I am a father of two daughters and a bicycle racing official. Women will stop competing in droves. They tell me they will. I hear their complaints as I work races and they are forced to race with male bodied person's and often bullied in dangerous racing situations. Women have died in bicycle races, it is a risky sport. This mixing of sexes will only make it riskier for women.

Many transgender females are against trans females competing with females in sports. They understand and see the lunacy to this. They understand that forcing this issue will have negative impacts to their fight for other much more important rights and issues.

I have a transgender nephew. I am not trans phobic or anti trans. I support trans rights regarding other issues. Please make sure anything you change about title nine doesn't ruin girls sports for millions of girls who will remember your decisions about their sports.

Jim Wright
