CRT—which espouses the idea that race is not natural, but socially constructed to oppress and exploit minorities—is an offshoot of the quasi-Marxist critical theory social philosophy that was promoted by the Frankfurt school of thought. “ALL 50 States & its territories must reject critical race theory and other so-called ‘woke’ philosophies that maintain that one race or sex is inherently superior to another race or sex or that any individual, by virtue of his or her race or sex, is inherently racist, sexist or oppressive”. “These divisive concepts have been inserted into curriculums around the state, but they have no place in American schools.”
