Subject: Written Comment: Title IX Public Hearing (Including Gender Identity Protections Is Harmful To Female's Sex Based Rights)

Gender Identity should not be included in Title 9 protections. It will inherently lead to an erosion of girls' sex based protections. They should not have to compete with and share space with biological males. The whole point of Title 9 was to improve opportunities for biological females. Using it to somehow "protect" biological males by forcing society to ignore the scientific reality that they are not female is going to result in a great deal of harm to females.
