Subject: Title IX "gender vs sex"

Sports, locker rooms, and bathrooms should be segregated on the basis of sex, not gender. Girls should be allowed the privacy and dignity of their own spaces. If trans-identifying students are uncomfortable in spaces for their birth sex then accommodations should be made for a third space. Girls are not human shields for vulnerable gender nonconforming males and their female spaces should not be violated to validate males feelings. Women are whole, actual human beings with different biology from males. Feelings don't change biology.
