I'm writing to express my views on the changes to Title IX based on President Biden's executive order.

Gender identity has nothing to do with the body, the SEX of the person. Sex is why females are discriminated against, why they have a distinct disadvantage in sports from men, and why they suffer sexual harassment. If I were to switch clothes with a man and adopt a different "identity" I'd still be the one catcalled, I'd still have a disadvantage in sports, and I'd still be discriminated against in the workplace due to my body's ability to give birth and because I am female.

Keeping males out of sports with females is not discrimination, it is upholding Title IX.

Allowing males to play with females in sex segregated sports is demoralizing and unfair to females. It is just plain WRONG and the American public knows it - poll after poll shows that this is highly unpopular with the vast majority of Americans.

This entire thing is anti-women and girls, and the number of women in this country coming to realize this is growing and will certainly increase a lot due to the movement in the UK.

I voted for Biden in 2020 but certainly will not in 2024 if this is how he treats us.
