misogyny.

The Department must reject radical gender ideologies and politics and instead focus on biological facts and data.

I object to biological females being forced to accept biological males with intact sexual anatomy being in their locker rooms, showers, and restrooms because it is traumatic to girls/women who have been molested, raped, or sexually abused. Victims often have not told anyone about their abuse and the act of being forced to be with naked male anatomy can be triggering and traumatic and cause more lasting mental health damage. The girls will have no way to object to this further trauma that would be inflicted upon them. Please keep girls' and women's private spaces intact to protect victims of sexual violence.

Thank you.

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse- harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities to boys.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Cindy Florkey

Let me put it this way, when you take your last breath on earth, you will answer to God for your involvement in this very decision. I wouldn't want to be you at that given time.

This is insane, you are going to be the cause of so many rapping's and

The Title IX Amendments were clearly crafted to give educational opportunities to women and girls. The Biden Administration and the Department have clearly ignored the definitions, purpose, and scope of this law. The Administration's and the Department's actions, thus far, have shown their rush to redefine law and, worse, harm privacy and steal opportunities for women and girls.

I remember when the Obama Administration threatened Title IX funding if schools didn't force girls to share showers, locker rooms, and hotels with boys. Thankfully, a nationwide injunction stopped it. This Department must not violate the privacy of girls.

Today, girls are being forced to give up their places on podiums at sports events because biological boys are allowed to compete with them. And when they speak up, they are censored. This Department must not force girls to forfeit their opportunities.

Finally parental rights- including rights of parents to teach their children about sex- must be respected. Implementing radical gender ideologies in schools nationwide is NOT the role of the federal government. The Department must reject implementing radical gender ideologies nationwide.

Thank you,

Mrs. Deborah Casey

As a grandmother I am seriously concerned with what this administration is proposing. This is distressing and disturbing to think that in my granddaughter's lifetime she would be exposed to such a horrific piece of legislation. This administration does not value our children but dishonors them and the generations to come. Your decision in this will affect generations to come and ultimately your decision will be responsible for their well-being and value and safety.

I am a teacher in an elementary public school. Students do not need to have gender identity pushed needlessly into their thoughts. They do not need to have sexual discussions brought up at this stage in their development. They have hardly had time to embrace their biological identity before they are told that they have the right to be confused about their gender. Such discussions will only work to confuse children about who they are born to be. Just as we should not hand toddlers a wallet full of money before they even know what money is and how to be
good stewards of it, so we should not hand children an idea that they are not ready to understand the full ramifications of. It's not age-appropriated. It also goes against the moral values upon which our country was founded. It also sets precedent for children to be exposed to propaganda towards values most Americans do not share. Just from a financial point of view, if we hypothetically convince children to consider changing their sex at this age, shouldn't we also expect the government to pay for it? It is not a financially sound decision.

While having the right to marry someone of the same gender is now constitutional, it should also be constitutional to say that I do not believe that this is an agenda that needs to be pushed into children's minds. If children choose to explore their sexuality, certainly they can do so without the pushing of the public school system. I am not pushing a "hate agenda" in my home by choosing not to introduce it, and the schools would not be sending "hate messages" for not doing so either. Each family should be able to make that determination for themselves. This is NOT an area the government needs to get involved in, telling its youngest citizens information that should be left to the discretion of the parents.

Thank you,

Mrs. Amanda Clayborne-Smith
