Subject: Save women's sport

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Male bodied athletes should compete in male or trans sports categories, not women's. It is unfair and in many cases, dangerous. Males have an overall physical advantage that testosterone suppression does not reduce.

Male bodied people should not be allowed in female only spaces, like locker rooms and showers. These spaces are for the preservation and dignity of women and children.

Please create a third category and facilities for trans people to give them the inclusion they require.
