I am very concerned that biological males would be allowed access to women-only facilities and sports.

Men, professing to feel feminine, would be allowed free access to women's locker rooms, bathrooms, and other private areas in which women are vulnerable to attack.

Also, a biological male, professing his choice to identify as a women, competing in female sports will still possess a greater muscle mass enabling that person to outperform and, possibly, injure a biological female.

It is dangerous to allow biological males into women-only facilities and sports.

I object to any regulations that would allow or mandate such actions.

Thank you,

Jackie Croom
