To Whom it May Concern,

As an American taxpayer, I have a right to let you know that I do not agree with President Biden & the Dept of Education in regards to promoting transgenderism among our precious school children. When did God die and put them in charge of creation? We are only hurting our children when we accept the lie that we can alter our gender. Is it truly possible to change our gender? No. So why would we want to deceive our children into thinking they can? History shows that people who switch genders realize they are still the same sex underneath all the surgeries and hormones, they become depressed and suicidal. We would be far more helpful to our children if we supplied them with guidance to help them believe in who they are, who they were born to be. If we fail in this mission, we have their blood on our hands. Let's get real.

Thank you for listening,
Susan Hanes
