To whom it may concern. I am writing because I believe that transgender girls are biological males. This gives them an unfair advantage over biological girls in Sports much like performance enhancing drugs do: and we do not permit performance enhancing drugs in sports. Therefore, I do not believe that transgender girls who are biological females should be able to compete in women's sports.

Also I believe that the First Amendment is still in effect and it protects the rights of religious schools to teach on sexuality as they believe their faith directs.

Finally, I think the majority of Americans do not want their tax payer money going to forcing religious schools to abandon biblical teaching.

Thank you for your attention to my comments.
