To Whom It May Concern:

I am writing regarding the Title IX Public Hearing and the radical LGBT (etc) agenda, which I believe is a serious threat to religious liberty as well as the greater moral fabric of our country. The proposal to include phrases such as "sexual orientation" and "gender identity" instead of the simple term "sex" (gender) has profound consequences that will threaten and negatively affect a majority of Americans, particularly those with strong moral and religious convictions.

We are already seeing issues in this area as teachers, concerned parents, coaches, and others involved in all levels of education are being disciplined and even losing their jobs for simply standing against what they perceive as moral depravity. Forcing people to use pronouns inconsistent with biological sex, forcing them to not only accept but to embrace what their religious beliefs say is immoral and wrong, and forcing girls and young women to share restrooms, locker rooms, and even dormitory rooms with biological males - against their will! - is not only depraved, it is dangerous.

Other points to consider:

- Transgender girls are biological males and, as Olympian Caitlyn (Bruce) Jenner notes, "That's why I oppose biological boys who are trans competing in girls' sports in schools. It just isn't fair. And we have to protect girls' sports in our schools."
- The First Amendment is still the First Amendment and religious schools which adhere to Biblical teaching on sexuality are protected by it.
- The majority of Americans do not want their taxpayer dollars used to force religious schools to abandon Biblical teaching.

Stop catering to the radical agenda of a confused and misguided few. Their deviant notions are not equivalent to differences such as race or ethnicity; these are debased and morally corrupt ideas that threaten the very fabric of our society. People who embrace these perverted ways currently have myriad choices and rights, including the right to NOT attend a school where religious standards apply. Let's not, in the effort to achieve "equality," produce the exact opposite - abolishing the right to freely exercise one's religious beliefs - for millions of Americans in the process.

In absolute sincerity,

Mrs. Sandra Muller
